Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

The Dandy Curb Sack is a geotextile fabric unit designed to be fitted to curb and gutter inlet systems. The product is placed in front of and extends beyond the inlet opening on both sides, and has a fabric sack that is fitted to the inlet opening. Dandy Curb Sack is available in a variety of dimensions ranging up to 4-ft x 4-ft.

Restrictions, (installation and/or use):

Dandy Products will only function as intended if it is installed in accordance with manufacturer's recommendations.

Use of the product, (be specific to CDOT highway activities only):

Storm drain inlet protection.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):

The Dandy Curb Sack is specially designed to conform to the shape of the curb and provide built-in overflow design. The product reduces or eliminates the need to flush or clean inlets, and is easy to install, maintain, inspect, and reuse.
