Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

CEMEX (CX) Lyons Plant, Type V Portland Cement is a sulfate resistant, general purpose cement produced in accordance with ASTM C150, Portland Cement.

Restrictions, (installation and/or use):

none

Use of the product, (be specific to CDOT highway activities only):

Infrastructure systems; structural concrete; Portland Cement Concrete Pavement (PCCP); Slope pavement; Soil stabilization; backfill material

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):

CEMEX Lyons Type V cement is a relatively new product for the Colorado market however since it is produced at the Lyons facility, it should provide the same consistent and reliable performance as other CX Lyons products.
