

Resolution # TC-17-5-5

2017 Standard Specifications for road and Bridge Construction

Approved by the Transportation Commission on May 18, 2017

WHEREAS, in accordance with Section 43-2-107, C.R.S. 1973, it is the responsibility of the Transportation Commission to adopt and approve the standards of construction of the Department of Transportation; and

WHEREAS, the Department of Transportation has held many meetings and devoted much time to research to develop the 2017 Standard Specifications for Road and Bridge Construction for the State of Colorado; and

WHEREAS, the Department of Transportation has prepared and published the 2017 Standard Specifications for Road and Bridge Construction for the State of Colorado; and

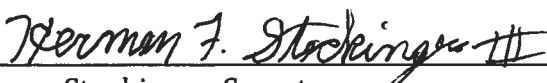

WHEREAS, the Transportation Commission has requested the Department of Transportation to submit the 2017 Standard Specifications for Road and Bridge Construction for its consideration and approval; and

WHEREAS, the preparation and publication of the 2017 Standard Specifications for Road and Bridge Construction provides an orderly process whereby the Commission and the Department discharge their respective responsibilities; and

WHEREAS, the Transportation Commission previously adopted the 2011 Standard Specifications for Road and Bridge Construction; and

WHEREAS, the Transportation Commission has reviewed the modifications proposed to be made to the 2011 edition for inclusion in the 2017 edition.

NOW THEREFORE BE IT RESOLVED, that the 2017 Standard Specifications for Road and Bridge Construction is hereby adopted and approved by the Transportation Commission as the standards of construction to be used on specified projects advertised for bids in June, July, and August 2017 and thereafter to be used on all projects advertised on or after September 1, 2017.

Herman Stockinger, Secretary
Transportation Commission of Colorado
