

Resolution #TC-2022-10-03

Approval of Updated Policy Directive 1900.0 “Noise Mitigation Policy.”

Approved by the Transportation Commission on October 20, 2022.

WHEREAS, § 43-1-106 (8)(a) C.R.S. provides authority to the Transportation Commission of Colorado (“Commission”) to formulate the general policy with respect to the management, construction, and maintenance of public highways and other transportation systems in the state; and

WHEREAS, Policy Directive 1900.0 “Noise Mitigation Policy” was last adopted by the Transportation Commission on May 16, 2013; and

WHEREAS, Policy Directive 1900.0 sets forth the requirements for noise barriers on state highway rights-of-way; and

WHEREAS, this Policy Directive states that the CDOT Noise Analysis and Abatement Guidelines (“NAAG”) is the definitive authority to provide technical procedural direction on noise abatement and mitigation measures on all projects involving federal, state or local requirements; and

WHEREAS, pursuant to 23 CFR 772, CDOT is required to have the NAAG maintained and updated when federal regulations are modified; and

WHEREAS, placing state and federal requirements in the FHWA-required and approved NAAG allows the Department to continually amend it for outstanding technical concerns and practical applications every five years.

NOW THEREFORE BE IT RESOLVED, the Commission herein adopts updated Policy Directive 1900.0, “Noise Mitigation Policy.”
