

Resolution # TC-15-8-2

Repeal of Policy Directive 805.0, "Work Zone Safety and Mobility" dated 10.16.08

Approved by the Transportation Commission on Aug. 20, 2015

WHEREAS, § 43-1-106, C.R.S. gives authority to the Transportation Commission of Colorado ("Commission") to formulate general policy with respect to the management, construction, and maintenance of public highways and other transportation systems in the state; and

WHEREAS, the Department continues to review Policy Directives to determine whether they still offer value; and

WHEREAS, the Department has determined that this Policy Directive 805.0 no longer provides value given that the companion Procedural Directive 1502.1 (formerly 805.1) contains sufficient guidance on the safe and efficient movement of both motorized and non-motorized traffic through or around temporary traffic control work zones, and the protection for workers and equipment located within those work zones.; and

WHEREAS, updated Procedural Directive 1502.1 will meet the requirements of 23 U.S.C. 603.1006 which mandates that clear direction be given regarding work zone safety; and

WHEREAS, in addition to the updated Procedural Directive, the relevant terms of Policy Directive 805.0 are included in CDOT's "Work Zone Safety and Mobility Rule Protocol" which is reviewed bi-annually by the Federal Highway Administration ("FHWA") Division Administrator.

NOW THEREFORE BE IT RESOLVED, the Commission repeals Policy Directive 805.0 as being no longer necessary.

Herman Stockinger
Transportation Secretary
