

Resolution # TC-1759

Policy Directive 501.0 Drainage Design and Cooperative Storm Drainage System

WHEREAS, under the Colorado Revised Statutes 43-1-106(8), the Transportation Commission of Colorado has the statutory responsibility to set policies and establish rules for the Colorado Department of Transportation (CDOT); and

WHEREAS, CDOT staff has reviewed the Drainage Design and Cooperative Storm Drainage System Policy Directive adopted by the Transportation Commission in March 2004; and

WHEREAS, the intent of the Policy Directive is to assure the uniform development and implementation of drainage design and to establish uniform procedures to equitably apportion the cost of storm drainage systems for accepting off-site flow between CDOT and the local agency, developer or landowner; and

WHEREAS, the process and methods to implement the policy are defined in Procedural Directives 501.1 and 501.2.

NOW THEREFORE BE IT RESOLVED, Policy Directive 501.0 Drainage Design and Cooperative Storm Drainage System is hereby adopted as submitted as the standard form for use by CDOT.
