RE: Asbestos and Lead-Based Paint Inspection Report for Structure I-17-X located at US Highway 24 Service Road MM 295.387 over Fountain Creek near Cascade, Colorado

Dear Mr. Clark,

The Colorado Department of Transportation (CDOT) Environmental Project Coordinator (EPC) completed an asbestos and lead-based paint inspection at structure I-17-X located at US Highway 24 Service Road Mile Marker (MM) 295.387 over Fountain Creek in Cascade, Colorado. The CDOT-EPC is a certified asbestos building inspector, certification # 13915.

On September 17, 2019 the CDOT-EPC performed the asbestos and lead-based paint inspection of the structure. The structure is approximately 21 feet in length by 44 feet in width and was constructed in 1965. The structure is a concrete box culvert without guardrails.

Asbestos-containing materials (ACMs) were not identified during the inspection so bulk samples were not collected. Painted substrates were also not identified during the inspection, thus paint samples were not collected. Please contact (720) 582-0694 with any questions or concerns regarding this report.

Sincerely,

COLORADO DEPARTMENT OF TRANSPORTATION

Tim Hagert
Environmental Project Coordinator
Certified Asbestos Building Inspector #13915
