RE: Wetland Clearance Memo
Region 2 Bridge Bundles, FBR R200-267, SA 23559, Structure I-17-X

Please accept this letter as a wetland clearance for the CDOT Region 2 Bridge Bundle for the specific structure mentioned above. I reviewed the Aquatic Resources Delineation Report for bridge I-17-X and found it complete and accurate. No additional action is needed for this phase of the project regarding wetlands/waters.
