

CDOT ESB Mentor-Protégé Program

Information & Resources

CDOT fosters small business capacity development through programs that help increase small business participation on transportation industry contracts.

CDOT's Mentor-Protégé Program provides opportunities for Emerging Small Businesses to build professional relationships with established firms and CDOT employees.

Program Overview

Mentor-Protégé teams are on the front lines of CDOT conversations and are actively involved in discussions around program development, CDOT initiatives, and policy changes that impact small business participation. Teams also interact with CDOT engineers, Executive Leadership, and Transportation Commissioners through exclusive networking events like the annual kickoff luncheon, which is held in January.

2020 Cohort Key Dates

Applications Available: Late Summer 2019

Applications Due: Mid November 2019

Teams Selected: Mid December

Program Kick-Off: January 2020
