

Summary of Addendum #1, includes but is not limited to:

Plan Sheets (both Packages):

- Quantity tabs have been highlighted to help differentiate which signs are carried in Package #7 and which signs are carried in Package #8.
- Additional information has been provided for the two Toll Point Cantilever structures. One can be found in Segment 2A and the other in Segment 5. The additional plan sheets are located at the end of each set of segment drawings.
- Segment 4 RFC drawings have now replaced Segment 4 Pre-RFC drawings. The main changes in Segment 4 are that the Kechter signs now have Telespar posts, and that the designers have “un-bubbled” the Connell Access.
- In Segment 2A eliminated a few ramp meter signs that will be installed by others.

RFP (Package #8):

- Changes to Appendix B quantities (upon additional takeoffs)

RFP (Package #7):

- Changes to Appendix B quantities (upon additional takeoffs)

ITB (Package #8):

- Provided additional description on the Toll Point Cantilever structures.
