

NSM Contractor Review
APC Construction for Gencor Ultrafoam GX2
September 02, 2011

DATE: September 2, 2011

FROM: Jim Zufall, Materials and Geotechnical Branch Manager

TO: MAC Members and Industry Partners

SUBJECT: Final Decision on Approval of Non-Standard Mix Submittal for APC Construction Approval using Gencor Ultrafoam GX2

REFERENCE: <http://www.coloradodot.info/business/apl/asphalt-non-standard-mix.html>

Overview

The review panel for evaluation of Non-Standard (NSM) Asphalt Mixture submittals was provided documentation and queried via email during the period August 22 to September 1, 2011. In accordance with the Colorado Procedure 59 (CP-59) APC Construction (APC) has requested review and approval as a Contractor using Gencor Ultrafoam GX2.

Quality of Submittal

APC Construction using Gencor Ultrafoam GX2 was submitted for CDOT consideration. The submittal was sufficient for the panel to review abilities for APC to design, batch, and construct WMA using the Gencor Ultrafoam GX2 product/technology. The Gencor Ultrafoam GX2 product is an approved technology, currently with a 5,000 Ton restriction; as such the technology was not reviewed.

NSM Decision

APC is approved as a contractor for design, batch, and construction of the Gencor Ultrafoam GX2 product/technology. The Gencor Ultrafoam GX2 technology/product is limited to 5,000 tons per project. This contractor will be listed as approved to use this technology on the CDOT website under the category of Approved NSM Contractors.

Re-evaluation Date
