

NSM Contractor Review
B&B Excavating for Gencor Ultrafoam GX2
September 30, 2011

DATE: September 30, 2011

FROM: Jim Zufall, Materials and Geotechnical Branch Manager

TO: MAC Members and Industry Partners

SUBJECT: Final Decision on Approval of Non-Standard Mix Submittal for B&B Excavating Contractor Approval using Gencor Ultrafoam GX2

REFERENCE: <http://www.coloradodot.info/business/apl/asphalt-non-standard-mix.html>

Overview

The review panel for evaluation of Non-Standard (NSM) Asphalt Mixture submittals was provided documentation and queried via email during the period September 15 to September 30, 2011. In accordance with the Colorado Procedure 59 (CP-59) B&B Excavating has requested review and approval as a Contractor using Gencor Ultrafoam GX2.

Quality of Submittal

B&B Excavating using Gencor Ultrafoam GX2 was submitted for CDOT consideration. The submittal was sufficient for the panel to review abilities for B&B Excavating to design, batch, and construct WMA using the Gencor Ultrafoam GX2 product/technology. The Gencor Ultrafoam GX2 product is an approved technology, currently with a 5,000 Ton restriction; as such the technology was not reviewed.

NSM Decision

B&B Excavating is approved as a Contractor for design, batch, and placement of the Gencor Ultrafoam GX2 product/ technology. The Gencor Ultrafoam GX2 technology/product is limited to 5,000 tons per project. This contractor will be listed as approved to use this technology on the CDOT website under the category of Approved NSM Contractors.

Re-evaluation Date
