

WMA Contractor Review

Coulson Excavating for Foamed WMA System

March 27, 2013

DATE: March 27, 2013

FROM: Bill Schiebel, Materials and Geotechnical Branch Manager

TO: MAC Members and Industry Partners

SUBJECT: Final Decision on Approval of Warm Mix Asphalt Mix Submittal for Coulson Excavating, Contractor Approval using TEREX's Foamed WMA System Technology

REFERENCE: <http://www.coloradodot.info/business/apl/asphalt-warm-mix.html>

Overview

The review panel for evaluation of Warm Mix Asphalt (WMA) submittals was provided documentation and queried via email during the period March 12, 2013 to March 26, 2013. In accordance with the Colorado Procedure 59 (CP-59) Coulson Excavating Company requested review and approval as a Contractor using TEREX's Foamed WMA.

Quality of Submittal

The Coulson Excavating Contractor submittal using TEREX's Foamed WMA technology was submitted for CDOT consideration. The submittal was sufficient for the panel to review abilities for Coulson to design, batch and construct WMA using the TEREX's Foamed WMA technology. TEREX's Foamed WMA is an approved technology that is limited to less than 5,000 ton; as such the technology was not reviewed.

WMA Decision

Coulson is approved as a contractor for design, batch and placement of the TEREX's Foamed WMA technology. This contractor will be posted to the CDOT website as an approved WMA technology under the category of Approved WMA Contractors.

Re-evaluation Date
