FROM: Jim Zufall, Materials and Geotechnical Branch Manager

TO: MAC Members and Industry Partners

SUBJECT: Final Decision on Approval for Everist Materials using Evotherm 3G (J1 and M1)

REFERENCE: <http://www.coloradodot.info/business/apl/asphalt-non-standard-mix.html>

Overview

The review panel for evaluation of Non-Standard (NSM) Asphalt Mixture submittals convened on April 14, 2011, in accordance with the Colorado Procedure 59 (CP-59). Everist Materials' submittal for using Evotherm 3G (J1 and M1) was reviewed.

Quality of Submittal

Everist Materials' submittal was very well prepared and comprehensive. Everist Materials showed previous experience with Evotherm, and a comprehensive understanding of CDOT's requirements for Non-Standard Mix technologies. Everist Materials should be commended on their well-organized and all-encompassing proposal.

NSM Decision

Everist Materials is approved by the panel to use Evotherm 3G (J1 and M1) WMA technology. This contractor will be listed as approved to use this technology on the CDOT website under the category of Approved NSM Contractors.
