

STIP Report

Statewide Transportation Improvement Program

OVERVIEW OF THE STIP REPORT

The STIP may also be accessed online at <https://www.codot.gov/business/budget/statewide-transportation-improvement-program-stip-reports-information>. An updated web-based version of the STIP is being developed which will allow for additional interactivity including project mapping and the ability to search the STIP.

There are two types of projects included in the STIP – Regionally Significant projects and Program Pool projects. Regionally Significant projects are stand-alone projects that meet specific federal criteria as projects serving regional transportation needs. The addition, deletion, or major changes to Regionally Significant projects require a STIP Amendment which includes public review and approval by FHWA/FTA. Minor changes can be made administratively via a STIP Administrative Modification. Program projects are projects that do not meet criteria for identification as Regionally Significant.

Regionally Significant projects and Program projects are differentiated by the naming convention used. Regionally Significant projects appear in the STIP as: SXX____. The “S” stands for STIP, the XX represents a Transportation Planning Region (TPR) or CDOT Region designation, followed by a four digit project number. STIP Programs are similar, however, a three digit extension is added to designate the projects within the program (i.e. SR15215.073). Regionally Significant projects are identified individually and include information on funding amounts and programmed years. Program projects are “grouped” under the relevant Program (i.e. Surface Treatment) without detailed information on funding amounts or year. This allows more flexibility in funding projects which are ready to move forward in the design and construction process without triggering a STIP Amendment or Administrative Modification.

The STIP is organized by CDOT Region. Statewide projects and programs appear in the Statewide Section of the STIP at the end of the STIP document. All dollars identified in the STIP are in thousands.

Fields in the STIP include the following:

- CDOT Region
- STIP ID – The unique identifier for Regionally Significant projects or STIP Programs
- STIP ID Description – A description of either a Regionally Significant project or STIP Program
- STIP WBS ID – A three digit extension of the STIP ID. Regionally Significant projects are identified by .999, STIP Programs by .000, and projects within STIP Programs by .001, .002, etc.
- STIP WBS Description – Includes the same information as STIP ID field for Regionally Significant projects and STIP Programs, or descriptions of specific projects within STIP Programs.
- Funding Program – Represents the CDOT funding program associated with a Regionally Significant project or STIP Program.
- Years – Identifies the funding (in thousands) by year by Funding Program for Regionally Significant projects or STIP Programs.
