

Help CDOT Improve Small Business Programs

Nominate a Small Business Collaborative Forum Advisory Boards chair at the December and January Forums

CDOT's Small Business Collaborative Forums are an opportunity to openly discuss solutions to issues affecting DBE and ESB utilization and success in the planning, design, construction, and operation of the Colorado transportation system. The Forum Advisory Board provides on-the-ground expertise in either transportation construction or professional services, liaising between small businesses and CDOT staff to ensure a culture of feedback and continuous improvement.

In order to make the Forums as productive as possible, CDOT places a few minimum requirements on Advisory Board eligibility:

- Has worked or is currently working on a CDOT project (either as a prime or a sub)
- Has worked or is currently working for a transportation-related small business
- Is able to commit to approximately 2 hours/quarter of planning time, and to attending all 4 Forums annually

Nomination Schedule

Construction Board: Open 12/3-12/7

Professional Services Board: Open 1/10-1/16

Election Schedule

Construction Board: Open 12/10-12/7

Professional Services Board: Open 1/21-1/25
