Consultants,

This package is for your use in preparing your Statement of Interest (SOI)/Work Plan (WP) for the professional services selection process for the Colorado Department of Transportation (CDOT). The consultant is encouraged to follow the outline and page distribution indicated in these instructions. The selection panel members will have limited time to review the submittals. If the panel has difficulty finding the desired information, they may consider the submittal as non-responsive and a lower score may result. Consultants must be pre-qualified one week prior to the SOI/WP submittal deadline.

Pages in excess of the page limits for each section will be removed from the submittal.

CDOT'S SELECTION PROCESS IS SUMMARIZED AS FOLLOWS:

SOI/WP Pre-score Activity

The CDOT Contracting Officer reviews the SOI/WP for completeness and compliance with the advertisement and these instructions. If acceptable, the Contracting Officer transmits the SOI/WP package to each panel member. The package includes:

- SOI/WP Scoring Guidelines
- Draft Scope of Work
- Notice to Consultants
- Acceptance Checklist
- SOI/WP for Each Consultant

In addition to the package, CDOT's Contracting Officer E-mails every panel member their copy of the Scoring Spreadsheet for this SOI/WP.

SOI/WP Scoring Activity

- Prior to the selection panel meeting the following occurs:
 - Every panel member scores every SOI/WP independently, The Business Programs Office scores every SOI/WP for Underutilized Disadvantaged Business, Enterprise (UDBE) participation.
 - The Business Programs Office scores every SOI/WP for Emerging Small Business (ESB) Participation, and The Agreements Office Contracting Officer scores every SOI/WP for workload factor (See new scoring weights).

The NEW workload factor is based on YOUR FIRM'S **amount of earnings** from new contracts WORKED ON in the previous two years:

For FY 2013 / 2014, the scale is as follows:

A) \$00.00 - \$3,000,000	5 points
B) \$3,000,000 to \$6 million	4 points
C) \$6 million to \$9 million	3 points
D) \$9 million to \$12 million	2 points
E) Over \$12 million	1 point

The Agreements Office evaluates this factor prior to the selection meeting. The total value of all contracts awarded to each consultant for the two years preceding the SOI/WP submittal date are included. This factor comprises 10-15 percent of the total score (depending on an interview or not). The workload score is not provided to the selection board until the selection meeting, after each of the panel members have already scored all consultant submittals and they have reached consensus on all of their scoring factors.

Selection or Short-list Panel Meeting

A selection panel meeting is held to compile scores and discuss the panel member's evaluations of the consultant's SOI/WP based on the following criteria:

- Firm Capability
- Past Performance on Similar Projects or Similar Teams
- Project Team and Capacity
- Work Location
- Capacity (new scoring criteria)
- Project Goals
- Project Control
- Project Concept
- Project Critical Issues

The selection panel reaches a consensus ranking of either the final selected firm, if there is not going to be an interview phase, or the short list of firms (the top 3 qualified consultants), if there is going to be an interview phase. The panel provides its recommendation to the Chief Engineer for approval. The Chief Engineer's approval. The Agreements Office will then proceed with selection notification or the interview phase.

Interview Selection Panel Meeting

The short listed firms have two weeks to prepare their presentation for their interview with the selection panel. The purpose this meeting is to allow consultants time to present their analysis of the project and to allow the panel time to clarify the consultant's qualifications in a question and answer session.

Final Selection

In making the final selection recommendation to the Chief Engineer, the panel reaches consensus on the ranking of the selected firm. The panel provides its recommendation to the Chief Engineer for approval. The Chief Engineer's approval is necessary before proceeding with selection notification.
