

**ADDENDUM TO SOLICITATION
10/10/2017**

This Addendum modifies the Solicitation Document(s) for Central 70 Design-Build Construction Assessment & Independent Assurance Testing Engineering Services only to the extent indicated herein. All other areas not specifically mentioned or affected by this Addendum shall remain in full force. This Addendum shall be added as a part of the RFP Documents.

=====

This Addendum is issued for two (2) reasons: (1) to provide clarification on a potential conflict of interest issue implicated in the Scope of Work and (2) to extend the deadline for SOI submittal;

- (1) 23 C.F.R. 637.209 states, in relevant part: “(c) Conflict of interest. In order to avoid an appearance of a conflict of interest, any qualified non-SHA laboratory shall perform only one of the following types of testing on the same project: Verification testing, quality control testing, IA testing, or dispute resolution testing.”**

Firms providing verification testing (OVT) equipment or services and/or firms responsible for procuring or overseeing such equipment or services for the Central 70 project under prior agreements are not eligible to perform IAT services themselves or to supervise the IAT services as a prime. Please note: this does not preclude such firms from providing non-testing Construction Assessment services as a subconsultant to an eligible prime.

- (2) The following documents included in the original solicitation are impacted by this Addendum, and updated versions of these documents are attached hereto for reference:**
 - a. Invitation for Consultant Services**
 - b. Key Event Schedule**
 - c. Scope of Work (Page 7)**

END OF ADDENDUM

=====

This addendum does not represent a material change and is not required to be signed and returned with the consultant response.

Enclosure(s): Scope of Work
