**Potential Grade Separated Railroad Crossings shown are top priority locations identified in the 2016 Railroad Prioritization Study, and additional grade separations will be evaluated as needed based on future conditions and opportunities.*

**Potential Roundabout Locations shown are those identified as good candidates in terms of need and feasibility. Prior to implementation, each location will be evaluated on a case by case basis. Additional locations for roundabouts may be considered based on design, traffic needs, and the results of an evaluation.*
