MicroStation
Resizing Key-in Dialog Box

Did you know that if you want the *Key-In Dialog Box* to not take up as much space within your application window when being docked, first minimize the *Key-In box* by selecting it along the bottom right corner, and drag it to an appropriate size to your liking and then dock the *Key-In Box* where you want it on the screen? Did you also know that you can use the arrow up and arrow down keys on your keyboard to bring back previously typed Key-In information?
