Denver, Colorado 80222
(303)757-9040
FAX (303)757-9868

DATE: May 5, 2011

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: Revision of Section 630, Emergency Pull-off Area (Temporary)

Effective this date, our unit is issuing a new standard special provision, Revision of Section 630, Emergency Pull-off Area (Temporary). This new standard special is 1 page long, and should be used in projects having temporary emergency pull-off areas during construction. Please make sure to use this special provision in conjunction with Standard Plan S-630-6.

Use of this standard special becomes mandatory on projects advertised on or after June 2, 2011. Please feel free, however, to include it projects advertised before this date.

This new standard special defines the requirements for constructing temporary areas in the work zone for vehicles to pull into for emergencies.

Those of you who keep books of Standard Special Provisions should add this new standard special to your file. For your convenience, we are attaching a new Index of Standard Special Provisions, dated May 5, 2011. In addition, you will find this and other special provisions that are being issued this date in one place in the CDOT Construction Specifications web site:
