Division of Project Support

Standards and Specifications Unit

MEMORANDUM

DATE: October 20, 2016

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: Required Contract Provisions, Federal-Aid Construction Contracts

Effective this date, our unit is issuing a revised version of standard special provision, Required Contract Provisions, Federal-Aid Construction Contracts . This revised standard special provision is 14 pages long and replaces a standard special provision having the same title dated October 31, 2014. In addition, the standard special provision, Revision of Section 107, Project Payrolls, dated May 2, 2013, is hereby deleted.

Use this revised standard special provision in all Federal-Aid projects, beginning with projects advertised on or after January 1, 2017. You may use this standard special on projects advertised before this date with the approval of Monica Vialpando, Labor and Contract Compliance Specialist, 720-668-0367.

The revisions contained in this version require the Contractor and all subcontractors who are subject to Davis-Bacon Related Acts (DBRA) requirements to submit all payrolls and Contractor Fringe Benefit Statements electronically via LCPtracker for projects other than Local Agency.

Those of you who keep a book of Standard Special Provisions should replace the now obsolete standard special provision with this revised version. For your convenience, you can find this and others special provisions issued this date in one place at our Construction Specifications web page:
