

MEMORANDUM

DEPARTMENT OF TRANSPORTATION

Project Development Branch
4201 East Arkansas Avenue
Denver, Colorado 80222
(303)757-9040
FAX (303)757-9868

DATE: July 29, 2011

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: On the Job Training

Effective this date, our unit is issuing a revised version of the standard special provision, On the Job Training (OJT). This revised standard special is 3 pages long. It replaces and makes obsolete the standard special of the same title dated February 3, 2011. It should be used in all Federal-aid projects, beginning with projects advertised on or after August 25, 2011. Please feel free, however, to include it projects advertised before this date.

The modifications upgrade and simplify OJT requirements, by removing separate requirements for the standard and Colorado program.

Those of you who keep books of Standard Special Provisions should replace the now obsolete standard special provision with this revised version. For your convenience, we are attaching a new Index of Standard Special Provisions. In addition, you will find this and other special provisions that are being issued this date in one place in the CDOT Construction Specifications web site:

<http://www.coloradodot.info/business/designsupport/construction-specifications/2011-Specs>

Please click on the hyperlink titled "Specification Changes Under Consideration" to access this and other special provisions that have been issued as of this date.
