FAX (303)757-9820

DATE: September 29, 2011

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: Revision of Section 109, Asphalt Cement Cost Adjustment (Asphalt Cement Included in the Work)

Effective this date, our unit is issuing a revised version of the standard special provision, Revision of Section 109, Asphalt Cement Cost Adjustment (Asphalt Cement Included in the Work). This revised version is 2 pages long, and replaces a now obsolete standard special provision of the same title dated February 3, 2011. Use this standard special provision in projects having items 403 Hot Mix Asphalt and/or 403 Stone Matrix Asphalt, in which the cost of Asphalt Cement (AC) is included in the work. Use of this revised standard special provision is mandatory on appropriate projects advertised on or after October 27, 2011. Please feel free, however, to use this revised version in projects advertised before this date.

This revision excludes the binder in Reclaimed Asphalt Shingles (RAS) from AC Cost Adjustment.

Those of you who keep books of standard special provisions should replace the obsolete version with this revised version. For your reference, we are including a new Index of Standard Special Provisions, which is also effective today. In addition, this issuance letter and the special provision will be available in one place with other special provisions issued today. Please visit:
