

Memorandum

Date: March 19, 2026

To: All holders of Standard Special Provisions

From: Bill Cornelius, Standards and Specifications Unit Manager

Subject: New standard special provision: Revision of Section 630 Traffic Control Management

As of March 19, 2026, this unit has issued the new standard special provision, Revision of Section 630 Traffic Control Management, with 2 pages, dated March 19, 2026.

Subsection 630.11 and 630.17 of the 2025 CDOT Standard Specifications was changed to require every certified Traffic Control Supervisor (TCS) to have an assigned TSC Trainee as part of the Traffic Control Management pay item. The TSC Trainee is eligible to be paid on a basis similar to that of a certified TCS and is eligible for federal OJT hours/reimbursement. The TSC Trainee is also a key part of the upcoming Colorado TCS Apprenticeship program development and is needed for the future transition of this designation to an "apprentice".

Please use this on all projects.

This standard special provision will become mandatory in projects advertised on or after April 16, 2026. You may use this standard special provision in projects advertised before this date.

For those of you who keep a book of Standard Special Provisions, please include this new provision. For your convenience, this provision and the latest SSP Index are attached to the email. You can also find these in our Construction Specifications web pages: [Standard Special Provisions](#) and the [Recently Issued Special Provisions](#).

If you have any questions or comments, please contact this office.
