

2015 CDOT Laboratory Manual of Test Procedures Dedication

LMTP Documents: A special thank you is extended to the members and participants of the MAC Meetings and the associated task forces who are constantly striving to improve testing methodology and CDOT specifications so that the roads in Colorado are progressively built better and are safer for the motoring public.

Listed Revisions, Additions, and Deletions

Changes of significance within a particular CP-L will contain a “- 15”, for example, at the end of the title to coincide with the fiscal year of the revision. Changes to specific text from the previous version will have a solid black side-bar in either the left or right applicable margin.
