

2015 CDOT Laboratory Manual of Test Procedures - 16

The calendar year 2016 revisions to the 2015 CDOT Laboratory Manual of Test Procedures (LMTP) or the 2015 CDOT Laboratory Manual of Test Procedures (Rev. A) are all dated 4-24-2016 and have a “-16” to indicate the year of the second revision to the 2015 LMTP publication. The referenced documents are to be copied and inserted into the applicable location within the manual. These revisions are effective immediately.

Listed Revisions, Additions, and Deletions

Changes of significance within a particular CP-L will contain a “- 16”, for example, at the end of the title to coincide with the fiscal year of the revision. Changes to specific text from the previous version will have a solid black side-bar in either the left or right applicable margin.

Changes from the 2015 LMTP (Only the CP-L number will be referenced, not the Sections &/or Subsections):

Table of Contents

Soil Index

Physical Properties Index

Flexible Pavement Index

CP-L 5106-16

CP-L 5109-16

CP-L 5115-16

Nuclear Index

Any errors that may still exist within this manual are solely the oversight of the Editor.

Editor @ (303) 398-6566.

2015 CDOT Laboratory Manual of Test Procedures Dedication

LMTP Documents: A special thank you is extended to the members and participants of the MAC Meetings and the associated task forces who are constantly striving to improve testing methodology and CDOT specifications so that the roads in Colorado are progressively built better and are safer for the motoring public.
