

ADOBE Sign Log-in Instructions for the CDOT Forms 473/474-22

The Materials Advisory Committee as well as the E-Signature Guidance on signatures has approved the use of the new CDOT Adobe Sign Form 473/474 starting 1 July 2021. The Independent Assurance Testers have been given the authority to initiate the Adobe Sign Form 473/474.

Please review the updated version of the CDOT ESignature Guidance which includes the guidance for the Adobe Sign Forms 473/474:

CDOT Guidance on ESignatures

Why pay to sign a document if you do not have to?

Breakdown of Records Regulated By Outside Agencies		All Other Records
<p style="text-align: center; color: orange;">DocuSign</p> <ul style="list-style-type: none"> Used to sign ALL records governed by the State Controller's office Examples: contracts and grants Access regulated by statute and the AG's Office ENotary and EStamp State wide platform <p>Costs</p> <ul style="list-style-type: none"> CDOT is charged for every "envelope" workflow CDOT is not charged until the first signature, but if at some point the "envelope" is rejected or voided, CDOT is charged. About \$4.00 per envelope <p>Contracts</p> <ul style="list-style-type: none"> Controller's Office manually creates an "envelope" with workflow for signatures <p>Permits</p> <ul style="list-style-type: none"> An "envelope" is created automatically when a permit is initiated at regional level <p>More info:</p> <ul style="list-style-type: none"> For videos and training information go to the Learning Lane 	<p style="text-align: center; color: blue;">Adobe Sign</p> <ul style="list-style-type: none"> Used on ALL Record Sets and records that require a professional stamp (Professional Engineering, Architect, and Surveyor Stamps) Regulated by DORA Has ability to easily sign and accept large records that require a professional stamp Engineering CMO (CDOT Form 90) Final Material Certification and Explanation of Exceptions (CDOT Form 473 & 474) Used only on Speed Memo (CDOT Form 105) that documents instructions to Contractor for work formalized later with a change order (Construction Manual 120.4) See Construction Bulletins for updates <p>Costs</p> <ul style="list-style-type: none"> Charged at initiation of the "Packet", whether it reaches completion or is voided/rejected About \$4.00 per packet <p>Record Sets</p> <ul style="list-style-type: none"> Capability of ESealing Large Record Sets by multiple Professional Engineers <p>More Info:</p> <ul style="list-style-type: none"> SAP ELearning class: Adobe Sign/Consultants SAP ELearning class: Adobe Sign/Local Agency SAP ELearning class: Smart Scanning and Digital Signatures 	<p style="text-align: center;">Adobe DC, SAP, OnBase, BlueBeam, etc.</p> <ul style="list-style-type: none"> Used on forms and records that require approval only <p style="color: green; font-weight: bold;">FREE – THERE IS NO CHARGE FOR SIGNATURES OR APPROVALS</p> <p>Adobe DC</p> <ul style="list-style-type: none"> For budget and accounts payable records, please see CFO Guidance on Acceptable Signatures For all other records that are regulated by the State Controller, please seek guidance and approval prior to E-signing Prepping of document must be done in order for document to be routed for signatures Click here for more info Examples when to use Adobe DC: various EForms To set up a signature in Adobe DC see SAP ELearning video "Smart Scanning and Electronic Signatures" <p>OnBase</p> <ul style="list-style-type: none"> Accounts Payable, Invoices, Expense Reports, and Various EForms No signature is required Single click approval For videos and training information on OnBase go to the Learning Lane <p>SAP</p> <ul style="list-style-type: none"> Approval No signature is required Example is Time Approval
<p style="color: blue; font-weight: bold;">Still have questions about which application to use?</p> 	<p style="color: blue; font-weight: bold;">Contact the Records Management Program: DOT_Records_Mgmt@state.co.us</p>	<p style="color: blue; font-weight: bold;">Not sure if your record requires approval or a legal signature?</p> 

The CDOT Adobe Sign 473/474 form has been created to maintain an efficient and creditable method of managing and collecting the CDOT Project documents required to finalize a CDOT project. The Central Lab has developed the CDOT Adobe Sign 473/474 Workflow with the following registered document initiators for each region that will initiate the CDOT Adobe Sign 473/474 form.

Choose "Company or School Account"

Enter your organizational account as follows and Sign in:

State of Colorado - SSO Portal

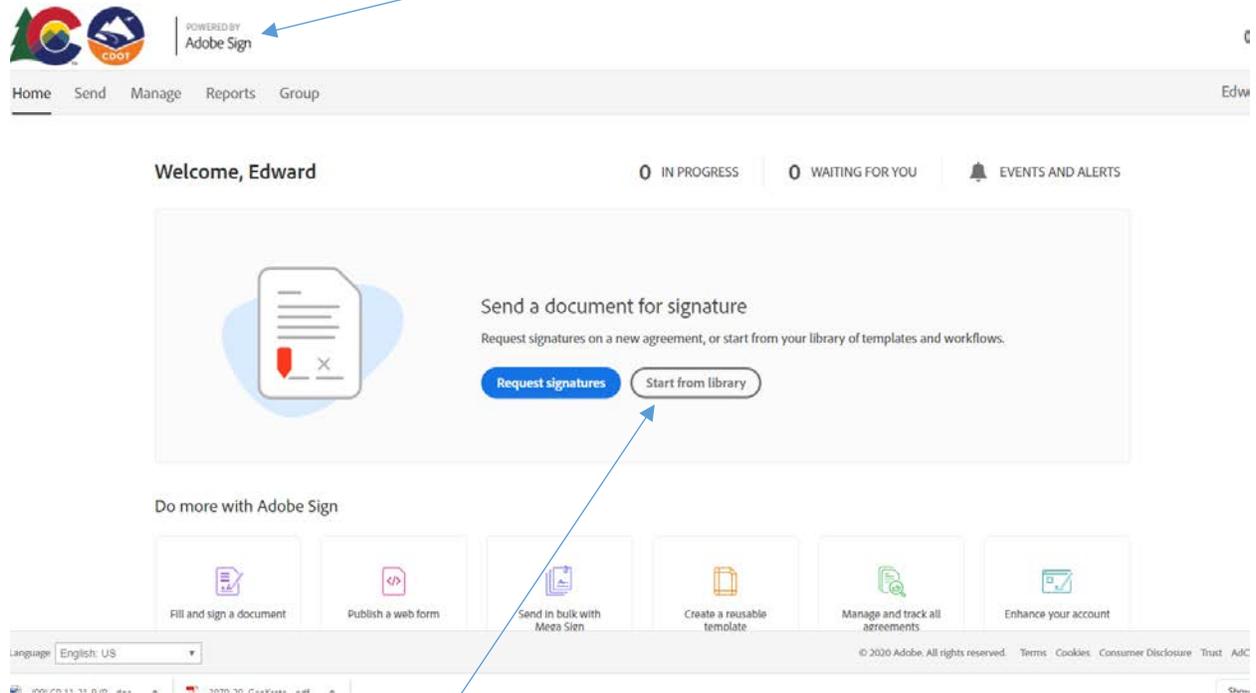

Sign in with your organizational account

 ✕

Sign in

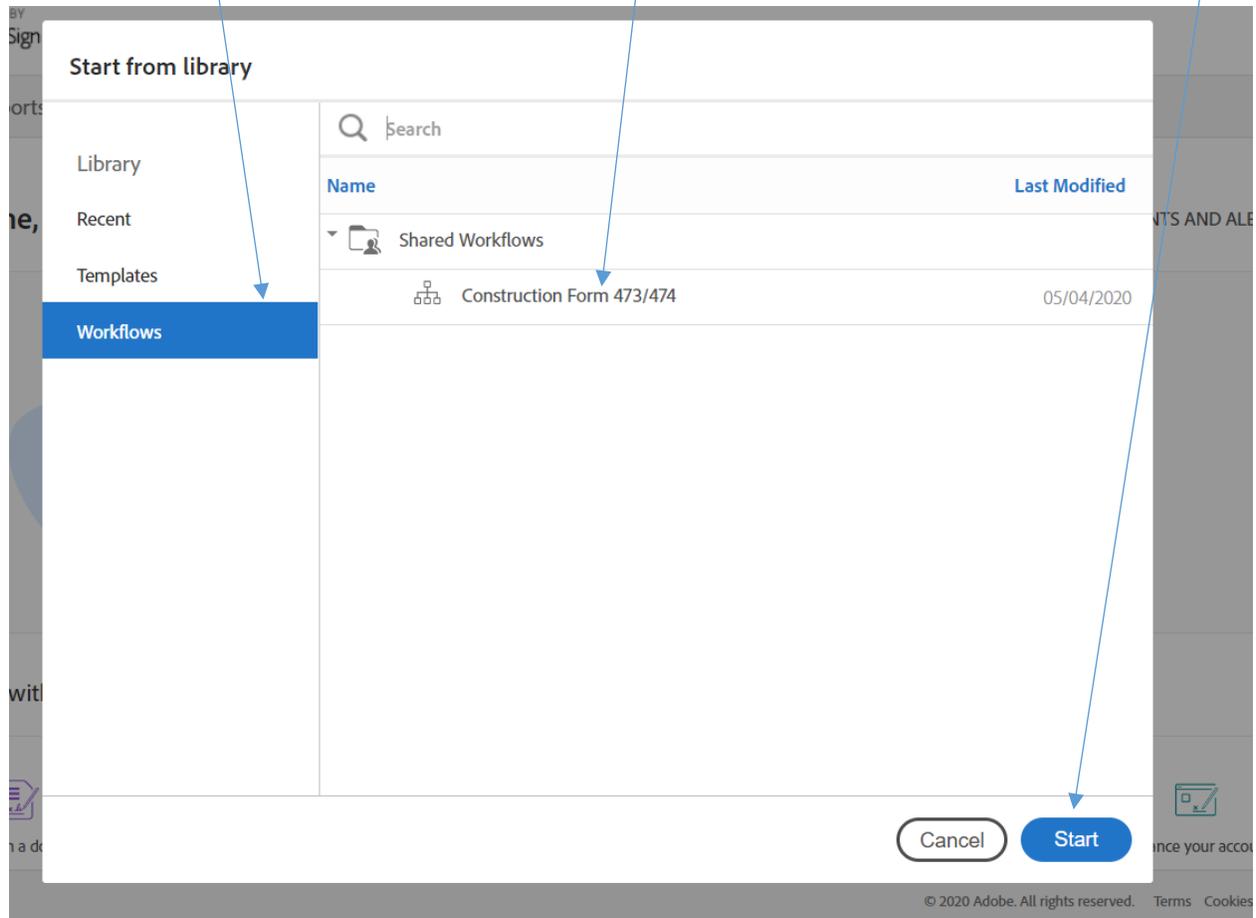

© 2013 Microsoft

You now have access to Adobe Sign, verify that the CDOT Logo is visible that will tell you that you have accessed the Adobe Sign program correctly.

Click on "Start from library" Box

Click on "Workflows" Then the shared workflows will be available for your use, click on the available workflow in this case it will be "Construction Form 473/474". Highlight the workflow and click on "Start"

Enter the e-mails in order of the list that has been given, starting with the Independent Assurance (IA) or registered group member responsible for initiating the Adobe Sign 473/473 form.

The screenshot shows the Adobe Sign interface for a document titled "Construction Form 473/474". The interface includes a navigation bar with "Home", "Send", "Manage", "Reports", and "Group" options. Below the navigation bar, there is a "Guided Help" button. The main content area contains the document title and a brief explanation of the workflow. A "Recipients" section lists several roles, each with a corresponding email input field and a "Send" button. A blue arrow points from the text above to the "Myself" recipient entry.

Recipients

- IA (Independent Assurance Program) *
Myself [Send] [Email]
- RME (Region Materials Engineer) *
Enter recipient email [Send] [Email]
- Project Tester *
Enter recipient email [Send] [Email]
- PE (Project Engineer) *
Enter recipient email [Send] [Email]
- RE (Resident Engineer) *
Enter recipient email [Send] [Email]
- Finals Material Coordinator or Finals Administrator *
Enter recipient email [Send] [Email]

Enter CC e-mail of persons not on the workflow list but that should get the signed document. **Change the example to read project under document name.**

The screenshot shows a document signing interface with several fields and options. At the top left, there is a 'CC' section with a 'Hide' link. Below it is a text input field labeled 'Enter CC's emails'. The 'Document Name' field contains 'Form 473/474' and has a red asterisk. To its right is a 'Message Template' dropdown. Below the document name is a 'Message' field containing the text 'Please complete and or sign/seal each form where indicated.' To the right of the message field is an 'Options' panel with a 'Set Reminder' checkbox. At the bottom, there is a 'Files' section showing two document thumbnails: 'Construction Form 473/474 *' and 'Construction Materials Form 4 73/474 FINAL'. Blue arrows point from the text above to the 'Enter CC's emails' field, the 'Document Name' field, and the 'Files' section.

The * are required but should already be filled out with the appropriate information. When all is completed click "Send" and the document will automatically start circulating through the signing process.

A screenshot of the main body of the email. At the top left, there are two logos: the Colorado state logo and the CDOT logo. The text in the center reads "Edward Trujillo requests your signature on **Form 473/474**". Below this text is a blue button with the text "Review and sign". A blue arrow points from the underlined text "Review and Sign" in the previous block to this button. Below the button, there is a horizontal line, followed by the text "Please complete and or sign/seal each form where indicated." Below that is another horizontal line, followed by the name "EDWARD TRUJILLO" and the email address "edward.trujillo@state.co.us". Below that is another horizontal line, followed by a paragraph of text: "After you sign **Form 473/474**, the agreement will be sent to edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us and 2 others. Then, all parties will receive a final PDF copy by email. As you prepare to sign this agreement, please note that the document asks for the following document to be attached:"

Project Engineer or Consultant Engineer will verify documents, enter "comments" if needed and enter "stamp and electronic signature". Click on "Acknowledge Receipt" to move the document to the next level.

NOTE:

The Electronic Engineering Seal must be purchased at a professional vender. The image files they produce meet each state's Board rule requirements as to size and composition. The PE will get either 3 or 4 image files which can be used and are spectacularly clear and precise. The JPEG and PNG files are accepted by Adobe Sign but the PDF is not because it is actually not an image file, as such. Once received, all that has to be done is to combine a script signature with the seal image provided by the Acorn vender. Having the signature appear through the seal is also a Board Rule requirement. There is video training for that too. The training for consultant PE's is available via TETP.

Recommended professional vender: Acornsales.com

Transportation Engineering Training Program: <https://www.codot.gov/programs/tetp>

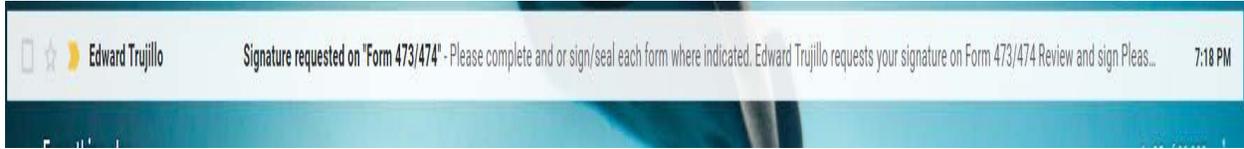

The seal Image file size which is used to seal ***MUST BE*** 1.625" or 1-5/8" square as per Board rules. That means that the "seal" must be that size. That is the default image size of the seal "box border" for the seal in Adobe.

Placement of the seal image must be the correct size, then it will import perfectly since ***BOTH*** are the same size. If the seal image used contains too much white space around the image of the seal, Adobe Sign sees the extra white space as part of the image and therefore will shrink an "oversized" image to fit the Board Rule requirement, hence the Nickel sized seal. All this is covered in the training videos.

Rotation: Adobe Sign ***cannot*** rotate an image the way Adobe DC can. It just imports the native orientation of the image file as presented. That means if an image is created with say, an iPhone whose relative screen image is say 16X4 and the phone is held horizontally for the photo, it will likely be rotated within the photo file image itself. How the image is created, its size, and orientation are all key. Typically just "snapping a picture" without any regard to its composition or orientation can and will yield unpredictable results.

CDOT Form 473SMM 09/20

Project Engineer will "verify the CAR reports" and sign electronically here. When signature is completed continue by "Click to Sign" to move the document forward.

The screenshot shows the top portion of CDOT Form 473/474. At the top left are the CDOT and Adobe Sign logos. The form title is "Form 473/474". Below the title, there are fields for "Electronic signature of Project Tester" (signed by Eddie Trujillo) and "CDOT or Consultant Company Name" (Rocksol Company). A "Click to change" button is visible next to the signature. Below this is a section for "CDOT Project Sampling and Testing by Consultant" with "YES" selected. The main section is titled "CAR - Quality Level Reports" and contains a table with two rows: "Asphalt Quality Level" and "Concrete Quality Level", both with checkmarks and signatures. Below the table is a detailed "Explanation of Exceptions" section. At the bottom of the form, there is a blue "Click to Sign" button and a disclaimer: "By signing, I agree to both this agreement and the Consumer Disclosure. My use of Adobe Sign is governed by the Adobe Terms of Use."

The screenshot shows a confirmation message on a white background. At the top left are the CDOT and Adobe Sign logos. The message starts with a blue checkmark icon and the text "You're all set". Below this, it says "You finished signing 'Form 473/474'." followed by "Next, edward.trujillo@state.co.us will sign." and "We will email the final agreement to all parties. You can also [download a copy](#) of what you just signed."

Resident Engineer Instructions

The Resident Engineer will receive an e-mail from Adobe Sign.

To continue click on "Review and Sign"

A screenshot of an email body. The email is from 'Edward Trujillo <adobesign@adobesign.com>' to 'me'. The main content of the email is a signature request for 'Form 473/474'. It features the logos of the State of Colorado and CDOT. The text reads: 'Edward Trujillo requests your signature on **Form 473/474**'. Below this is a blue button labeled 'Review and sign'. A blue arrow points from the underlined text 'Review and Sign' in the previous block to this button. Below the button, there is a horizontal line, followed by the text 'Please complete and or sign/seal each form where indicated.' and the sender's name 'EDWARD TRUJILLO' and email address 'edward.trujillo@state.co.us'. At the bottom, there is a paragraph of smaller text: 'After you sign **Form 473/474**, the agreement will be sent to edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us and 2 others. Then, all parties will receive a final PDF copy by email. As you prepare to sign this agreement, please note that the document asks for the following document to be attached:'

Resident Engineer will review the forms and attached documents and electronically sign the document to move it to the Finals and Document Administrators. The Resident Engineer section is now complete "Click to Sign" to move the document forward.

EDWARD TRUJILLO
edward.trujillo@state.co.us

After you sign **Form 473/474**, the agreement will be sent to edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us, edward.trujillo@state.co.us and 2 others. Then, all parties will receive a final PDF copy by email.
As you prepare to sign this agreement, please note that the document asks for the following document to be attached:

The Coordinators or Administrators will verify 473/474 and that all documents have been placed in Project/Wise according to the Record File Plan.

The "Check Boxes" should be checked to continue with signing and completing the document.

"Attach" any missing documents then Electronically Sign to complete the document.

Click "Next" to continue.

The screenshot shows the Adobe Sign interface for CDOT Form 473/474. The form contains several sections with checkboxes and text. A yellow callout box labeled "Next" points to a yellow button labeled "Next" on the left side of the form. Another yellow callout box labeled "Click to Attach..." points to a button labeled "Click to Attach..." on the right side of the form. A third yellow callout box labeled "Click here to sign" points to a button labeled "Click here to sign" on the left side of the form. The form text includes: "This is to Certify that: Q/A Sampling & Testing Checklist, Certification Checklist and IA Checklist have met the minimum required testing. Explanation of Exceptions and Buy America summaries are complete. All documentation has been reviewed and placed in ProjectWise in the path: ContractID/Construction/Materials." and "This is to Certify that: The results of the tests on the acceptance samples indicate that the material incorporated in the construction work, and the construction operations controlled by sampling and testing, were in conformity with the approved plans and specifications, and such results compare favorably with results of the Independent Assurance sampling and testing. This form is complete, includes all attachments, and has been reviewed and accepted." The Resident Engineer field is filled with "Edward Triville". The form is titled "Form 473/474" and "CDOT Form 473SMM 09/20".

The Coordinators or Administrators section is now complete "Click to Sign" to finalize the document. "Attach" any missing documents if needed before final signature is entered.

Explanation of Exceptions The following is an example of what goes into the Explanation of Exceptions CDOT Form 414 Final Materials Certification (A6) block. CAR Report Owner Acceptance Sampling & Testing Checklist: Item 203-0000: Embankment Material (Complete in Place): The contractor placed 4,115.00 CY of Embankment Material 2 inches thick. Material too thin to perform CP80aa Den/Moist Content of soil by nuclear gauge. Project specials required PI of 5-15, a test result of 13. The project Engineer accepted the material. The embankment, Rock not encountered on the project. Item 304-0007 Aggregate Base Course (Class G) CP23aa not needed to be based on T1800 performed which includes the plus 4 material. CP25- Not performed due to a small quantity and no change in material observed. Based on the quantity of 2,113 CY (2 - T89 and T90's) should have been completed. The second test would have covered the fraction of the 113 CY. Based on the results of test #1 - T89 (No Value) and the T90 (Non-Plastic), the 2nd test was not completed to cover the 113 CY. Item 403-34741: Hot Mix Asphalt (Grading SX) (TS) (PG 64-22) Mix ID: 42017B1_20856_ Both Phase 1 and Phase 2 of the US 24 (E) Paso- Elbert county line projects were completed by Jones Contractors utilizing the same mix design, the PC tester and the mobile voids trailer personnel were the same. For this reason, check testing and CPL5120C was not performed on phase 2 but was completed on phase 1. The project was Voids Acceptance, 7,028 tons were placed on a thin IR leveling course (1.5 inches), Project Specials specified the leveling course to be a Pay Factor of 1 for the mat density and longitudinal joints, (CP 44, 15 tests completed). Joint cores were not taken, SMM sample (SMITHJPI19G002717) used to document 7,028 tons for CP44L, Pay Factor of 1. Flood plain area required 947 tons to be placed. 2- CP-44 test was completed in this area. 1,244 tons were placed with a 2-inch mat over a milled surface, 2- CP44's were taken due to the small area of placement. A total of 9,219 tons were placed and tested using CP44. A total of 15,078 tons were placed and tested using CP81 and CP82. The Asphalt Quality Level report for (42017B1_20856_) Mat Density, 1 compaction test section (CP82) representing 500 ton, 3 processes representing 23797 tons. -Process 1: representing 947 tons, placed in the flood plain. -Process 2: representing 15,022 tons placed, 2-inch middle mat. -Process 3: Pay Factor of 1, representing 7,028 tons placed, 1-1/2 inch leveling course. HMA (Grading SX) (TS) (PG 64-22) total tons placed 24,297. Asphalt content tested using CPL5120. CP85 and CP85C not used. CPL5120C was completed on phase 1.
