

APPLICATION OF STANDARD PLANS

This book is a compilation of Standard Plans prepared by the Colorado Department of Transportation for use on CDOT construction projects. Others who use the CDOT Standard Plans do so at their own risk.

These Standard Plans are essential contract documents as described in subsection 105.08 of CDOT's Standard Specifications for Road and Bridge Construction.

Standard Plans that are applicable to a specific project will be identified on the project plans and will not be physically attached to those plans. The designer who specifies any of these Standard Plans for a specific project accepts the responsibility of determining their applicability.

Standard Plans adopted or revised subsequent to the adoption of this book will be listed on the index of the project plans and will be physically included in the plans. New and Revised Standards Plans may be accessed on the Colorado Department of Transportation website: www.dot.state.co.us/DesignSupport/

These Standard Plans are adopted for use as of July 4, 2006.

Composition and press work performed by CDOT Printing & Visual Communications Section / DoHRA.

CDOT photographs were taken by Gregg Gargan.
