Federal & State Transit Funding Landscape (Amber Blake)
Purpose: Review of transit funding sources for 2022-2023, including: pass-through Federal Transit Administration (FTA) funding, other federal funding sources with transit eligibility, state transit, and state enterprise funding sources.

Action: No approval action was requested.

Discussion:

- Two types of funding: Discretionary funding are made through a competitive process and are subject to annual appropriations. Formula program funding consists of set amounts that are distributed annually and are guaranteed.

  - Federal Funding
    1. FTA 5304 Statewide and Non-Metropolitan Planning: $0.5 M for FY23 administered by Division of Transit and Rail (DTR) and awarded as pass through grants via an annual call for projects. Eligible projects include development of transportation plans/program, plan, design, evaluate, or conduct technical studies related to public transportation. Planning projects may not exceed 80% federal funding.
    2. 5310 Enhanced Mobility for Seniors and Individuals with Disabilities: $2.8 M in federal funding forecasted for FY23, administered by DTR and awarded as pass through grants via an annual call for projects. Eligible projects include capital, operating and mobility management. Capital costs and mobility management may not exceed 80% federal funding; operating costs may not exceed 50% federal funding.
    3. 5311 Rural Area Formula Program to support public transportation in rural areas with less than 50,000 people. $17.6 M forecasted in federal funding and administered by DTR and awarded as pass through grants via an annual call for projects. 5311 programs include operating & admin and capital (fleet, facilities, equipment). 5311(b)(3) is the Rural Transit Assistance Program (RTAP). 5311(f) is the intercity bus (Bustang, Outrider) program. The federal share is 80% for capital projects, 50% for operating assistance, and 80% for American with Disabilities (ADA) non-fixed route paratransit service.
    4. FTA 5339 to maintain a state of good repair. $6.5 M in federal funding forecasted for FY23 and administered by DTR and awarded as pass through grants via an annual call for projects. This program is to replace, rehabilitate, and purchase buses and related equipment, construct bus-related facilities including technological changes and modify low or no emission vehicles and facilities.
    5. Surface Transportation Block Grants (STBG) and Risk/Resiliency Formula Program are “Strategic” sources of funding for the CDOT Pipeline of Projects 10-year plan.
    6. Transportation Alternatives (TA) for non-motorized projects and environmental mitigation such as first and last mile connections. $18.5 M in federal funding forecasted for FY23. 59% of this program is allocated to CDOT regions based on population. The remaining funding is allocated based on 45% VMT, 40% lane miles, and 15% truck VMT.
    7. Congestion Mitigation and Air Quality (CMAQ) to support activities with air quality benefits. $46M in federal funding forecasted for FY23. Most of these funds are distributed to ozone nonattainment areas (DRCOG, NFRMPO, UFR TRP) on the basis of 75% population and 25% VMT.
    8. PROTECT Formula & Discretion Program provides formula and grant funding for resilience improvements. $19 M in federal finding forecasted for FY23. Formula funding for highway and transit projects. Competitive grant funding covers highway, transit, intercity rail, resilience planning & improvement plans, evacuation planning and preparation.
    9. Carbon Reduction Program to support the reduction of transportation emissions. $16.8 M in federal funding forecasted for FY23. New funding program from the IIJA requiring 65% of the funding to be obligated based on population. Transit system improvements are included – it is unclear if this is for operations.

  - State Funding
    1. SB 267 strategic funding from the state legislature for capital projects. $500M/ year on average over four years FY19-22. 25% of funding must be spent in rural areas. 10% minimum to transit projects.
2. SB 260, the Multimodal Transportation & Mitigation Options Fund (MMOF) to promote complete and integrated multimodal systems. Total $17.4 M forecasted for FY23; $2.6 M (15%) allocated to CDOT, $14.9M (85%) to local entities administered by CDOT. Transit projects, including operating, are eligible.

3. FASTER to improve roadway safety, repair deteriorating bridges, support and expand transit. $85M forecasted for FY23 for state transportation, $23M allocated to cities, $28M allocated to counties.

4. Volkswagen Settlement program to mitigate NOx by replacing older diesel transit vehicles with zero emission options. $5M forecasted for FY23 administered by DTR and allocated through an annual call for projects. Funding is available to replace diesel-fueled vehicles with zero emission vehicles and for charging/fueling infrastructure to support zero-emission vehicles.

- **CDOT Enterprise Funding**
  1. SB 260 Non-Attainment Enterprise was created to mitigate transportation-related emission in ozone nonattainment areas. Total fee revenue for FY23 is $7.1M from air pollution mitigation fee on retail deliveries and rides, revenue will ramp up over time. This funding is eligible for projects that reduce traffic, including demand management projects.
  2. SB 260 Clean Transit Enterprise to support public transit electrification planning efforts, facility upgrades, fleet motor vehicle replacement, construction and development of electric charging and fueling infrastructure. $8.3M is forecasted for FY23.

- **Mark Garcia**: How do these funds play into the CTE annual budget?
- **Amber Blake**: The Transportation Commissions resolution for FASTER funding goes through FY23. The FY24 budget will be reviewed in FY23 depending on where we are with regional services. The FTA funds do not come to the Transportation Commission, unless there is a distribution methodology in a format that is not a call for projects. The strategic funds for the 10-year pipeline all go to the Transportation Commission for project approval, these are included in the CTEs budgeting process. At the CTE next board meeting we can make a relationship table with Jeff Sudmeier’s team on how these funds relate to the CTEs budget.
- **Kay Kelly**: This presentation is intended to be a landscape overview of funding sources for different transit projects.
- **Mark Garcia**: When do we start to work on the CTE budget?
- **Kay Kelly**: The CTE has $134M over 10 years, the funds ramp up over time; we project about $8.3M the first fiscal year. The Colorado Department of Revenue will start collecting the fee on July 1, 2022. It should be available in September to the CTE to start issuing funds.
- **Mike King**: We have about $30M allocated from the state’s Volkswagen Settlement for transit projects. To date we have awarded about $21M, leaving about $9M unawarded. This was a one-time allocation.
- **Kay Kelly**: There are two other electrification focused enterprises in SB 260, the Community Access Enterprise and the Clean Fleet Enterprise.
- **Mark Garcia**: How are we communicating with the other enterprises to prevent redundant programs and overlap?
- **Kay Kelly**: The fees for each enterprise are set for the first year by the legislature. We will have to communicate with the other enterprises going forward. The Clean Fleet Enterprise will not be funding transit vehicles, they might fund school buses or airport shuttles, but all FTA entities are in CTE. We should communicate with Community Access Enterprise regarding charging infrastructure. We anticipate the majority of charging infrastructure for transit agencies will be in depots or at facilities where it is dedicated for transit use.

**Transit ZEV Roadmap and 10-Year Plan (Mike King)**

**Purpose**: Overview of pre-existing planning activities completed by the state in 2021 to provide context for CTE 10-Year Plan development.

**Action**: Continue to flesh out the 10-Year Plan outline and outreach avenues including standing transit meetings and public outreach.
**Discussion:** No approval action was requested.

- HB 19-1261 set statewide GHG reduction targets: 26% by 2025, 50% by 2030, and 90% by 2050 (from a 2005 baseline). Transportation is the largest sector, contributing 21% of GHG. The Colorado GHG Pollution Reduction Roadmap developed strategies and pathways to reach these targets. We are currently on a trajectory to achieving approximately half the level of emission reductions to meet the 2025 and 2030 goals.

- Colorado’s Electric Vehicle Plan 2020
  
  https://energyoffice.colorado.gov/sites/energyoffice/files/2020-07/colorado_ev_plan_2020_-_final.pdf established a state target of 940,000 registered ZEVs by 2030 is largely focused on the passenger vehicle market.

- The Clean Truck Strategy targets emission reductions from medium- and heavy-duty vehicles.

- The goal of the Transit Zero Emission Vehicle Roadmap
  
  https://www.codot.gov/about/committees/trac/Agendas-and-Minutes/2021/march-12-2021-meeting/05-transit-zev-roadmap-presentation-for-trac.pdf is to develop a reasonable pathway for achieving Colorado’s target of 1,000 transit ZEVs by 2030 and a 100% ZEV fleet by 2050.
  
  1. **Colorado ZEV Environment (as of 2021):** there are 3,301 total transit vehicles in Colorado; 100 are ZEV transit buses (deployed or on-order), 170 light rail train cars, 66 commuter rail cars, and 27 Renewable Natural Gas (RNG) transit buses. 9 transit agencies are currently operating ZEVs and 10 transit agencies that have or will complete a ZEV transition plan in the near future.

  2. **The Transit ZEV Roadmap financial model is intended to provide an estimate of what it would take to meet the ZEV transition targets, not to determine the overall cost benefit of the transition (social cost of carbon, public health benefits, etc.).** Transitioning the Colorado fleet to ZEVs is projected to cost $230M to $285M (30-45%) more than maintaining the existing fleet. The majority of the incremental cost is for electric vehicle charging infrastructure, rather than the vehicles themselves. Assuming the cost difference between zero emission buses and regular buses continues to decrease year over year - eventually the cost difference will be zero. No natural growth in the number of state transit vehicles was included in this model.

  3. **The ZEV Transit Roadmap includes recommendations on policy, planning & technical support, information sharing & research, funding, and education & training that will support the transition to ZEVs across Colorado.**

- **Kay Kelly:** We will send the link to the Transit ZEV Roadmap out with the next board packet and will post a link on the CTE website.

- **Matt Frommer:** Regarding the functionality of ZE buses, are they a 1:1: replacement for diesel buses?

- **Michael King:** In general, 1:1 replacement has worked for some of our mountain communities that have been early adopters. In urban areas where the buses run long blocks of service for 12 hours a day, not every route is achievable with a ZEV.

- **Dave Averill:** I concur, the ZEV bus replacement study for SMART concluded that ZEV buses were feasible for some routes but not for the entire system (due to terrain, weather, and conservative modeling). We are optimistic as the technology and battery capacity increases.

- **Michael King:** The financial model can be adjusted for each individual vehicle type. In order to make a model that could work for the entire state it was necessary to simplify certain decision points.

- **Matt Frommer:** Are you assuming the same number of vehicles in 2030 or anticipating an increase? The GHG rules cost benefit analysis compliance scenario assumes we will need a 70% increase in transit vehicles, about 400 new buses or other transit vehicles.

- **Michael King:** We assumed that the overall number of transit vehicles in the state would remain unchanged, but vehicles can be added to the model. You can adjust the dollar cost for each bus to account for a different replacement ratio.

- **Kelly Blynn:** For the agencies, does the model provide information about projected maintenance and fuel costs?

- **Michael King:** No, this model does not address the operation costs, savings, or social benefits. NREL also has a modeling tool that agencies can use to address operational costs. This model should be used to see if the 2030 target achievable is and what level of funding is needed to achieve it.
SB 260 details the CTEs 10-Year Plan. The 10-Year Plan should include how this enterprise will execute its business purpose and estimates what funding is needed. This proposed draft of the CTEs 10-Year Plan includes portions that are already well developed in the Transit ZEV Roadmap. The proposed draft also includes information from the CDOT Division of Accounting & Finance, the Department of Revenue, and SB 260 itself. The board may choose to focus its time and energy on big picture policy decisions (including but not limited to funding mechanisms & category prioritizations, project prioritization, match levels, scrapping requirements, and/or replacement ratios) that determine how and who interacts with the CTE grant programs in the future.

Mark Garcia: What is the timeline for a draft outline?
Kay Kelly: The draft outline is before you, the 10-Year Plan must be published by June 1st. By presenting this high-level outline to the board we would like to know which sections the board would like to spend more time on over the next three months.
Matt Frommer: What is the process for soliciting feedback from RTD?
Michael King: We have existing stakeholder engagement with all of the transit agencies in the state including RTD. While developing the 10-Year Plan we will engage with all those agencies regularly. In addition to the standing meetings, we will invite transit agencies to participate in CTE meetings and comment on our discussions.
Kay Kelly: The 81 state transit agencies meet monthly. CASTA also has regular meetings. The Transit and Rail Advisory Committee meets bi-monthly. We have been working to get placeholders on all those meetings for CTE for the next several months to engage stakeholders. We will also hold a public meeting to get public input as a matter of course.
David Frommer: I would like a better understanding of the fleet mix and technology available to better inform how we prioritize projects.
Kay Kelly: Some of that information is included in the Transit ZEV Roadmap.
Amber Blake: We can pull our current transit asset management plan for the state, but it will not include what RTD has or the larger 5307 agencies. We have that information for anyone that is a subrecipient.
Michael King: The fleet mix by vehicle type and fuel type is included in the roadmap. Of the 3,100 vehicles, 851 are cutaways, 1,296 are full size buses, 125 are articulated buses, etc.
Kelly Blynn: I would like more discussion of strategy on the potential funding match sources.
Michael King: Since these funds are state funds, they can be used to match some of the federal grant programs. This board can develop a strategy on how to maximize or incentivize that impact.

Rulemaking (Herman Stockinger)

Purpose: Open the CTE rules, required for the CTE to set the fee and establish the grant process.

Action: Mark Garcia moves to authorize CDOT staff to open the Clean Transit Enterprise Rules and appoint a CDOT staff member to serve as the hearing officer to preside over the Rulemaking Hearing and process, seconded by David Averill. Passed unanimously on February 22, 2022.

Discussion:
- Rules must be authorized in statute: 43-4-1203(6)(g) to set the clean transit retail delivery fee and establish the award and grant process. 43-4-1203(7)(b) the clean transit retail delivery fee is a maximum of $0.03.
- Rule parts:
  1.0 Statement of Basis and Purpose and Statutory Authority
  2.0 Definitions
  3.0 Fees: fee is effective July 1, 2022, in conjunction with the Department of Revenue the fee will be adjusted with inflation, the CTE must notify the Department of Revenue by March 15 with fee changes.
  4.0 Process of awarding and overseeing grants, loans, and rebates: grants selection will be competitive. The CTE process will be part of the annual CDOT DTR call for projects. Grant criteria will be established by the CTE and published no fewer than 60 days before the grant deadline.
Grants will be scored based on the business purpose of this enterprise. Grants will be approved by the CTE and overseen by CDOT DTR staff.

5.0 Declaratory Orders

- **Timeline:** February 22nd enterprise opens rules. CDOT staff will file the rule with the secretary of state. April 4th CDOT staff will conduct a public hearing per the Administrative Procedure. Board will adopt the Rule on April 12. Effective date: as early as May 31.
- CTE board members are invited to the Rulemaking Hearing but are not required to attend.
- **Mark Garcia:** Are the grant criteria in section 4.15 in any priority?
- **Herman Stockinger:** They are not in priority order. When we ask the CTE agreement on the process to put the call out, we can have a conversation with Kay on what that looks like.
- **Rick Coffin:** How involved will the CTE board be in the grant review process? In Section 4.14, will CDOT staff make up the review panel?
- **Herman Stockinger:** The rule does not specify that.
- **Kay Kelly:** Typically, a panel made up of subject matter experts on the topic being reviewed will evaluate applications. The panel will put forth a list of applicants recommended for awards to the CTE board. CTE board will make the final selection.
- **Mark Garcia:** We had a lot of input on the GHG rule at transportation commission level, are you anticipating that level of participation with CTE rulemaking?
- **Herman Stockinger:** We are not anticipating any controversy, there is not a lot of flexibility to divert from the statutes.
- **Mark Garcia:** Has there been any feedback from retailers?
- **Herman Stockinger:** We have not had any feedback from retailers yet. We will include them in stakeholder outreach when the rules have been published.
- **Sari Weichbrodt:** We are monitoring the comments from the two non-CDOT enterprises with retail delivery fees. We will be doing our own stakeholder outreach to retailers.
- **Mark Garcia:** Do you know of any other states that are using retail fees for GHG reduction programs?
- **Herman Stockinger:** there might be other states that are taking this approach, we are not sure.

**Wrap Up and Next Steps**

**Purpose:** Summary of important dates, board meeting packets, and meeting minutes will be posted on the CTE website [https://www.codot.gov/programs/innovativemobility/cte](https://www.codot.gov/programs/innovativemobility/cte).

**Action:** Please submit any agenda items for CTEs next board meeting to Kay Kelly

1.00 Statement of Basis and Purpose and Authority

The Clean Transit Enterprise is authorized by C.R.S. § 43-4-1203(6)(g) to promulgate rules setting the amounts of the Clean Transit Retail Delivery Fee at or below maximum levels contained in C.R.S. § 43-4-1203(7) and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates pursuant to C.R.S. § 43-4-1203(8).

SB21-260 Sustainability of the Transportation System created new sources of dedicated funding and new state enterprises intended to preserve, improve, and expand existing transportation infrastructure, develop the modernized infrastructure needed to support the widespread adoption of Electric Motor Vehicles, and mitigate environmental and health impacts of transportation system use. To accomplish these goals, the legislation established a Clean Transit Enterprise (CTE), an enterprise and government owned business within the Colorado Department of Transportation (CDOT) for the purpose of collecting fee revenue to reduce or mitigate the adverse impacts of air pollution and greenhouse gas emissions produced by gas and diesel-powered motor vehicles used for Retail Deliveries. CTE will support the adoption of Electric Motor Vehicles for Transit. The Enterprise is a Type 1 transfer agency and as such the Legislature specifically vested the Enterprise with the authority to promulgate rules to set the amount of the required Clean Transit Retail Delivery Fee and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates. Per statute, the Enterprise can set a maximum fee of $0.03 per Retail Delivery. The fees delineated in the rule mirror the fee amounts set in C.R.S. § 43-4-1203.

The Enterprise shall notify the Department of Revenue (DOR) of the amount of the Clean Transit Retail Delivery Fee to be collected for Retail Deliveries of Tangible Personal Property purchased during each state fiscal year no later than March 15 of the calendar year in which the state fiscal year begins. CDOT will work with DOR to determine the maximum fee amounts that may be imposed, which shall be the maximum amounts for the prior state fiscal year adjusted for inflation.

2.00 Definitions

2.1 “Colorado Department of Transportation Division of Transit and Rail” or “CDOT Division of Transit and Rail” means the division within the Colorado Department of Transportation responsible for planning, developing, operating, and integrating Transit and rail into the statewide transportation system.

2.2 “Compressed Natural Gas Motor Vehicle” means a vehicle that is powered by an engine fueled by methane that has been compressed and stored onboard at a pressure up to 3,000 pounds per square inch, also known as compressed natural gas.

2.3 “Disproportionately Impacted Community” means a community that is in a census block group, as determined in accordance with the most recent United States decennial census, where the proportion of households that are low income is greater than forty percent, or the proportion of households that are housing cost-burdened is greater than forty percent, as defined in C.R.S. § 43-4-1202(5).
2.4 “Electric Motor Vehicle” means a vehicle that uses a battery to store energy that powers the motor, including:

2.4.1 A Battery Electric Motor Vehicle powered exclusively by a rechargeable battery pack that can be recharged by being plugged into an external source of electricity and that has no secondary source of propulsion.

2.4.2 A Hydrogen Fuel Cell Motor Vehicle powered by electricity produced from a fuel cell that uses hydrogen gas as fuel.

2.4.3 A Plug-in Hybrid Electric Motor Vehicle powered by both a rechargeable battery pack that can be charged by being plugged into an external source of electricity and a secondary source of propulsion such as an internal combustion engine.

2.5 “Recovered Methane” means any of the following if the Air Pollution Control Division determines them to provide a net reduction in greenhouse gas emissions:

2.5.1 Biomethane;

2.5.2 Methane derived from municipal solid waste, biomass pyrolysis or enzymatic biomass, or wastewater treatment; and

2.5.3 Coal mine methane, as defined in C.R.S. § 40-2-124(1)(a)(II).

2.6 “Retail Delivery” means a retail sale of Tangible Personal Property by a retailer for delivery by a motor vehicle owned or operated by the retailer or any other person to the purchaser at a location in the state, which sale includes at least one item of Tangible Personal Property that is subject to taxation under Article 26 of Title 39. Each such retail sale is a single Retail Delivery regardless of the number of shipments necessary to deliver the items of Tangible Personal Property purchased.

SB21-260 Sustainability of the Transportation System created new sources of dedicated funding and new state enterprises intended to preserve, improve, and expand existing transportation infrastructure, develop the modernized infrastructure needed to support the widespread adoption of Electric Motor Vehicles, and mitigate environmental and health impacts of transportation system use. To accomplish these goals, the legislation established a Clean Transit Enterprise (CTE), an enterprise and government-owned business within the Colorado Department of Transportation (CDOT) for the purpose of collecting fee revenue to reduce or mitigate the adverse impacts of air pollution and greenhouse gas emissions produced by gas and diesel-powered motor vehicles used for Retail Deliveries. CTE will support the adoption of Electric Motor Vehicles for Transit. The Enterprise is a Type 1 transfer agency specifically vested with the authority to promulgate rules to set the amount of the required Clean Transit Retail Delivery Fee and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates. Per statute, the Enterprise can set a maximum fee of $0.03 per Retail Delivery. CTE proposes to set the Clean Transit Retail Delivery Fee at $0.03.

Statement of Basis, Authority, and Purpose

The specific authority for the Clean Transit Enterprise (CTE) to establish these Rules is set forth in C.R.S. § 43-4-1203(6)(g).

The general purpose of these Rules is to set the amount of the Clean Transit Retail Delivery Fee at or below the maximum level specified in C.R.S. § 43-4-1203(7) and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates pursuant to C.R.S. § 43-4-1203(8).

Senate Bill 21-260 Sustainability of the Transportation System created new sources of dedicated funding and new state enterprises. The legislation intended to preserve, improve, and expand existing transportation infrastructure, develop the modernized infrastructure needed to support the widespread adoption of Electric Motor Vehicles, and mitigate environmental and health impacts of transportation system use. To accomplish these goals, the legislation established the Clean Transit Enterprise, an enterprise and government-owned business within the Colorado Department of Transportation (CDOT) for the purpose of collecting fee revenue to reduce or mitigate the adverse impacts of air pollution and greenhouse gas emissions produced by gas and diesel-powered motor vehicles used for Retail Deliveries. CTE will support the adoption of Electric Motor Vehicles for Transit. The Legislature specifically vested CTE, a Type 1 transfer agency, with the authority to promulgate rules to set the amount of the required Clean Transit Retail Delivery Fee and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates. Per statute, the Enterprise can set a maximum fee of $0.03 per Retail Delivery and CTE proposes to do so in this rulemaking.

After fiscal year 2022, CTE shall notify the Department of Revenue (DOR) of the amount of the Clean Transit Retail Delivery Fee to be collected for Retail Deliveries of Tangible Personal Property purchased during each state fiscal year no later than March 15 of the calendar year in which the state fiscal year begins. CDOT and CTE will work with DOR to determine the maximum fee amounts that may be imposed, which shall be the maximum amounts for the prior state fiscal year adjusted for inflation.

In addition, CTE proposes to use CDOT's existing transit grant process to solicit, award, and oversee grants, loans, and rebates to transit agencies. This would include posting the program criteria on the CTE website no later than 60 days prior to the application deadline. Applicants would be notified of the CTE Board’s decisions on proposals within 90 days of the application deadline.

SENATE BILL 21-260

BY SENATOR(S) Fenberg and Winter, Priola, Bridges, Buckner, Danielson, Hansen, Jaquez Lewis, Kolker, Lee, Moreno, Pettersen, Story; also REPRESENTATIVE(S) Garnett and Gray, Amabile, Bacon, Benavidez, Bernett, Bird, Boesenecker, Caraveo, Cutter, Duran, Esgar, Exum, Froelich, Gonzales-Gutierrez, Herod, Hooton, Jackson, Jodeh, Kennedy, Kipp, Lontine, McCluskie, McCormick, McLachlan, Michaelson Jene; Mullica, Ortiz, Sullivan, Titone, Valdez A., Weissman, Woodrow, Young.

CONCERNING THE SUSTAINABILITY OF THE TRANSPORTATION SYSTEM IN COLORADO, AND, IN CONNECTION THEREWITH, CREATING NEW SOURCES OF DEDICATED FUNDING AND NEW STATE ENTERPRISES TO PRESERVE, IMPROVE, AND EXPAND EXISTING TRANSPORTATION INFRASTRUCTURE, DEVELOP THE MODERNIZED INFRASTRUCTURE NEEDED TO SUPPORT THE WIDESPREAD ADOPTION OF ELECTRIC MOTOR VEHICLES, AND MITIGATE ENVIRONMENTAL AND HEALTH IMPACTS OF TRANSPORTATION SYSTEM USE; EXPANDING AUTHORITY FOR REGIONAL TRANSPORTATION IMPROVEMENTS; AND MAKING AN APPROPRIATION.

Be it enacted by the General Assembly of the State of Colorado:

[Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.]
SECTION 1. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The current and future health and prosperity of the state and its growing number of citizens requires the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system;

(b) A sustainable transportation system:

(I) Has sufficient capacity to allow efficient movement of people, goods, and services in all parts of the state in light of significant population growth;

(II) Is safe, well-maintained, accessible, integrated, and multimodal;

(III) Is planned, funded, designed, constructed, maintained, supervised, and regulated in a way that:

(A) Actively encourages diverse public participation in the planning process, including but not limited to participation from urban, rural, and disproportionately impacted communities;

(B) Equitably distributes transportation infrastructure among both urban and rural users in the state and is adequately and equitably funded with contributions from users that bear a reasonable relationship to their use of and impacts on the system and the environment and the costs incurred in mitigating those impacts; and

(C) Prioritizes asset management of Colorado's roads, bridges, and tunnels in order to achieve and maintain a state of good repair, consistent with federal requirements and best practices;

(IV) Addresses inequities in transportation access and the increased exposure to transportation-related air pollution for communities, including disproportionately impacted communities, communities near major roadways, and, as documented in multiple peer-reviewed scientific studies, communities where many of the residents are Black or Hispanic; and

(V) Reduces and mitigates adverse environmental and human health
impacts resulting from motor vehicle and other transportation-related emissions by incentivizing the widespread adoption of clean and efficient transportation technology such as personal electric vehicles, fleet and transit electrification, and electric motor vehicle charging and fueling infrastructure;

(c) Although a sustainable transportation system is a public good that benefits all Coloradans and the state has intermittently expended general fund money to fund transportation infrastructure, transportation system user charges such as per gallon charges on motor fuels, motor vehicle registration fees, and, increasingly, tolls have provided and continue to provide the vast majority of dedicated transportation funding;

(d) Current flat rate per gallon charges on motor fuels are unsustainable and do not reflect current or future transportation funding needs because:

(I) Such charges were last increased nearly three decades ago and are not indexed to inflation; and

(II) As internal combustion engines become more fuel efficient and electric motor vehicle usage increases, such charges generate less revenue per vehicle mile traveled and therefore are insufficient to mitigate the burden put on transportation infrastructure by these more efficient vehicles;

(e) Due to the decreased purchasing power of existing motor fuel charges, existing dedicated transportation funding has failed to adequately fund and will continue to fail to adequately fund both:

(I) The planning, development, construction, maintenance, and supervision of statewide highway transportation infrastructure; and

(II) Multimodal infrastructure and other programs and incentives needed to sufficiently reduce and mitigate the adverse environmental effects and health effects of transportation-related air pollution and greenhouse gas emissions to create a sustainable transportation system;

(f) While it is necessary and appropriate to increase general fund expenditures for transportation as provided for in this act, because the state has many other critical needs that require general fund money, it is also
necessary, appropriate, and more equitable to modernize user charges based on the costs users impose on the transportation system so that such charges remain the primary source of dedicated transportation funding;

(g) Because charges imposed on electric motor vehicles are annually applied whereas charges on motor vehicles powered by internal combustion engines are applied on a per gallon basis, it is necessary and appropriate to evaluate future opportunities to further equalize the average aggregate amount paid by all motor vehicle owners;

(h) To ensure that transportation system users are reasonably and equitably charged for their share of their transportation system use, it is necessary, appropriate, equitable, and in the best interest of all Coloradans to:

(I) Impose additional per gallon charges on motor fuels and index per gallon motor fuel charges to inflation;

(II) Ensure that owners of electric motor vehicles and owners of internal combustion engine vehicles are equitably charged for their use of the transportation system and that those charges, whether they are road usage fees or registration fees, are indexed to inflation;

(III) Impose new retail delivery fees on purchases of tangible personal property delivered to consumers and index those fees to inflation because:

(A) Demand for retail deliveries has increased and is projected to remain a significant form of commerce, which will increase both traffic and associated motor vehicle emissions that create adverse environmental and health impacts and additional costs to the state; and

(B) Imposing reasonably calculated retail delivery fees on each delivery made to a consumer accounts for the use of the transportation system associated with that delivery, generates the revenue needed to mitigate the impact of retail deliveries on transportation system infrastructure, and remediates and mitigates retail-delivery-related environmental and health impacts;

(IV) Impose new fees on passenger rides arranged through a
transportation network company and index those fees to inflation because:

(A) Such rides result in substantially more air pollution and greenhouse gas pollution from motor vehicle emissions than the alternative forms of transportation not used for the same trips, with the Union of Concerned Scientists estimating that the average ride arranged in the United States causes sixty-nine percent more greenhouse gas pollution than the alternative form of transportation not used due to factors such as deadhead miles driven without a passenger and displacement of walking, biking, and transit trips; and

(B) Imposing reasonably calculated per ride fees on each passenger ride arranged through a transportation network company helps ensure that transportation network companies pay their fair share of costs to reduce and mitigate the increased environmental and health impacts of such prearranged rides; and

(V) Ensure that the current two dollar daily motor vehicle rental fee is indexed to inflation and collected on rentals of twenty-four hours or longer but not more than thirty days that are enabled by a car sharing program;

(i) Because greenhouse gas pollution resulting from the production, distribution, and use of motor vehicle fuels produces many social costs, including but not limited to adverse public health impacts, increased heat waves, droughts, water supply shortages, flooding, biodiversity loss, and forest health issues such as forest fires, and also adversely impacts specific industries such as agriculture and outdoor recreation, it is necessary and appropriate that the state, when estimating the social costs of transportation-related greenhouse gas pollution, estimate those costs as accurately as possible and that the methodology to be used by the state when making such estimates be specified by law as provided for in this act; and

(j) (I) As part of its national infrastructure funding and job creation plan, the federal government is expected to provide substantial federal funding to the state for multimodal transportation and the widespread adoption of electric motor vehicles to help minimize and mitigate adverse environmental and health impacts.
(II) If the state receives such federal funding, the general assembly intends that the state executive branch departments, agencies, and enterprises involved in the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system evaluate whether the allocation of fee revenue authorized by this act should be modified. Further, the general assembly intends that the aggregate amount of fee revenue going to the community access enterprise, the clean fleet enterprise, the clean transit enterprise, the nonattainment area air pollution mitigation enterprise, and the multimodal transportation and mitigation options fund not be decreased. If it is determined that the allocation should be modified, the general assembly intends that recommendations be made to the general assembly regarding the modifications that should be made.

(2) The general assembly further finds and declares that:

(a) The planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system requires the implementation of a comprehensive regulatory scheme that appropriately balances and funds the necessary elements of such a system, including but not limited to:

(I) The construction, maintenance, and supervision of highways and traditional highway infrastructure; and

(II) The infrastructure, programs, and incentives needed to support the widespread adoption of electric motor vehicles for personal, commercial, and government use and, by doing so and through other appropriate means, minimizes and mitigates the adverse environmental and health impacts of transportation-related air pollution and greenhouse gas pollutant emissions that affect the general public, including disproportionately impacted communities;

(b) The planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system depends, at a minimum, on the institutional and individual knowledge, expertise, and experience of the Colorado energy office, the department of transportation, the department of public health and environment, other organizations and individuals interested in a sustainable transportation system, and the general public;
(c) It is necessary and appropriate to coordinate the implementation of the scheme by:

(I) Providing additional sustainable funding for the construction, maintenance, and supervision of traditional highway infrastructure by the department of transportation, counties, and municipalities and for multimodal transportation projects; and

(II) Creating and funding a community access enterprise, a clean fleet enterprise, a clean transit enterprise, and a nonattainment area air pollution mitigation enterprise, each of which uses its distinctive competencies to contribute in a distinct way to the implementation of the scheme to support a sustainable transportation system and each of which has a governing board that includes members selected in part based on knowledge, expertise, or experience deemed specifically relevant to the development and use of the distinctive competencies of the enterprise and the individual mission of the enterprise;

(d) The community access enterprise, the clean fleet enterprise, the clean transit enterprise, and the nonattainment area air pollution mitigation enterprise created in this act have distinctive competencies and are each charged with implementing different components of the scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system. Specifically:

(I) The community access enterprise is created to serve the primary business purpose of equitably reducing and mitigating the adverse environmental and health impacts of air pollution and greenhouse gas emissions produced by motor vehicles used to make retail deliveries to consumers within local communities. The enterprise will support the adoption of electric motor vehicles and electric alternatives to motor vehicles at the community level, which will support communities, including rural, urban, and disproportionately impacted communities, throughout the state, and will pursue its primary business purpose by, at a minimum, providing funding or financing to:

(A) Construct or install the sufficient and accessible electric motor vehicle charging infrastructure needed to reduce range anxiety and ensure that electric motor vehicles are viable in all communities; and
(B) Provide financial incentives and assistance that make it possible for owners of older, less fuel efficient, and higher polluting vehicles to replace those motor vehicles with electric motor vehicles and encourage use of electric alternatives to motor vehicles and public transit;

(II) The clean fleet enterprise is created to serve the primary business purpose of reducing and mitigating the adverse environmental and health impacts of air pollution and greenhouse gas emissions produced by the increasing number of fleet motor vehicles being used to provide transportation network company rides and make retail deliveries by supporting the electrification of such fleets and other motor vehicle fleets, and the enterprise will support the electrification of motor vehicle fleets and pursue its primary business purpose by, at a minimum, providing funding or financing to:

(A) Help owners and operators of motor vehicle fleets finance electric motor vehicle acquisitions and upgrades;

(B) Coordinate engagement and develop strategies for electrifying motor vehicle fleets and other not yet electrified freight transportation and retail delivery operations that can be electrified; and

(C) Provide or support the delivery of companion services such as fleet motor vehicle testing, inspection, and readjustment services;

(III) The clean transit enterprise is created to serve the primary business purpose of reducing and mitigating the adverse environmental and health impacts of air pollution and greenhouse gas emissions produced by retail deliveries by supporting the replacement of existing gasoline and diesel public transit vehicles with electric motor vehicles, providing the associated recharging infrastructure for electric transit fleet motor vehicles, supporting facility modifications that allow for the safe operation and maintenance of electric transit motor vehicles, and funding planning studies that enable transit agencies to plan for transit vehicle electrification; and

(IV) The nonattainment area air pollution mitigation enterprise is created to serve the primary business purpose of mitigating the environmental and health impacts of increased air pollution from motor vehicle emissions in nonattainment areas that results from the rapid and continuing growth in retail deliveries made by motor vehicles and in
prearranged rides provided by transportation network companies by providing funding for eligible projects that reduce traffic, including demand management projects that encourage alternatives to driving alone or that directly reduce air pollution, such as retrofitting of construction equipment, construction of roadside vegetation barriers, and planting trees along medians;

(e) The community access enterprise, the clean fleet enterprise, the clean transit enterprise, and the nonattainment area air pollution mitigation enterprise each serve a separate primary purpose and none of the enterprises serve primarily the same purpose as any other enterprise created in Senate Bill 21-260, enacted in 2021, or otherwise created within the five preceding years;

(f) Because the community access enterprise, the clean fleet enterprise, the nonattainment area air pollution mitigation enterprise, and the clean transit enterprise each serve primarily their own purpose and each enterprise is projected to receive revenue from fees and surcharges of less than one hundred million dollars in its first five fiscal years, including the fiscal year in which its board first meets, section 24-77-108, C.R.S., does not require any of the enterprises to be approved at a statewide general election; and

(g) Consistent with the determination of the Colorado supreme court in Colorado Union of Taxpayers Foundation v. City of Aspen, 2018 CO 36, that a charge is not a tax if the primary purpose of the charge is to not to raise revenue for general governmental purposes but is instead to defray some of the costs of regulating an activity under a comprehensive regulatory scheme, the charges imposed by the state and by each enterprise as authorized by this act are fees, not taxes, because each fee is collected from transportation system users for the primary purpose of defraying the costs of mitigating the impact caused by the transportation system user when engaging in an activity that is subject to the fee in an amount reasonably related to the impacts caused by the activity and the amount expended to mitigate that impact.

SECTION 2. In Colorado Revised Statutes, 8-20-206.5, amend (6)(a)(II) as follows:

8-20-206.5. Environmental response surcharge - liquefied
petroleum gas and natural gas inspection fund - perfluoroalkyl and polyfluoroalkyl substances cash fund - definitions. (6) (a) In addition to the payment collected under subsection (1)(a) of this section, the executive director of the department of revenue shall also collect a fee to:

(II) Support the department of transportation in functions related to freight movement and infrastructure in the state, INCLUDING THE FUNCTIONS OF THE FREIGHT MOBILITY AND SAFETY BRANCH OF THE TRANSPORTATION DEVELOPMENT DIVISION OF THE DEPARTMENT OF TRANSPORTATION CREATED IN SECTION 43-1-117 (4), as well as infrastructure projects that enhance the safety of movement of commercial materials;

SECTION 3. In Colorado Revised Statutes, 24-1-119, add (13) as follows:

24-1-119. Department of public health and environment - creation. (13) THE CLEAN FLEET ENTERPRISE, CREATED IN SECTION 25-7.5-103, SHALL EXERCISE ITS POWERS AND PERFORM ITS DUTIES AS IF THE SAME WERE TRANSFERRED BY A TYPE 1 TRANSFER, AS DEFINED IN SECTION 24-1-105, TO THE DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT.

SECTION 4. In Colorado Revised Statutes, 24-1-128.7, amend (5); and add (9) and (10) as follows:

24-1-128.7. Department of transportation - creation. (5) The statewide bridge AND TUNNEL enterprise created in section 43-4-805 (2), C.R.S., shall exercise its powers and perform its duties and functions as if the same were transferred by a type 1 transfer, as defined in section 24-1-105, to the department of transportation.

(9) THE CLEAN TRANSIT ENTERPRISE, CREATED IN SECTION 43-4-1203, SHALL EXERCISE ITS POWERS AND PERFORM ITS DUTIES AS IF THE SAME WERE TRANSFERRED BY A TYPE 1 TRANSFER, AS DEFINED IN SECTION 24-1-105, TO THE DEPARTMENT OF TRANSPORTATION.

(10) THE NONATTAINMENT AREA AIR POLLUTION MITIGATION ENTERPRISE, CREATED IN SECTION 43-4-1303, SHALL EXERCISE ITS POWERS AND PERFORM ITS DUTIES AS IF THE SAME WERE TRANSFERRED BY A TYPE 1 TRANSFER, AS DEFINED IN SECTION 24-1-105, TO THE DEPARTMENT OF TRANSPORTATION.
SECTION 5. In Colorado Revised Statutes, add 24-38.5-110 and 24-38.5-111 as follows:

24-38.5-110. Electric vehicle plan and greenhouse gas pollution reduction roadmap - annual progress reports. For state fiscal year 2022-23, and for each subsequent state fiscal year, the Colorado Energy Office and the Department of Public Health and Environment shall, after consultation with the Department of Transportation, jointly prepare and present to the Transportation and Local Government and Energy and Environment Committees of the House of Representatives and the Transportation and Energy Committee of the Senate, or any successor committees, an annual report detailing the progress made toward the electric motor vehicle adoption goals set forth in the "Colorado Electric Vehicle Plan 2020" and the transportation sector greenhouse gas pollution reduction goals set forth in the "Colorado Greenhouse Gas Pollution Reduction Roadmap", published by the Colorado Energy office. The Community Access Enterprise created in section 24-38.5-303 (1) and the Clean Fleet Enterprise created in section 25-7.5-103 (1)(a) shall also post the annual report on their websites.

24-38.5-111. Social cost of greenhouse gas pollution - estimate methodology. Except where a different methodology is prescribed by law, the Colorado Energy Office, the Department of Transportation, and the Department of Public Health and Environment shall, when estimating the social costs of greenhouse gas pollution, base their estimate on the most recent assessment of the social cost of carbon dioxide and other greenhouse gas pollutants developed by the federal government using a discount rate that is two and one-half percent or less and does not yield a lower estimate of costs than the costs published in the technical support document of the Federal Interagency Working Group on the Social Cost of Greenhouse Gases entitled "Technical Update of the Social Cost of Carbon for Regulatory Impact Analysis Under Executive Order 12866".

SECTION 6. In Colorado Revised Statutes, add part 3 to article 38.5 of title 24 as follows:

PAGE 11-SENATE BILL 21-260
PART 3
COMMUNITY ACCESS TO ELECTRIC VEHICLE CHARGING AND FUELING INFRASTRUCTURE

24-38.5-301. Legislative declaration. (1) The General Assembly hereby finds and declares that:

(a) Retail deliveries are increasing and are expected to continue to increase in urban and rural communities;

(b) The motor vehicles used to make retail deliveries are some of the most polluting vehicles on the road, which has resulted in additional and increasing air and greenhouse gas pollution at the local community level from idling delivery vehicles in neighborhoods;

(c) The adverse environmental and health impacts of increased local emissions from motor vehicles used to make retail deliveries can be mitigated and offset by investing in the charging and fueling infrastructure needed to support widespread public adoption of electric motor vehicles and zero emission vehicles and by replacing the state's dirtiest passenger vehicles with zero emission vehicles;

(d) Instead of reducing the impacts of retail deliveries by limiting retail delivery activity through regulation, it is more appropriate to continue to allow persons who receive retail deliveries to benefit from the convenience afforded by unfettered retail deliveries and instead impose a small fee on each retail delivery and use fee revenue to fund necessary mitigation activities;

(e) It is necessary, appropriate, and in the best interest of the state and all Coloradans to incentivize, support, and accelerate the use of electric motor vehicles throughout the state and to enable the state to achieve its electric motor vehicle adoption goals as set forth in the Colorado Energy Office's "Colorado Electric Vehicle Plan 2020" because widespread adoption of electric motor vehicles:
(I) Reduces emissions of air pollutants, including hazardous air pollutants and greenhouse gases, at the community level that contribute to adverse human health effects such as asthma, heart attacks, and lung cancer, and adverse environmental effects, including but not limited to climate change, and helps the state meet its statewide greenhouse gas pollution reduction targets established in Section 25-7-102 (2)(g) and its transportation sector greenhouse gas pollution reduction targets established in the Colorado energy office's "Colorado Greenhouse Gas Pollution Reduction Roadmap" and comply with air quality attainment standards;

(II) Helps businesses and governmental entities operate more efficiently and helps individuals and families save money over time by reducing fuel and maintenance costs associated with the use of motor vehicles;

(III) Reduces the social costs of emissions of greenhouse gases and other air pollutants by reducing such emissions; and

(IV) Reduces higher emissions of air pollutants in local communities, including disproportionately impacted communities, where there is increased exposure to transportation-related air pollution and where, as many studies confirm, increased exposure to traffic and air pollution results in a higher risk for adverse health outcomes;

(f) Retiring a relatively small number of high-emitting passenger vehicles and replacing them with low or zero emission vehicles would have a relatively large impact on emissions reductions, as shown by a 2009 study that found that ten percent of passenger vehicles are responsible for more than thirty percent of nitrogen oxide emissions and nearly fifty percent of hydrocarbon emissions;

(g) One of the best ways to incentivize, support, and accelerate the adoption of electric motor vehicles in both urban and rural areas is to reduce range anxiety and inconvenience for electric motor vehicle users by building readily available, robust, easy to use, and efficient electric motor vehicle charging
AND FUELING INFRASTRUCTURE IN COMMUNITIES AND ALONG MAJOR HIGHWAY CORRIDORS THROUGHOUT THE STATE;

(h) ANOTHER WAY TO INCENTIVIZE, SUPPORT, AND ACCELERATE THE ADOPTION OF ELECTRIC MOTOR VEHICLES, PROMOTE EQUITABLE ACCESS TO ELECTRICAL MOTOR VEHICLES AND LESS EXPENSIVE ELECTRICAL ALTERNATIVES TO MOTOR VEHICLES, AND ENCOURAGE CLEAN TRAVEL IS TO PROVIDE INCENTIVES IN COMMUNITIES, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES, FOR ACQUISITION OR USE OF ELECTRIC MOTOR VEHICLES OR ELECTRIC ALTERNATIVES TO MOTOR VEHICLES AND USE OF TRANSIT. CREATING ACCESS TO ELECTRIC MOTOR VEHICLES OR ELECTRIC ALTERNATIVES TO MOTOR VEHICLES FOR COMMUNITIES, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES, ADDRESSES INEQUITIES BY ALLOWING INDIVIDUALS WHO CANNOT AFFORD TO UPGRADE TO MORE FUEL EFFICIENT MOTOR VEHICLES TO UPGRADE TO MOTOR VEHICLES THAT PRODUCE LITTLE OR NO EMISSIONS IN THEIR COMMUNITIES.

(i) BY REDUCING MOTOR VEHICLE EMISSIONS, INCENTIVIZING, SUPPORTING, AND ACCELERATING THE ADOPTION OF ELECTRIC MOTOR VEHICLES AT THE COMMUNITY LEVEL EFFECTIVELY REMEDIATES SOME OF THE IMPACTS OF RETAIL DELIVERIES BY OFFSETTING A PORTION OF THE INCREASED MOTOR VEHICLE EMISSIONS RESULTING FROM RETAIL DELIVERIES.

(2) THE GENERAL ASSEMBLY FURTHER FINDS AND DECLARES THAT:

(a) TO INCENTIVIZE, SUPPORT, AND ACCELERATE THE CONSTRUCTION OF ELECTRIC MOTOR VEHICLE CHARGING AND FUELING INFRASTRUCTURE IN COMMUNITIES THROUGHOUT THE STATE; INCENTIVIZE, SUPPORT, AND ACCELERATE THE ADOPTION OF ELECTRIC MOTOR VEHICLES BY BUSINESSES, INCLUDING TRANSPORTATION NETWORK COMPANIES, GOVERNMENTAL ENTITIES, AND INDIVIDUALS; AND THEREBY INCREASE ACCESS TO ELECTRIC MOTOR VEHICLES, MINIMIZE AND MITIGATE THE ENVIRONMENTAL AND HEALTH IMPACTS CAUSED BY TRANSPORTATION-RELATED EMISSIONS OF AIR POLLUTANTS AND GREENHOUSE GASES, AND ALLOW THE STATE AND ITS CITIZENS TO REAP THE ENVIRONMENTAL, HEALTH, BUSINESS AND GOVERNMENTAL OPERATIONAL EFFICIENCY, AND PERSONAL MOTOR VEHICLE TOTAL OWNERSHIP COST SAVINGS BENEFITS OF WIDESPREAD ADOPTION OF ELECTRIC MOTOR VEHICLES, IT IS NECESSARY, APPROPRIATE, AND IN THE
BEST INTEREST OF THE STATE TO CREATE A COMMUNITY ACCESS ENTERPRISE THAT CAN PROVIDE SPECIALIZED BUSINESS SERVICES, INCLUDING IMPACT REMEDIATION SERVICES, THAT HELP COMMUNITIES, BUSINESSES, AND GOVERNMENTAL ENTITIES CONSTRUCT THE ELECTRIC MOTOR VEHICLE CHARGING AND FUELING INFRASTRUCTURE NEEDED TO SUPPORT WIDESPREAD ADOPTION OF ELECTRIC MOTOR VEHICLES, INCLUDING LIGHT-DUTY, MEDIUM-DUTY, AND HEAVY-DUTY MOTOR VEHICLES AND MOTOR VEHICLES USED TO MAKE RETAIL DELIVERIES, AND THEREBY ASSUAGE RANGE ANXIETY CONCERNS, SUPPLY CHAIN DISRUPTION CONCERNS, AND ANY OTHER CONCERNS THAT CURRENTLY DISINCENTIVIZE THE WIDESPREAD ADOPTION OF ELECTRIC MOTOR VEHICLES;

(b) The specific focus of the enterprise is the equitable reduction and mitigation of the adverse environmental and health impacts of air pollution and greenhouse gas emissions at the community level through support of the adoption of electric motor vehicles and electric alternatives to motor vehicles at the community level, including but not limited to within disproportionately impacted communities throughout the state;

(c) The enterprise provides impact remediation services when, in exchange for the payment of community access retail delivery fees by purchasers of tangible personal property for retail delivery, it acts to mitigate the impacts of residential and commercial deliveries on the state's transportation infrastructure, air quality, and emissions by:

(I) Funding the construction of electric motor vehicle charging infrastructure that supports the use of clean and quiet electric motor vehicles, including motor vehicles used to make retail deliveries;

(II) Specifically supporting and incentivizing the retirement of old and inefficient motor vehicles powered by internal combustion engines and the adoption of electric motor vehicles, electric alternatives to motor vehicles, and transit use in communities, including but not limited to disproportionately impacted communities, that generally bear the greatest burden of the environmental and health impacts of transportation emissions due to disparities in transportation pollution exposure;

PAGE 15-SENATE BILL 21-260
(III) Providing outreach, education, planning funds, or training to support the successful applications for funding and the performance of entities receiving funds;

(IV) Contributing to the comprehensive regulatory scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system; and

(V) Providing additional remediation services to offset impacts caused by fee payers as may be provided by law;

(d) By providing remediation services as authorized by this section, the enterprise provides a benefit to fee payers when it remediates the impacts they cause and therefore operates as a business in accordance with the determination of the Colorado supreme court in Colorado Union of Taxpayers Foundation v. City of Aspen, 2018 CO 36;

(e) Consistent with the determination of the Colorado supreme court in Nicholl v. E-470 Public Highway Authority, 896 P.2d 859 (Colo. 1995), that the power to impose taxes is inconsistent with enterprise status under section 20 of article X of the state constitution, it is the conclusion of the general assembly that the revenue collected by the enterprise is generated by fees, not taxes, because the community access retail delivery fee imposed by the enterprise as authorized by section 24-38.5-303 (7) is:

(I) Imposed for the specific purpose of allowing the enterprise to defray the costs of providing the remediation services specified in this section, including mitigating impacts to air quality and greenhouse gas emissions caused by the activities on which the fee is assessed, and contributes to the implementation of the comprehensive regulatory scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system; and

(II) Collected at rates that are reasonably calculated based on the impacts caused by fee payers and the cost of
REMEDIATING THOSE IMPACTS; AND

(f) SO LONG AS THE ENTERPRISE QUALIFIES AS AN ENTERPRISE FOR PURPOSES OF SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION, THE REVENUE FROM THE COMMUNITY ACCESS RETAIL DELIVERY FEE COLLECTED BY THE ENTERPRISE IS NOT STATE FISCAL YEAR SPENDING, AS DEFINED IN SECTION 24-77-102 (17), OR STATE REVENUES, AS DEFINED IN SECTION 24-77-103.6 (6)(c), AND DOES NOT COUNT AGAINST EITHER THE STATE FISCAL YEAR SPENDING LIMIT IMPOSED BY SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION OR THE EXCESS STATE REVENUES CAP, AS DEFINED IN SECTION 24-77-103.6 (6)(b)(I)(D).

24-38.5-303. Community access enterprise - creation - board - powers and duties - fund - fee - transparency and reporting. (1) The community access enterprise is hereby created in the Colorado energy office. The enterprise is and operates as a government-owned business within the office to execute its business purpose as specified in subsection (3) of this section by exercising the powers and performing the duties set forth in this section.

(2) (a) The governing board of the enterprise consists of seven members as follows:

(I) The governor shall appoint four members with the advice and consent of the senate for terms of the length specified in subsection (2)(b) of this section. Of the four, at least one of the members must represent disproportionately impacted communities; at least one of the members must represent the interests of the automobile industry including manufacturers and dealers, the electric vehicle charging and fueling businesses, or owners or operators of motor vehicle fleets; and at least one of the members must represent a business or organization that supports electric alternatives to motor vehicles. The governor shall make
REASONABLE EFFORTS, TO THE EXTENT SUCH APPLICATIONS HAVE BEEN SUBMITTED FOR CONSIDERATION FOR THE BOARD, TO CONSIDER MEMBERS THAT REFLECT THE STATE'S GEOGRAPHIC DIVERSITY WHEN MAKING APPOINTMENTS AND SHALL MAKE INITIAL APPOINTMENTS TO THE BOARD NO LATER THAN OCTOBER 1, 2021.

(II) The director of the Colorado energy office or the director's designee;

(III) The executive director of the department of public health and environment or the executive director's designee; and

(IV) The executive director of the department of transportation or the executive director's designee.

(b) The members of the board appointed by the governor serve for terms of four years; except that two of the members initially appointed shall serve for initial terms of three years. A member who is appointed by the governor to fill a vacancy on the board shall serve the remainder of the unexpired term of the former member. The other board members serve for as long as they hold their positions or are designated to serve.

(c) Members of the board serve without compensation but must be reimbursed from money in the fund for actual and necessary expenses incurred in the performance of their duties pursuant to this Part 3.

(3) The business purpose of the enterprise is to support the widespread adoption of electric motor vehicles, including motor vehicles that originally were powered exclusively by internal combustion engines but have been converted into electric motor vehicles, in an equitable manner by directly investing in transportation infrastructure, making grants or providing rebates or other financing options to fund the construction of electric motor vehicle charging infrastructure throughout the state, and incentivizing the acquisition and use of electric motor vehicles and electric alternatives to motor vehicles in communities, including but not limited to disproportionately impacted communities, and by owners of older, less fuel efficient,
AND HIGHER POLLUTING VEHICLES. TO ALLOW THE ENTERPRISE TO ACCELERATE ITS BUSINESS PURPOSE AND FULLY EXERCISE ITS POWERS AND DUTIES THROUGH THE BOARD, THE ENTERPRISE MAY:

(a) IMPOSE A COMMUNITY ACCESS RETAIL DELIVERY FEE AS AUTHORIZED BY SUBSECTION (7) OF THIS SECTION;

(b) INVEST IN TRANSPORTATION INFRASTRUCTURE PROGRAMS AS AUTHORIZED BY SUBSECTION (8) OF THIS SECTION; AND

(c) ISSUE REVENUE BONDS PAYABLE FROM THE REVENUE AND OTHER AVAILABLE MONEY OF THE ENTERPRISE.

(4) THE ENTERPRISE CONSTITUTES AN ENTERPRISE FOR PURPOSES OF SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION SO LONG AS IT RETAINS THE AUTHORITY TO ISSUE REVENUE BONDS AND RECEIVES LESS THAN TEN PERCENT OF ITS TOTAL ANNUAL REVENUE IN GRANTS FROM ALL COLORADO STATE AND LOCAL GOVERNMENTS COMBINED. SO LONG AS IT CONSTITUTES AN ENTERPRISE PURSUANT TO THIS SUBSECTION (4), THE ENTERPRISE IS NOT SUBJECT TO SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION.

(5) (a) THE COMMUNITY ACCESS ENTERPRISE FUND IS HEREBY CREATED IN THE STATE TREASURY. THE FUND CONSISTS OF COMMUNITY ACCESS RETAIL DELIVERY FEE REVENUE CREDITED TO THE FUND PURSUANT TO SUBSECTION (7) OF THIS SECTION, ANY MONETARY GIFTS, GRANTS, DONATIONS, OR OTHER PAYMENTS RECEIVED BY THE ENTERPRISE, ANY FEDERAL MONEY THAT MAY BE CREDITED TO THE FUND, AND ANY OTHER MONEY THAT THE GENERAL ASSEMBLY MAY APPROPRIATE OR TRANSFER TO THE FUND. THE STATE TREASURER SHALL CREDIT ALL INTEREST AND INCOME DERIVED FROM THE DEPOSIT AND INVESTMENT OF MONEY IN THE FUND TO THE FUND. MONEY IN THE FUND IS CONTINUOUSLY APPROPRIATED TO THE ENTERPRISE AND MAY BE EXPENDED TO PROVIDE GRANTS AND REBATES, PAY ITS REASONABLE AND NECESSARY OPERATING EXPENSES, INCLUDING THE REPAYMENT OF ANY LOAN RECEIVED PURSUANT TO SUBSECTION (5)(b) OF THIS SECTION, AND OTHERWISE EXERCISE ITS POWERS AND PERFORM ITS DUTIES AS AUTHORIZED BY THIS PART 3.

(b) THE COLORADO ENERGY OFFICE MAY TRANSFER MONEY FROM THE ENERGY FUND CREATED IN SECTION 24-38.5-102.4 TO THE ENTERPRISE
FOR THE PURPOSE OF DEFRAVING EXPENSES INCURRED BY THE ENTERPRISE BEFORE IT RECEIVES FEE REVENUE OR REVENUE BOND PROCEEDS. THE ENTERPRISE MAY ACCEPT AND EXPEND ANY MONEY SO TRANSFERRED, AND, NOTWITHSTANDING ANY STATE FISCAL RULE OR GENERALLY ACCEPTED ACCOUNTING PRINCIPLE THAT COULD OTHERWISE BE INTERPRETED TO REQUIRE A CONTRARY CONCLUSION, SUCH A TRANSFER IS A LOAN FROM THE COLORADO ENERGY OFFICE TO THE ENTERPRISE THAT IS REQUIRED TO BE REPAID AND IS NOT A GRANT FOR PURPOSES OF SECTION 20 (2)(d) OF ARTICLE X OF THE STATE CONSTITUTION OR AS DEFINED IN SECTION 24-77-102 (7). ALL MONEY TRANSFERRED AS A LOAN TO THE ENTERPRISE SHALL BE CREDITED TO THE COMMUNITY ACCESS ENTERPRISE INITIAL EXPENSES FUND, WHICH IS HEREBY CREATED IN THE STATE TREASURY, AND LOAN LIABILITIES THAT ARE RECORDED IN THE COMMUNITY ACCESS ENTERPRISE INITIAL EXPENSES FUND BUT THAT ARE NOT REQUIRED TO BE PAID IN THE CURRENT FISCAL YEAR SHALL NOT BE CONSIDERED WHEN CALCULATING SUFFICIENT STATUTORY FUND BALANCE FOR PURPOSES OF SECTION 24-75-109. THE STATE TREASURER SHALL CREDIT ALL INTEREST AND INCOME DERIVED FROM THE DEPOSIT AND INVESTMENT OF MONEY IN THE COMMUNITY ACCESS ENTERPRISE INITIAL EXPENSES FUND TO THE FUND. THE COMMUNITY ACCESS ENTERPRISE INITIAL EXPENSES FUND IS CONTINUOUSLY APPROPRIATED TO THE ENTERPRISE FOR THE PURPOSE OF DEFRAVING EXPENSES INCURRED BY THE ENTERPRISE BEFORE IT RECEIVES FEE REVENUE OR REVENUE BOND PROCEEDS. AS THE ENTERPRISE RECEIVES SUFFICIENT REVENUE IN EXCESS OF EXPENSES, THE ENTERPRISE SHALL REIMBURSE THE ENERGY FUND FOR THE PRINCIPAL AMOUNT OF ANY LOAN FROM THE ENERGY FUND MADE BY THE COLORADO ENERGY OFFICE PLUS INTEREST AT A RATE SET BY THE COLORADO ENERGY OFFICE. UPON RECEIPT OF SUCH REIMBURSEMENT, THE COLORADO ENERGY OFFICE SHALL INSTRUCT THE STATE TREASURER TO TRANSFER FROM THE ENERGY FUND TO THE GENERAL FUND THE AMOUNT NEEDED TO FULLY REPAY THE AMOUNT OF ANY GENERAL FUND MONEY APPROPRIATED TO THE ENERGY FUND FOR THE PURPOSE OF FUNDING THE LOAN MADE PURSUANT TO THIS SUBSECTION (5)(b) PLUS THE INTEREST INCLUDED IN THE REIMBURSEMENT.

(6) IN ADDITION TO ANY OTHER POWERS AND DUTIES SPECIFIED IN THIS SECTION, THE BOARD HAS THE FOLLOWING GENERAL POWERS AND DUTIES:

(d) **To contract with any public or private entity including state agencies, consultants, and the Attorney General's Office for professional and technical assistance, office space and administrative services, advice, and other services related to the conduct of the affairs of the enterprise. The enterprise is encouraged to issue grants on a competitive basis based on written criteria established by the enterprise in advance of any deadlines for the submission of grant applications. The board shall generally avoid using sole-source contracts.**

(e) **To seek, accept, and expend gifts, grants, donations, or other payments from private or public sources for the purposes of this Part 3 so long as the total amount of all grants from Colorado state and local governments received in any state fiscal year is less than ten percent of the enterprise's total annual revenue for the state fiscal year. The enterprise shall transmit any money received through gifts, grants, donations, or other payments to the State Treasurer, who shall credit the money to the fund.**

(f) **To publish grant and similar program processes by which the enterprise accepts applications, the criteria used for evaluating applications, and a list of grantees pursuant to subsection (8) of this section;**

(g) **To promulgate rules for the sole purpose of setting the amount of the community access retail delivery fee at or below the maximum amount authorized in this section; and**

(h) **To have and exercise all rights and powers necessary or incidental to or implied from the specific powers and duties granted by this section.**

PAGE 24-SENATE BILL 21-260
(7) (a) In furtherance of its business purpose, beginning in state fiscal year 2022-23, the enterprise shall impose, and the Department of Revenue shall collect on behalf of the enterprise, a community access retail delivery fee on each retail delivery. Each retailer who makes a retail delivery shall add to the price of the retail delivery, collect from the purchaser, and pay to the Department of Revenue at the time and in the manner prescribed by the Department in accordance with section 43-4-218 (6) the community access retail delivery fee. For the purpose of minimizing compliance costs for retailers and administrative costs for the state, the Department of Revenue shall collect and administer the community access retail delivery fee on behalf of the enterprise in the same manner in which it collects and administers the retail delivery fee imposed by section 43-4-218(3).

(b) For retail deliveries of tangible personal property purchased during state fiscal year 2022-23, the enterprise shall impose the community access retail delivery fee in a maximum amount of six and nine-tenths cents.

(c) (I) Except as otherwise provided in subsection (7)(c)(II) of this section, for retail deliveries of tangible personal property purchased during state fiscal year 2023-24 or during any subsequent state fiscal year, the enterprise shall impose the community access retail delivery fee in a maximum amount that is the maximum amount for the prior state fiscal year adjusted for inflation. The enterprise shall notify the Department of Revenue of the amount of the community access retail delivery fee to be collected for retail deliveries of tangible personal property purchased during each state fiscal year no later than March 15 of the calendar year in which the state fiscal year begins, and the Department of Revenue shall publish the amount no later than April 15 of the calendar year in which the state fiscal year begins.

(II) The enterprise is authorized to adjust the amount of the community access retail delivery fee for retail deliveries of tangible personal property purchased during a state fiscal year only if the Department of Revenue adjusts the amount of the retail delivery fee imposed by section 43-4-218 (3) for retail deliveries of tangible personal property purchased during the
STATE FISCAL YEAR.

(8) IN FURTHERANCE OF ITS BUSINESS PURPOSE, AND SUBJECT TO THE REQUIREMENTS SET FORTH IN THIS SUBSECTION (8), THE ENTERPRISE IS AUTHORIZED TO IMPLEMENT GRANT, LOAN, OR REBATE PROGRAMS FOR THE FOLLOWING PURPOSES:

(a) To fund the construction of electric motor vehicle charging infrastructure including but not limited to:

(I) Public, workplace, transportation network company, and multifamily electric vehicle chargers;

(II) Electric vehicle chargers for communities, including but not limited to disproportionately impacted communities;

(III) Electric vehicle chargers for medium-duty electric motor vehicles and heavy-duty electric motor vehicles, including electrified refrigerated trailers;

(IV) Infrastructure needs to support the powering of hydrogen fuel cell motor vehicles; and

(V) Networks and plazas of direct current charging infrastructure that offer fast charging for electric motor vehicles;

(b) To provide inexpensive and accessible electric alternatives to motor vehicles such as electrical assisted bicycles and electric scooters;

(c) To support the adoption of electric motor vehicles in communities, including but not limited to disproportionately impacted communities, including by incentivizing replacement of high-emitting motor vehicles with electric motor vehicles; and

(d) To provide incentives for transportation network companies and companies that rent motor vehicles to transportation network company drivers for use in providing transportation network company services to increase access to...
OVERNIGHT CHARGING CAPABILITY FOR DRIVERS.

(9) The enterprise shall contract with the air pollution control division of the Department of Public Health and Environment to develop proposed rules for the consideration of the air quality control commission that will support the enterprise's business services, including remediation services, in a manner that maintains compliance with the federal and state statutes, rules, and regulations governing air quality. The division shall collaborate with the Colorado Energy Office and the Department of Transportation when developing the rules.

(10) (a) To ensure transparency and accountability, the enterprise shall:

(I) No later than June 1, 2022, publish and post on its website a ten-year plan that details how the enterprise will execute its business purpose during state fiscal years 2022-23 through 2031-32 and estimates the amount of funding needed to implement the plan. No later than January 1, 2032, the enterprise shall publish and post on its website a new ten-year plan for state fiscal years 2032-33 through 2041-42.

(II) Create, maintain, and regularly update on its website a public accountability dashboard that provides, at a minimum, accessible and transparent summary information regarding the implementation of its ten-year plan, the funding status and progress toward completion of each project that it wholly or partly funds, and its per project and total funding and expenditures;

(III) Engage regularly regarding its projects and activities with the public, specifically reaching out to and seeking input from communities, including but not limited to disproportionately impacted communities, and interest groups that are likely to be interested in the projects and activities; and

SECTION 11. In Colorado Revised Statutes, add article 7.5 to title 25 as follows:

ARTICLE 7.5
Clean Motor Vehicle Fleet Support

25-7.5-101. Legislative declaration. (1) THE GENERAL ASSEMBLY HEREBY FINDS AND DECLARES THAT:

(a) AN INCREASING NUMBER OF FLEET MOTOR VEHICLES ARE ON THE ROAD TO MEET INCREASING DEMANDS FOR RETAIL DELIVERIES AND RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES;

(b) THESE FLEET VEHICLES ARE SOME OF THE MOST POLLUTING VEHICLES ON THE ROAD, WHICH HAS RESULTED IN ADDITIONAL AND INCREASING AIR AND GREENHOUSE GAS POLLUTION AND RELATED ADVERSE ENVIRONMENTAL AND HEALTH IMPACTS ACROSS THE STATE;

(c) THE ADVERSE ENVIRONMENTAL AND HEALTH IMPACTS OF
INCREASED EMISSIONS FROM FLEET MOTOR VEHICLES USED TO MAKE RETAIL DELIVERIES AND PROVIDE RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES CAN BE MITIGATED AND OFFSET BY SUPPORTING THE WIDESPREAD ADOPTION OF ELECTRIC MOTOR VEHICLES FOR USE IN MOTOR VEHICLE FLEETS;

(d) INSTEAD OF REDUCING THE IMPACTS OF RETAIL DELIVERIES AND RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES BY LIMITING RETAIL DELIVERY AND TRANSPORTATION NETWORK COMPANY RIDE ACTIVITY THROUGH REGULATION, IT IS MORE APPROPRIATE TO CONTINUE TO ALLOW PERSONS WHO RECEIVE RETAIL DELIVERIES AND BENEFIT FROM THE CONVENIENCE AFFORDED BY UNFETTERED RETAIL DELIVERIES AND TO ALLOW TRANSPORTATION NETWORK COMPANIES THAT ARRANGE PREARRANGED RIDES TO CONTINUE TO PROVIDE THAT SERVICE WITHOUT UNDUE RESTRICTIONS AND INSTEAD IMPOSE A SMALL FEE ON EACH RETAIL DELIVERY AND RIDE AND USE FEE REVENUE TO FUND NECESSARY MITIGATION ACTIVITIES; AND

(e) IT IS NECESSARY, APPROPRIATE, AND IN THE BEST INTEREST OF THE STATE AND ALL COLORADANS TO INCENTIVIZE AND SUPPORT THE USE OF ELECTRIC MOTOR VEHICLES AND, TO THE EXTENT TEMPORARILY NECESSITATED BY THE LIMITATIONS OF CURRENT ELECTRIC MOTOR VEHICLE TECHNOLOGY AND AVAILABILITY FOR CERTAIN FLEET USES, COMPRESSED NATURAL GAS MOTOR VEHICLES THAT ARE FUELED BY RECOVERED METHANE AND THAT PRODUCE FEWER EMISSIONS THAN GASOLINE OR DIESEL POWERED MOTOR VEHICLES, BY BUSINESSES AND GOVERNMENTAL ENTITIES THAT USE FLEETS OF MOTOR VEHICLES, INCLUDING FLEETS COMPOSED OF PERSONAL MOTOR VEHICLES OWNED BY INDIVIDUAL CONTRACTORS WHO PROVIDE PREARRANGED RIDES FOR TRANSPORTATION NETWORK COMPANIES OR MAKE RETAIL DELIVERIES, AND TO ENABLE THE STATE TO ACHIEVE ITS STATED ELECTRIC MOTOR VEHICLE ADOPTION GOALS BECAUSE INCREASED USAGE OF ELECTRIC MOTOR VEHICLES IN MOTOR VEHICLE FLEETS:

(I) GENERALLY REDUCES EMISSIONS OF AIR POLLUTANTS, INCLUDING OZONE PRECURSORS, PARTICULATE MATTER POLLUTANTS, OTHER HAZARDOUS AIR POLLUTANTS, AND GREENHOUSE GASES, THAT CONTRIBUTE TO ADVERSE ENVIRONMENTAL EFFECTS SUCH AS CLIMATE CHANGE AND ADVERSE HUMAN HEALTH EFFECTS, INCLUDING BUT NOT LIMITED TO ASTHMA, REDUCED LUNG CAPACITY, INCREASED SUSCEPTIBILITY TO RESPIRATORY ILLNESSES, CHRONIC BRONCHITIS, HEART DISEASE, AND LUNG
CANCER, AND HELPS THE STATE MEET ITS STATEWIDE GREENHOUSE GAS POLLUTION REDUCTION TARGETS ESTABLISHED IN SECTION 25-7-102 (2)(g), COMPLY WITH AIR QUALITY ATTAINMENT STANDARDS, AND REDUCE ADVERSE ENVIRONMENTAL AND HEALTH IMPACTS ACROSS THE STATE AND IN COMMUNITIES, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES;

(II) SPECIFICALLY REDUCES HIGHER LOCALIZED EMISSIONS OF SUCH AIR POLLUTANTS IN COMMUNITIES, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES, WHERE:

(A) FLEET YARDS, WAREHOUSES, DISTRIBUTION CENTERS, REFINERIES, FUEL DEPOTS, WASTE FACILITIES, AND MAJOR INTERSTATE HIGHWAYS ARE LOCATED;

(B) USAGE OF FLEET MOTOR VEHICLES IS CONCENTRATED; AND

(C) RESIDENTS EXPERIENCE INCREASED RISKS OF AIR-POLLUTION-RELATED HEALTH IMPACTS SUCH AS ASTHMA, REDUCED LUNG CAPACITY, INCREASED SUSCEPTIBILITY TO RESPIRATORY ILLNESSES, HEART DISEASE, AND LUNG CANCER; AND

(III) BY REDUCING FUEL AND MAINTENANCE COSTS, HELPS BUSINESSES AND GOVERNMENTAL ENTITIES OPERATE MORE EFFICIENTLY OVER TIME, ALLOWING THE COST SAVINGS TO BE REINVESTED IN BUSINESS GROWTH OR USED FOR BENEFICIAL PUBLIC PURPOSES.

(2) THE GENERAL ASSEMBLY FURTHER FINDS AND DECLARES THAT:

(a) TO INCENTIVIZE, SUPPORT, AND ACCELERATE THE ADOPTION OF ELECTRIC MOTOR VEHICLES IN MOTOR VEHICLE FLEETS IN THE STATE AND THEREBY MINIMIZE AND MITIGATE THE ENVIRONMENTAL AND HEALTH IMPACTS OF THE TRANSPORTATION SYSTEM AND REAP THE ENVIRONMENTAL, HEALTH, AND BUSINESS AND GOVERNMENTAL OPERATIONAL EFFICIENCY BENEFITS THAT RESULT FROM MOTOR VEHICLE FLEET ELECTRIFICATION, IT IS NECESSARY, APPROPRIATE, AND IN THE BEST INTEREST OF THE STATE TO CREATE A CLEAN FLEET ENTERPRISE TO HELP BUSINESSES AND GOVERNMENTAL ENTITIES THAT OWN OR OPERATE FLEETS OF MOTOR VEHICLES USE MORE ELECTRIC MOTOR VEHICLES, AND, TO THE EXTENT TEMPORARILY NECESSITATED BY THE LIMITATIONS OF CURRENT ELECTRIC
MOTOR VEHICLE TECHNOLOGY FOR CERTAIN FLEET USES, MORE COMPRESSED NATURAL GAS MOTOR VEHICLES THAT ARE FUELED BY RECOVERED METHANE, IN THEIR MOTOR VEHICLE FLEETS;

(b) THE ENTERPRISE PROVIDES BUSINESS SERVICES, INCLUDING REMEDIATION SERVICES, WHEN, IN EXCHANGE FOR THE PAYMENT OF FEES, IT:

(I) PROVIDES FINANCING THROUGH GRANT PROGRAMS, REBATE PROGRAMS, REVOLVING LOAN FUNDS, OR ANY OTHER STRATEGIES THAT THE BOARD FINDS EFFECTIVE;

(II) HELPS OWNERS AND OPERATORS OF MOTOR VEHICLE FLEETS REDUCE THE UP-FRONT AND TOTAL COSTS OF USING MORE ELECTRIC MOTOR VEHICLES, AND, TO THE EXTENT TEMPORARILY NECESSITATED BY THE LIMITATIONS OF CURRENT ELECTRIC MOTOR VEHICLE TECHNOLOGY FOR CERTAIN FLEET USES, MORE COMPRESSED NATURAL GAS MOTOR VEHICLES THAT ARE FUELED BY RECOVERED METHANE, IN THEIR FLEETS;

(III) SUPPORTS COMPANION SERVICES SUCH AS TESTING, INSPECTION, AND READJUSTMENT SERVICES;

(IV) PROVIDES OUTREACH, EDUCATION, OR TRAINING TO SUPPORT THE SUCCESSFUL APPLICATION AND PERFORMANCE OF ENTITIES RECEIVING FUNDS;

(V) SUPPORTS THE DEVELOPMENT OF A CLEAN TRANSPORTATION WORKFORCE THAT CAN SUPPORT BUSINESSES AS THEY TRANSITION TO USING MORE ELECTRIC MOTOR VEHICLES IN THEIR FLEETS;

(VI) ASSESSES AND SUPPORTS THE IMPLEMENTATION OF CLEANER AND MORE EFFICIENT COMMERCIAL VEHICLE TECHNOLOGY TO SUPPORT MOTOR VEHICLE FLEET ELECTRIFICATION;

(VII) RESEARCHES AND DEVELOPS STRATEGIES, BUSINESS PLANS, AND GUIDANCE TO SUPPORT THE CONSISTENT APPLICATION OF GRANTS AND OTHER ENTERPRISE BUSINESS SERVICES, INCLUDING REMEDIATION SERVICES;

(VIII) CONTRIBUTES TO THE IMPLEMENTATION OF THE COMPREHENSIVE REGULATORY SCHEME REQUIRED FOR THE PLANNING,
FUNDING, DEVELOPMENT, CONSTRUCTION, MAINTENANCE, AND SUPERVISION OF A SUSTAINABLE TRANSPORTATION SYSTEM; AND

(IX) PROVIDES ADDITIONAL REMEDIATION SERVICES TO OFFSET IMPACTS CAUSED BY FEE PAYERS AS MAY BE PROVIDED BY LAW, INCLUDING BUT NOT LIMITED TO:

(A) INCENTIVIZING THE USE OF CLEAN MOBILE EQUIPMENT;

(B) PROVIDING PLANNING SERVICES TO SUPPORT COMMUNITIES, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES; AND

(C) PROVIDING SCRAPPAGE SERVICES;

(c) BY PROVIDING REMEDIATION SERVICES AS AUTHORIZED BY THIS SECTION, THE ENTERPRISE ENGAGES IN AN ACTIVITY CONDUCTED IN THE PURSUIT OF A BENEFIT, GAIN, OR LIVELIHOOD AND THEREFORE OPERATES AS A BUSINESS;

(d) BY PROVIDING REMEDIATION SERVICES AS AUTHORIZED BY THIS SECTION, THE ENTERPRISE PROVIDES A BENEFIT TO FEE PAYERS WHEN IT REMEDIATES THE IMPACTS THEY CAUSE AND THEREFORE OPERATES AS A BUSINESS IN ACCORDANCE WITH THE DETERMINATION OF THE COLORADO SUPREME COURT IN COLORADO UNION OF TAXPAYERS FOUNDATION V. CITY OF ASPEN, 2018 CO 36;

(e) CONSISTENT WITH THE DETERMINATION OF THE COLORADO SUPREME COURT IN NICHOLL V. E-470 PUBLIC HIGHWAY AUTHORITY, 896 P.2d 859 (COLO. 1995), THAT THE POWER TO IMPOSE TAXES IS INCONSISTENT WITH ENTERPRISE STATUS UNDER SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION, IT IS THE CONCLUSION OF THE GENERAL ASSEMBLY THAT THE REVENUE COLLECTED BY THE ENTERPRISE IS GENERATED BY FEES, NOT TAXES, BECAUSE THE FEES IMPOSED BY THE ENTERPRISE AS AUTHORIZED BY SECTION 25-7.5-103 (7) AND (8) ARE:

(I) IMPOSED FOR THE SPECIFIC PURPOSE OF ALLOWING THE ENTERPRISE TO DEFRAY THE COSTS OF PROVIDING THE REMEDIATION SERVICES SPECIFIED IN THIS SECTION, INCLUDING MITIGATING IMPACTS TO AIR QUALITY AND GREENHOUSE GAS EMISSIONS CAUSED BY THE ACTIVITIES...
ON WHICH THE FEE IS ASSESSED, AND CONTRIBUTES TO THE IMPLEMENTATION OF THE COMPREHENSIVE REGULATORY SCHEME REQUIRED FOR THE PLANNING, FUNDING, DEVELOPMENT, CONSTRUCTION, MAINTENANCE, AND SUPERVISION OF A SUSTAINABLE TRANSPORTATION SYSTEM; AND

(II) COLLECTED AT RATES THAT ARE REASONABLY CALCULATED BASED ON THE IMPACTS CAUSED BY FEE PAYERS AND THE COST OF REMEDIATING THOSE IMPACTS; AND

(f) SO LONG AS THE ENTERPRISE QUALIFIES AS AN ENTERPRISE FOR PURPOSES OF SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION, THE REVENUE FROM THE FEES COLLECTED BY THE ENTERPRISE IS NOT STATE FISCAL YEAR SPENDING, AS DEFINED IN SECTION 24-77-102 (17), OR STATE REVENUES, AS DEFINED IN SECTION 24-77-103.6 (6)(c), AND DOES NOT COUNT AGAINST EITHER THE STATE FISCAL YEAR SPENDING LIMIT IMPOSED BY SECTION 20 OF ARTICLE X OF THE STATE CONSTITUTION OR THE EXCESS STATE REVENUES CAP, AS DEFINED IN SECTION 24-77-103.6 (6)(b)(I)(D).

(a.6) Because the electric motor vehicle fee imposed pursuant to subsection (25)(a) of this section and the electric motor vehicle road usage equalization fee imposed pursuant to subsection (25)(a.5) of this section are intended to equalize the average aggregate amount of registration fees and motor fuel charges annually paid by owners of electric motor vehicles and owners of motor vehicles powered exclusively by internal combustion engines, and because motor fuel charges are paid throughout the year rather than at the time of annual motor vehicle registration, the department shall implement a pilot program to allow fees imposed pursuant to this subsection (25) to be paid on an automated prorated quarterly basis. After evaluating the success of the pilot program after the second year of implementation, the department shall make the pilot program permanent unless there is compelling evidence that the pilot program has not been successful. The department may promulgate rules to implement this subsection (25)(a.6).

(a.7) (I) In lieu of any other fee imposed by this subsection (25), for registration periods beginning during state fiscal year 2022-23 or during any subsequent state fiscal year, each authorized agent shall annually collect a commercial electric motor vehicle road usage equalization fee in the amount specified in subsection (25)(a.7)(II) or (25)(a.7)(III) of this section. The authorized agent shall transmit the fee to the state treasurer, who shall credit it as specified in subsection (25)(a.7)(IV) of this section.

(II) For registration periods beginning during state fiscal year 2022-23, the amount of the commercial electric motor vehicle road usage equalization fee is:

(A) Fifty dollars for an commercial electric motor vehicle that weighs more than ten thousand pounds but not more than sixteen thousand pounds;

(B) One hundred dollars for a commercial electric motor vehicle that weighs more than sixteen thousand pounds but not more than twenty-six thousand pounds; and
(C) One hundred fifty dollars for a commercial electric motor vehicle that weighs more than twenty-six thousand pounds.

(III) For registration periods beginning during state fiscal year 2023-24 or during any subsequent state fiscal year, the amount of the commercial electric motor vehicle road usage equalization fee is the amount of the fee for registration periods commencing during the prior state fiscal year, adjusted for inflation; except that an adjustment shall be made only if the rate of inflation is positive and the adjustment must be the lesser of the actual rate of inflation or five percent. The department of revenue shall calculate the inflation-adjusted amount of the commercial electric motor vehicle road usage equalization fee for a commercial electric motor vehicle for registration periods beginning during each state fiscal year and shall notify authorized agents of the amount no later than the May 1 of the calendar year in which the state fiscal year begins.

(IV) The state treasurer shall credit fee revenue collected pursuant to this subsection (25)(a.7) as follows:

(A) Seventy percent to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (6.8); and

(B) Thirty percent to the state highway fund created in section 43-1-219 for the purpose of funding freight-related projects that ease effective, efficient, and safe freight transport.

The report shall detail progress
ON ALL PROJECTS COMPLETED OR UNDERTAKEN USING FUNDING PROVIDED PURSUANT TO SENATE BILL 21-260, ENACTED IN 2021, IDENTIFY OTHER PROJECTS EXPECTED TO BE COMPLETED IN THE NEXT FIVE YEARS, SPECIFICALLY DOCUMENT THE USE OF GENERAL FUND MONEY PROVIDED PURSUANT TO SENATE BILL 21-260, ENACTED IN 2021, AND MAKE RECOMMENDATIONS AS TO WHETHER ADDITIONAL GENERAL FUND MONEY SHOULD BE PROVIDED FOR SIMILAR USES IN LIGHT OF CURRENT ECONOMIC CONDITIONS, INFLATION, AND OTHER PROJECT COMPLETION COST FACTORS, AND AVAILABLE STATE REVENUE. THE REPORT SHALL ALSO INCLUDE THE JOINT RECOMMENDATIONS OF THE OFFICE AND THE DEPARTMENTS AS TO WHETHER, BEGINNING IN STATE FISCAL YEAR 2027-28 OR A LATER STATE FISCAL YEAR, THE AMOUNT OF ANY OR ALL OF THE FEES IMPOSED BY THIS SUBSECTION (25) SHOULD BE ADJUSTED OR, DUE TO INCREASED USE OF SUCH MOTOR VEHICLES, FEES SHOULD ALSO BE IMPOSED ON HYDROGEN FUEL CELL MOTOR VEHICLES THAT ARE POWERED BY ELECTRICITY PRODUCED FROM A FUEL CELL THAT USES HYDROGEN GAS AS FUEL TO ENSURE THAT THE GOAL OF EQUALIZING THE AVERAGE AGGREGATE AMOUNT OF REGISTRATION FEES AND MOTOR FUEL CHARGES ANNUALLY PAID BY OWNERS OF ELECTRIC MOTOR VEHICLES AND OWNERS OF MOTOR VEHICLES POWERED EXCLUSIVELY BY INTERNAL COMBUSTION ENGINES CONTINUES TO BE REALIZED. WHEN DEVELOPING THEIR RECOMMENDATIONS REGARDING THE FEES, THE OFFICE AND THE DEPARTMENTS SHALL TAKE INTO ACCOUNT, AT A MINIMUM, THE MOST RECENT AVAILABLE RELIABLE DATA ON CURRENT AVERAGE FUEL EFFICIENCY AND CURRENT FUEL EFFICIENCY FOR THE MOST FUEL-EFFICIENT MOTOR VEHICLES FOR THE COLORADO LIGHT-DUTY AND COMMERCIAL MOTOR VEHICLE FLEETS OR, IF COLORADO DATA IS NOT AVAILABLE, THE UNITED STATES LIGHT-DUTY AND COMMERCIAL MOTOR VEHICLE FLEETS, AND THE MOST RECENT AVAILABLE RELIABLE PROJECTIONS OF FUTURE AVERAGE FUEL EFFICIENCY AND FUTURE FUEL EFFICIENCY FOR THE MOST FUEL-EFFICIENT MOTOR VEHICLES FOR THE COLORADO LIGHT-DUTY AND COMMERCIAL MOTOR VEHICLE FLEETS OR, IF COLORADO DATA IS NOT AVAILABLE, FOR THE UNITED STATES LIGHT-DUTY AND COMMERCIAL MOTOR VEHICLE FLEETS. (b) These impacts fall most heavily on communities adjacent to projects, including disproportionately impacted communities;

(c) To minimize the adverse environmental and health impacts of planned transportation capacity projects and address inequitable distribution of the burdens of such projects, it is necessary, appropriate, and in the best interests of the state and all Coloradans to require the department and metropolitan planning organizations, which are the state's primary transportation planning entities with responsibility for selecting and funding transportation capacity projects, to engage in an enhanced level of planning, modeling and other analysis, community engagement, and monitoring with respect to such projects as required by this section; and

(d) The requirements of this section are in addition to and shall to the extent practicable be executed concurrently with, and do not supplant, any other requirements or processes, including federal safety and state of good repair requirements,

Such revenue is allocated as follows:

(6.8) (a) Revenue from the electric motor vehicle fee, the electric motor vehicle road usage equalization fee, and the commercial electric motor vehicle fee imposed pursuant to section 42-3-304 (25) that is credited to the highway users tax fund as required by section 42-3-304 (25)(a), (25)(a.5), and (25)(a.7) and revenue from the road usage fees imposed pursuant to section 43-4-217 (3) and (4) that is credited to the highway users tax fund as required by section 43-4-217 (8) must be allocated and expended in accordance with the formula specified in subsection (6)(b) of this section.

(b) (I) Revenue from the retail delivery fee imposed pursuant to section 43-4-218 (3) that is credited to the highway users tax fund as required by section 43-4-218 (5)(a)(I) must be allocated and expended as follows:

(A) Forty percent must be paid to the state highway fund and expended as provided in section 43-4-206;

(C) Twenty-seven percent must be paid to the cities and
INCORPORATED TOWNS, SUBJECT TO ANNUAL APPROPRIATION BY THE GENERAL ASSEMBLY, AND MUST BE ALLOCATED AND EXPENDED AS PROVIDED IN SECTION 43-4-208 (2)(b) AND (6)(a).

(II) REVENUE FROM THE RETAIL DELIVERY FEE MAY BE EXPENDED FOR THE PURPOSES SPECIFIED IN SUBSECTION (6)(b) OF THIS SECTION AND MAY ALSO BE EXPENDED FOR TRANSIT-RELATED PROJECTS NEEDED TO INTEGRATE DIFFERENT TRANSPORTATION MODES WITHIN A MULTIMODAL TRANSPORTATION SYSTEM.

SECTION 34. In Colorado Revised Statutes, 43-4-206, amend (2)(b) introductory portion, (2)(b)(III), and (2)(b)(IV) as follows:

43-4-206. State allocation. (2) (b) Notwithstanding section 24-1-136 (11)(a)(I), beginning in 1998, the department of transportation shall report annually to the transportation committee of the senate and the transportation and energy committee of the house of representatives concerning the revenue expended by the department pursuant to subsection (2)(a) of this section and, beginning in 2019, any state general fund money that is credited to the state highway fund pursuant to section 24-75-219 (5), any net proceeds of lease-purchase agreements executed as required by section 24-82-1303 (2)(a) that are credited to the state highway fund pursuant to section 24-82-1303 (4)(b) and expended by the department pursuant to subsection (1)(b)(V) of this section, and any net proceeds of transportation revenue anticipation notes issued as authorized by a ballot issue submitted to and approved by the registered electors of the state at the
2020 statewide election pursuant to section 43-4-705 (13)(b) that are credited to the state highway fund pursuant to this section. The department shall present the report at the joint meeting required under section 43-1-113 (9)(a), and the report shall describe for each fiscal year, if applicable:

(III) The projected amounts of revenue and net proceeds that the department expects to receive under this subsection (2) section 24-75-219 (5); AND section 24-82-1303 (4)(b) and section 43-4-714 (1)(a) during the fiscal year;

(IV) The amount of revenue and net proceeds that the department has already received under this subsection (2) section 24-75-219 (5); AND section 24-82-1303 (4)(b) and section 43-4-714 (1)(a) during the fiscal year; and

SECTION 35. In Colorado Revised Statutes, add 43-4-217 and 43-4-218 as follows:

43-4-217. Additional funding - road usage fees - legislative declaration - definition. (1) The General Assembly hereby finds and declares that:

(a) State motor fuel excise taxes levied on the purchase of motor fuels represent the largest source of state funding for the construction, maintenance, and supervision of the highways, roads, and streets of the state;

(b) The amount of motor fuel taxes paid for motor fuel used to propel a motor vehicle bears a reasonable relationship to the vehicle's use of and impact on the highways, roads, and streets of the state because the amount of motor fuel used by a vehicle is in large part a function of the amount of miles traveled by the vehicle and the weight of the vehicle;

(c) Motor fuel tax rates have not been increased in over twenty-five years, and motor fuel tax revenue has not kept pace and will not keep pace with inflation or the increased transportation infrastructure demands of the growing population of the state because:
(I) The amount of motor fuel tax paid does not depend on the price of motor fuel and therefore does not increase when motor fuel prices increase but instead depends on the quantity of motor fuel purchased, which for most drivers does not increase over time; and

(II) Motor vehicles have become more fuel-efficient over time;

(d) It is necessary, appropriate, and in the best interest of the state to mitigate the declining purchasing power of motor fuel excise taxes by collecting a road usage fee from persons who use the transportation system to travel by motor vehicle, basing the amount of the fee on reasonable estimates of fee payers' usage of and impact on the system, and using fee revenue solely for the construction, maintenance, and supervision of the highways of the state;

(e) Because motor fuel consumption is reasonably related to use of and impact on the transportation system, it is fair to fee payers, reasonable, and appropriate to calculate the amount of the road use fee based on their motor fuel consumption;

(f) It is also fair to fee payers, reasonable, and appropriate to streamline fee collection by collecting the road use fee from distributors of motor fuels when motor fuel taxes are collected because the amount of the fee will be incorporated into the retail price of motor fuel and therefore passed on to users of the transportation system in precise proportion to their consumption of motor fuel and in reasonable relation to their use of and impact on the transportation system; and

(g) In accordance with numerous Colorado judicial precedents, the road usage fee and the bridge and tunnel impact fee imposed as authorized by section 43-4-805(5)(g.5) and collected by the department of revenue on behalf of the statewide bridge and tunnel enterprise pursuant to this section are fees and are not taxes because:

(I) The fees are imposed not to raise revenue for general
GOVERNMENTAL PURPOSES BUT INSTEAD ARE IMPOSED FOR THE SOLE PURPOSE OF FUNDING THE CONSTRUCTION, MAINTENANCE, AND SUPERVISION OF THE TRANSPORTATION SYSTEM, WITH A PRIORITY PLACED ON PROJECTS THAT ARE DESIGNATED AS TEN-YEAR VISION PROJECTS ON THE DEPARTMENT'S TEN-YEAR VISION PROJECT LIST;

(II) FEE REVENUE DEFRAYS COSTS INCURRED BY THE STATE IN FUNDING CONSTRUCTION, MAINTENANCE, AND SUPERVISION OF THE TRANSPORTATION SYSTEM THAT IS NECESSITATED BY INCREASED USE OF THE SYSTEM BY THE FEE PAYERS WHO USE MOTOR VEHICLES ON THE TRANSPORTATION SYSTEM; AND

(III) THE FEES ARE IMPOSED AT RATES THAT ARE REASONABLY CALCULATED TO DEFRAY THE COSTS OF PROVIDING THE SERVICE, ARE BASED ON THE USE AND IMPACT ON THE TRANSPORTATION SYSTEM BY FEE PAYERS, AND ARE THUS PROPORTIONAL TO THE BENEFITS RECEIVED BY FEE PAYERS.

(2) AS USED IN THIS SECTION:

(b) "INFLATION" MEANS THE AVERAGE ANNUAL PERCENTAGE CHANGE IN THE UNITED STATES DEPARTMENT OF TRANSPORTATION, FEDERAL HIGHWAY ADMINISTRATION, NATIONAL HIGHWAY CONSTRUCTION COST INDEX OR ITS APPLICABLE PREDECESSOR OR SUCCESSOR INDEX FOR THE FIVE-YEAR PERIOD ENDING ON THE LAST DECEMBER 31 BEFORE A STATE FISCAL YEAR FOR WHICH AN ADJUSTMENT TO THE ROAD USAGE FEE IMPOSED PURSUANT TO SUBSECTION (3) OR (4) OF THIS SECTION IS TO BE MADE BEGINS.

(c) "SPECIAL FUEL" MEANS SPECIAL FUEL, AS DEFINED IN SECTION 39-27-101 (29), THAT IS TAXED AT THE RATE SPECIFIED IN SECTION 39-27-102 (1)(a)(II)(B). "SPECIAL FUEL" DOES NOT INCLUDE DIESEL FUEL AND KEROSENE TO WHICH INDELIBLE DYE MEETING FEDERAL REGULATIONS IS ADDED BEFORE OR UPON REMOVAL FROM A TERMINAL SO LONG AS SUCH FUEL IS NOT USED FOR A TAXABLE PURPOSE AS DESCRIBED IN SECTION 39-27-102.5 (1.5).
(3) (a) Except as otherwise provided in subsection (6) of this section, on and after July 1, 2022, each distributor of gasoline that pays the excise tax imposed on gasoline shall also pay, at the same time and in the same manner as the excise tax, a road usage fee in the amount specified in subsection (3)(b)(I) of this section or annually calculated by the department of revenue as required by subsection (3)(b)(II) or (3)(b)(III) of this section.

(b) (I) The amount of the road usage fee for each gallon of gasoline acquired, sold, offered for sale, or used in this state during state fiscal years 2022-23 through 2031-32, is:

(A) Two cents per gallon for state fiscal year 2022-23;

(F) Seven cents per gallon for state fiscal year 2027-28; and

(G) Eight cents per gallon for state fiscal years 2028-29 through 2031-32.

(II) Except as otherwise provided in subsection (3)(b)(III) of this section, the amount of the road usage fee for each gallon of gasoline acquired, sold, offered for sale, or used in this state during state fiscal year 2032-33 or during any subsequent state fiscal year is the sum of:

(A) The nominal amount of eight cents on December 31, 2030, adjusted for inflation; and

(B) The difference between the nominal amount of twenty-two cents on December 31, 2030, adjusted for inflation, and the nominal amount of twenty-two cents on December 31, 2030.
(III) An adjustment for inflation shall be made pursuant to subsection (3)(b)(II) of this section only if the rate of inflation is positive and must be the lesser of the actual rate of inflation or five percent. The department of revenue shall calculate the inflation adjusted amount of the road usage fee for state fiscal year 2032-33 and shall publish the amount no later than April 15, 2032.

(4) (a) Except as otherwise provided in subsection (6) of this section, on and after July 1, 2022, each distributor of special fuel that pays the excise tax imposed on special fuel shall also pay, at the same time and in the same manner as the excise tax, a road usage fee in the amount specified in subsection (4)(b)(I) of this section or annually calculated by the department of revenue as required by subsection (4)(b)(II) of (4)(b)(III) of this section.

(b) (I) The amount of the road usage fee for each gallon of special fuel acquired, sold, offered for sale, or used in this state during state fiscal years 2022-23 through 2031-32 is:

(A) Two cents per gallon for state fiscal year 2022-23;

(F) Seven cents per gallon for state fiscal year 2027-28; and

(G) Eight cents per gallon for state fiscal years 2028-29 through 2031-32.

(II) Except as otherwise provided in subsection (4)(b)(III) of this section, the amount of the road usage fee for each gallon of special fuel acquired, sold, offered for sale, or used in this state during state fiscal year 2032-33 or during any subsequent state fiscal year is the sum of:
(A) THE NOMINAL AMOUNT OF EIGHT CENTS ON DECEMBER 31, 2030, ADJUSTED FOR INFLATION; AND

(B) THE DIFFERENCE BETWEEN THE NOMINAL AMOUNT OF TWENTY AND ONE-HALF CENTS ON DECEMBER 31, 2030, ADJUSTED FOR INFLATION, AND THE NOMINAL AMOUNT OF TWENTY AND ONE-HALF CENTS ON DECEMBER 31, 2030.

(III) AN ADJUSTMENT FOR INFLATION SHALL BE MADE PURSUANT TO SUBSECTION (4)(b)(II) OF THIS SECTION ONLY IF THE RATE OF INFLATION IS POSITIVE AND MUST BE THE LESSER OF THE ACTUAL RATE OF INFLATION OR FIVE PERCENT. THE DEPARTMENT OF REVENUE SHALL CALCULATE THE INFLATION ADJUSTED AMOUNT OF THE ROAD USAGE FEE FOR STATE FISCAL YEAR 2032-33 AND SHALL PUBLISH THE AMOUNT NO LATER THAN APRIL 15, 2032.

(5) EACH DISTRIBUTOR OF SPECIAL FUEL THAT PAYS THE EXCISE TAX IMPOSED ON SPECIAL FUEL SHALL ALSO PAY, AT THE SAME TIME AND IN THE SAME MANNER AS THE EXCISE TAX AND THE ROAD USAGE FEE IMPOSED PURSUANT TO SUBSECTIONS (3) AND (4) OF THIS SECTION, A BRIDGE AND TUNNEL IMPACT FEE IN THE AMOUNT IMPOSED BY THE STATEWIDE BRIDGE AND TUNNEL ENTERPRISE AS AUTHORIZED BY SECTION 43-4-805 (5)(g.5). THE COLLECTION AND ADMINISTRATION OF THE BRIDGE AND TUNNEL IMPACT FEE BY THE DEPARTMENT OF REVENUE ON BEHALF OF THE STATEWIDE BRIDGE AND TUNNEL ENTERPRISE IS DONE ON BEHALF OF THE ENTERPRISE FOR THE PURPOSE OF MINIMIZING COMPLIANCE COSTS FOR DISTRIBUTORS AND ADMINISTRATIVE COSTS FOR THE STATE, AND ALL BRIDGE AND TUNNEL IMPACT FEE REVENUE IS REVENUE OF THE ENTERPRISE ONLY AND IS EXCLUDED FROM STATE FISCAL YEAR SPENDING, AS DEFINED IN SECTION 24-77-102 (17).

(6) (a) A DISTRIBUTOR IS NOT REQUIRED TO PAY THE ROAD USAGE FEE IMPOSED BY SUBSECTION (3) OR (4) OF THIS SECTION OR THE BRIDGE AND TUNNEL IMPACT FEE IMPOSED AS AUTHORIZED BY SECTION 43-4-805 (5)(g.5), IF THE DISTRIBUTOR WOULD OTHERWISE BE LIABLE FOR THE EXCISE TAX ON THE GASOLINE OR SPECIAL FUEL SUBJECT TO THE FEE BUT IS ALLOWED TO SELL THE GASOLINE OR SPECIAL FUEL WITHOUT PAYMENT OF THE APPLICABLE EXCISE TAX PURSUANT TO SECTION 39-27-102 (1)(b)(II) OR SECTION 39-27-102.5 (2)(b).
(b) Gasoline or special fuel removed from a terminal in this state by a person licensed as an exporter pursuant to section 39-27-104 exclusively for delivery to another state is not subject to the road usage fee imposed by subsection (3) or (4) of this section or the bridge and tunnel impact fee imposed as authorized by section 43-4-805 (5)(g.5).

(c) The burden of proving that gasoline or special fuel is not subject to the road usage fee imposed by subsection (3) or (4) of this section or the bridge and tunnel impact fee imposed as authorized by section 43-4-805 (5)(g.5) is on the distributor under such reasonable requirements of proof as the executive director of the department of revenue may prescribe.

(7) The collection, administration, and enforcement of the road usage fees imposed by subsection (3) or (4) of this section, and the bridge and tunnel impact fee imposed as authorized by section 43-4-805 (5)(g.5) shall be performed by the executive director of the department of revenue in the same manner as the collection, administration, and enforcement of state gasoline and special fuel taxes pursuant to article 27 of title 39. A distributor who pays the road usage fee as required by subsection (3) or (4) of this section shall remit the fee, together with any bridge and tunnel impact fee that the distributor also pays as required by section 43-4-805 (5)(g.5) and subsection (5) of this section to the department of revenue at the same time and in the same manner in which the distributor remits gasoline or special fuel taxes collected by the distributor as required by article 27 of title 39. The department of revenue may promulgate rules to implement this section.

(8) In accordance with section 43-4-203 (1)(f), the state treasurer shall credit all road usage fee revenue collected as required by this section to the highway users tax fund created in section 43-4-201. In accordance with section 43-4-805 (5)(g.5), the state treasurer shall credit all bridge and tunnel impact fee revenue collected as required by this section to the statewide bridge and tunnel enterprise special revenue fund created in section 43-4-805 (3)(a). All fees credited to the highway users tax fund pursuant to this section shall be allocated from the highway
USERS TAX FUND TO THE STATE, COUNTIES, AND MUNICIPALITIES AS REQUIRED BY SECTION 43-4-205 (6.8).

43-4-218. Additional funding - retail delivery fee - fund created - simultaneous collection of enterprise fees - rules - legislative declaration - definitions. (1) The general assembly hereby finds and declares that:

(a) In recent years, the number of retail deliveries of tangible personal property, including restaurant food, has rapidly increased, and this rapid growth is expected to continue;

(b) The World Economic Forum estimates that by 2030 there will be over thirty percent more delivery vehicles on roads to deliver seventy-eight percent more packages, which will increase usage of the highways, roads, and streets of the state by motor vehicles used to make retail deliveries, traffic congestion, and retail-delivery-related emissions;

(c) This additional usage has accelerated and is expected to continue to accelerate deterioration of surface transportation system infrastructure, and has required and is expected to continue to require the state, counties, and municipalities to perform more maintenance and reconstruction of state highways, county roads, and city streets;

(d) This additional usage has also increased and is expected to continue to increase motor-vehicle-related emissions of air pollutants, including ozone precursors, particulate matter pollutants, other hazardous air pollutants, and greenhouse gases, that contribute to adverse environmental effects, including but not limited to climate change, and adverse human health effects;

(e) It is therefore necessary and appropriate:

(I) To impose a retail delivery fee as specified in this section and to credit the proceeds of the fee to the highway users tax fund created in section 43-4-201 for allocation to the state, counties, and municipalities and to the multimodal transportation
AND MITIGATION OPTIONS FUND CREATED IN SECTION 43-4-1103 (1)(a);

(II) To authorize the Community Access Enterprise created in section 24-38.5-303 (1) to impose a Community Access retail delivery fee as specified in section 24-38.5-303 (7), authorize the Clean Fleet Enterprise created in section 25-7.5-103 (1)(a) to impose a Clean Fleet retail delivery fee as specified in section 25-7.5-103 (8), authorize the Statewide Bridge and Tunnel Enterprise created in section 43-4-805 (2)(a)(I) to impose a Bridge and Tunnel retail delivery fee as specified in section 43-4-805 (5)(g.7), authorize the Clean Transit Enterprise created in section 43-4-1203 (1)(a) to impose a Clean Transit retail delivery fee as specified in section 43-4-1203 (7), and authorize the Nonattainment Area Air Pollution Mitigation Enterprise created in section 43-4-1303 (1)(a) to impose an Air Pollution Mitigation retail delivery fee as specified in section 43-1-1303 (8) to help fund the Enterprises' pursuit of their respective business purposes; and

(III) For the purpose of minimizing compliance costs for fee payers and administrative costs for the State, to require the Department of Revenue to collect the retail delivery fees imposed by the Enterprises on behalf of the Enterprises when it collects the retail delivery fee imposed by subsection (3) of this section and to distribute the Enterprise fee revenue to the Enterprises.

(2) As used in this section, unless the context otherwise requires:

(a) "Enterprise retail delivery fees" means:

(III) The Bridge and Tunnel retail delivery fee imposed by the Statewide Bridge and Tunnel Enterprise created in section
43-4-805 (2)(a)(I), as specified in section 43-4-805 (5)(g.7);

(IV) The clean transit retail delivery fee imposed by the clean transit enterprise created in section 43-4-1203 (1)(a) as specified in section 43-4-1203 (7); and

(V) The air pollution mitigation retail delivery fee imposed by the nonattainment area air pollution mitigation enterprise created in section 43-4-1303 (1)(a) as specified in section 43-4-1303 (8).

(b) "Inflation" means the average annual percentage change in the United States Department of Labor, Bureau of Labor Statistics, Consumer Price Index for Denver-Aurora-Lakewood for all items and all urban consumers, or its applicable predecessor or successor index, for the five years ending on the last December 31 before the calendar year in which a State fiscal year for which an inflation adjustment to the retail delivery fee imposed by subsection (3) of this section is to be made begins.

(c) "Motor vehicle" has the same meaning as set forth in section 42-1-102 (58). The term does not include a personal delivery device.

(d) "Personal delivery device" means an autonomously operated robot that is:

(I) Designed and manufactured for the purpose of transporting tangible personal property primarily on sidewalks, crosswalks, and other public rights-of-way that are typically used by pedestrians;

(II) Weighs no more than five hundred fifty pounds, excluding any tangible personal property being transported; and

(III) Operates at speeds of less than ten miles per hour when on sidewalks, crosswalks, and other public rights-of-way that are typically used by pedestrians.

(e) "Retail delivery" means a retail sale of tangible
PERSONAL PROPERTY BY A RETAILER FOR DELIVERY BY A MOTOR VEHICLE OWNED OR OPERATED BY THE RETAILER OR ANY OTHER PERSON TO THE PURCHASER AT A LOCATION IN THIS STATE, WHICH SALE INCLUDES AT LEAST ONE ITEM OF TANGIBLE PERSONAL PROPERTY THAT IS SUBJECT TO TAXATION UNDER ARTICLE 26 OF TITLE 39. EACH SUCH RETAIL SALE IS A SINGLE RETAIL DELIVERY REGARDLESS OF THE NUMBER OF SHIPMENTS NECESSARY TO DELIVER THE ITEMS OF TANGIBLE PERSONAL PROPERTY PURCHASED.

(f) "RETAILER" HAS THE SAME MEANING AS SET FORTH IN SECTION 39-26-102 (8).

(g) "RETAIL SALE" HAS THE SAME MEANING AS SET FORTH IN SECTION 39-26-102 (9).

(h) "TANGIBLE PERSONAL PROPERTY" HAS THE SAME MEANING AS SET FORTH IN SECTION 39-26-102 (15).

(3) (a) FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING STATE FISCAL YEAR 2022-23, EACH RETAILER WHO MAKES A RETAIL DELIVERY SHALL ADD TO THE PRICE OF THE RETAIL DELIVERY, COLLECT FROM THE PURCHASER, AND PAY TO THE DEPARTMENT OF REVENUE AT THE TIME AND IN THE MANNER PRESCRIBED BY THE DEPARTMENT IN ACCORDANCE WITH SUBSECTION (6) OF THIS SECTION A RETAIL DELIVERY FEE IN THE AMOUNT OF EIGHT AND FOUR-TENTHS CENTS.

(b) (I) EXCEPT AS OTHERWISE PROVIDED IN SUBSECTION (3)(c) OF THIS SECTION, FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING STATE FISCAL YEAR 2023-24 OR DURING ANY SUBSEQUENT STATE FISCAL YEAR, EACH RETAILER WHO MAKES A RETAIL DELIVERY SHALL ADD TO THE PRICE OF THE RETAIL DELIVERY, COLLECT FROM THE PURCHASER, AND PAY TO THE DEPARTMENT OF REVENUE AT THE TIME AND IN THE MANNER PRESCRIBED BY THE DEPARTMENT IN ACCORDANCE WITH SUBSECTION (6) OF THIS SECTION A RETAIL DELIVERY FEE EQUAL TO THE AMOUNT OF THE RETAIL DELIVERY FEE FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING THE PRIOR STATE FISCAL YEAR ADJUSTED FOR INFLATION. THE DEPARTMENT OF REVENUE SHALL ANNUALLY CALCULATE THE INFLATION ADJUSTED AMOUNT OF THE RETAIL DELIVERY FEE TO BE IMPOSED ON RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING EACH STATE FISCAL YEAR AND SHALL PUBLISH THE AMOUNT NO LATER THAN APRIL 15 OF THE
CALENDAR YEAR IN WHICH THE STATE FISCAL YEAR BEGINS.

(II) The department of revenue shall adjust the amount of the retail delivery fee for retail deliveries of tangible personal property purchased during a state fiscal year only if inflation is positive and cumulative inflation from the time of the last adjustment in the amount of the retail delivery fee, when applied to the sum of the current retail delivery fee and all current enterprise retail delivery fees and rounded to the nearest whole cent, will result in an increase of at least one whole cent in the total amount of the retail delivery fee and all enterprise retail delivery fees imposed on each retail delivery. The amount of cumulative inflation to be applied to the sum of the current retail delivery fee and all current enterprise retail delivery fees and rounded to the nearest whole cent is the lesser of actual cumulative inflation or five percent.

(c) A retail delivery that includes only tangible personal property, the sale of which is exempt from state sales tax under article 26 of title 39, is exempt from the retail delivery fee and from the enterprise retail delivery fees. A retail delivery made to a purchaser who is exempt from paying state sales tax under article 26 of title 39 is exempt from the retail delivery fee and from the enterprise retail delivery fees.

(4) (a) For the purpose of minimizing compliance costs for retailers and administrative costs for the state, the department of revenue shall, when it collects the retail delivery fee imposed by subsection (3) of this section, also collect on behalf of the community access enterprise created in section 24-38.5-303 (1), the clean fleet enterprise created in section 25-7.5-103 (1)(a), the statewide bridge and tunnel enterprise created in section 43-4-805 (2)(a)(I), the clean transit enterprise created in section 43-1-1203 (1)(a), and the nonattainment area air pollution mitigation enterprise created in section 43-4-1303 (1)(a), the enterprise retail delivery fees.

(b) When collecting the retail delivery fee and, in accordance with subsection (4)(a) of this section, the enterprise retail delivery fees, the department of revenue shall retain an
AMOUNT THAT DOES NOT EXCEED THE TOTAL COST OF COLLECTING, ADMINISTERING, AND ENFORCING THE RETAIL DELIVERY FEE AND THE ENTERPRISE RETAIL DELIVERY FEES AND SHALL TRANSMIT THE AMOUNT RETAINED TO THE STATE TREASURER, WHO SHALL CREDIT IT TO THE RETAIL DELIVERY FEES FUND, WHICH IS HEREBY CREATED IN THE STATE TREASURY. ALL MONEY IN THE RETAIL DELIVERY FEES FUND IS CONTINUOUSLY APPROPRIATED TO THE DEPARTMENT OF REVENUE TO DEFRAY THE COSTS INCURRED BY THE DEPARTMENT IN COLLECTING, ENFORCING, AND ADMINISTERING THE RETAIL DELIVERY FEE AND THE ENTERPRISE RETAIL DELIVERY FEES.

(5) (a) THE DEPARTMENT OF REVENUE SHALL TRANSMIT ALL NET REVENUE COLLECTED FROM THE RETAIL DELIVERY FEE IMPOSED BY SUBSECTION (3) OF THIS SECTION TO THE STATE TREASURER, WHO SHALL CREDIT THE NET REVENUE AS FOLLOWS:

(I) SEVENTY-ONE AND ONE-TENTH PERCENT SHALL BE CREDITED TO THE HIGHWAY USERS TAX FUND CREATED IN SECTION 43-4-201 AND ALLOCATED FROM THE HIGHWAY USERS TAX FUND TO THE STATE, COUNTIES, AND MUNICIPALITIES AS REQUIRED BY SECTION 43-4-205 (6.8); AND

(II) TWENTY-EIGHT AND NINE-TENTHS PERCENT SHALL BE CREDITED TO THE MULTIMODAL TRANSPORTATION AND MITIGATION OPTIONS FUND CREATED IN SECTION 43-4-1103 (1)(a);

(IV) All net clean transit retail delivery fee revenue shall be credited to the clean transit enterprise fund created in section 43-4-1203 (5); and

(V) All net air pollution mitigation retail delivery fee revenue shall be credited to the nonattainment area air pollution mitigation enterprise fund created in section 43-4-1303 (5).

(6) (a) Except to the extent otherwise authorized or required by the department of revenue pursuant to subsection (6)(c) of this section with respect to the timing of the remittance of fees to the department, the collection, administration, and enforcement of the retail delivery fee imposed by subsection (3) of this section and the enterprise retail delivery fees shall be performed by the executive director of the department of revenue in the same manner as the collection, administration, and enforcement of state sales tax pursuant to article 26 of title 39.

(b) Every retailer who makes a retail delivery shall add the retail delivery fee imposed by subsection (3) of this section and the enterprise retail delivery fees to the price or charge for the retail delivery showing the total of the fees as one item called "retail delivery fees" that is separate and distinct from the price and any other taxes or fees imposed on the retail delivery. When added, the fees constitute a part of the retail delivery price or charge, are a debt from the purchaser to the retailer until paid, and are recoverable at law in the same manner as other debts.

(c) Every retailer who makes a retail delivery is liable and responsible for the payment of an amount equivalent to the total amount of the retail delivery fee imposed by subsection (3) of this section and the enterprise retail delivery fees for each retail delivery made irrespective of the requirements of subsection (6)(b) of this section. The burden of proving that a retailer is exempt from collecting the fees on any retail delivery and paying the fees to the executive director of the department of revenue is on the retailer under such reasonable requirements of proof as the executive director may prescribe. The retailer is entitled, as collecting agent for the state, to apply and credit the amount of the retailer's collections against the amount to be paid pursuant
TO THIS SUBSECTION (6)(c).

(d) A RETAILER WHO COLLECTS THE RETAIL DELIVERY FEE IMPOSED BY SUBSECTION (3) OF THIS SECTION AND THE ENTERPRISE RETAIL DELIVERY FEES SHALL REMIT THE FEES TO THE DEPARTMENT OF REVENUE AT THE SAME TIME AND IN THE SAME MANNER AS THE RETAILER REMITS SALES TAX REVENUE COLLECTED TO THE DEPARTMENT AS REQUIRED BY ARTICLE 26 OF TITLE 39 UNLESS THE DEPARTMENT Requires OR AUTHORIZES THE FEES TO BE REMITTED AT ANOTHER TIME OR IN ANOTHER MANNER.

(7) THE DEPARTMENT OF REVENUE MAY PROMULGATE RULES TO IMPLEMENT THIS SECTION.

(b) (1) (A) Except as otherwise provided in subparagraph (III) of this paragraph, a daily vehicle rental fee is imposed on all short-term vehicle rentals at the rate of two dollars per day; except that a subsequent renewal of a short-term vehicle rental is exempt from the fee to the extent that the renewal extends the total rental period beyond thirty days. The rental invoice shall list the daily vehicle rental fee separately as a Colorado road safety program fee. On and after July 1, 2022, a car sharing program, as defined in section 6-1-1202 (4), shall collect the daily vehicle rental fee for any short-term vehicle rental of twenty-four hours or longer that is enabled by the car sharing program.

(B) As used in this section, "short-term vehicle rental" means the rental of any motor vehicle, as defined in section 42-1-102 (58), C.R.S., with a gross vehicle weight rating of twenty-six thousand pounds or less that is rented within Colorado for a period of not more than thirty days.

(IV) (A) For short-term vehicle rentals beginning during state fiscal year 2022-23 and for short-term vehicle rental periods beginning during any subsequent state fiscal year, the department of revenue shall annually adjust the amount of the daily vehicle rental fee for inflation. The department of revenue shall calculate the inflation adjusted amount of the short-term vehicle rental fee for each state fiscal year and shall publish the amount no later than the May 1 of the calendar year in which the state fiscal year begins.

(B) As used in this subsection (1)(b)(IV), "inflation" means the average annual percentage change in the United States department of labor, bureau of labor statistics, consumer price index for Denver-Aurora-Lakewood for all items and all urban consumers, or its applicable predecessor or successor index, for the five years ending on the last December 31 before a state fiscal year for which an inflation adjustment to the short-term vehicle rental fee is to be made begins.
SECTION 48. In Colorado Revised Statutes, 43-4-805, amend (1), (2)(a)(I), (2)(b) introductory portion, (2)(b)(I), (2)(c), (3)(a), (3)(c), (4), (5)(c), (5)(k), (5)(r)(I), and (5)(r)(III)(A); and add (5)(g.5) and (5)(g.7) as follows:

43-4-805. Statewide bridge enterprise - creation - board - funds - powers and duties - legislative declaration - definition. (1) The general assembly hereby finds and declares that:

(a) The completion of designated bridge projects AND TUNNEL PROJECTS is essential to address increasing traffic congestion and delays, hazards, injuries, and fatalities;

(b) Due to the limited availability of state and federal funding and the need to accomplish the financing, repair, reconstruction, and replacement of designated bridges AND TUNNEL PROJECTS as promptly and efficiently as possible, it is necessary to create a statewide bridge AND TUNNEL enterprise and to authorize the enterprise to:

(I) Enter into agreements with the commission or the department to finance, repair, reconstruct, and replace designated bridges AND COMPLETE TUNNEL PROJECTS in the state; and

(II) Impose a bridge safety surcharge, A BRIDGE AND TUNNEL IMPACT FEE, AND A BRIDGE AND TUNNEL RETAIL DELIVERY FEE at rates reasonably calculated to defray the costs of completing designated bridge projects AND TUNNEL PROJECTS and distribute the burden of defraying the costs in a manner based on the benefits received by persons paying the fees and using designated bridges AND TUNNELS AND RECEIVING RETAIL DELIVERIES, receive and expend revenues generated by the surcharge and fees and other moneys, issue revenue bonds and other obligations, contract with the state, if required approvals are obtained, to receive one or more loans of moneys received by the state under the terms of one or more lease-purchase agreements authorized by this part 8, expend revenues generated by the surcharge to repay any such loan or loans received, and exercise other powers necessary and appropriate to carry out its purposes; and

(c) The creation of a statewide bridge AND TUNNEL enterprise is in the public interest and will promote the health, safety, and welfare of all...
Coloradans and visitors to the state by providing bridges and repairing, maintaining, and operating tunnels in a manner that incorporate the benefits of advanced engineering design, experience, and safety.

(2) (a) (I) The scope of the existing statewide bridge enterprise is hereby created in this subsection (2)(a)(I) in 2009 is hereby expanded to include both designated bridge projects and surface transportation infrastructure projects for tunnels, and the name of the expanded enterprise is the statewide bridge and tunnel enterprise. The bridge enterprise shall be and shall operate as a government-owned business within the department. The commission shall serve as the bridge enterprise board and shall, with the consent of the executive director, appoint a bridge enterprise director who shall possess such qualifications as may be established by the commission and the state personnel board. The bridge enterprise director shall oversee the discharge of all responsibilities of the bridge enterprise and shall serve at the pleasure of the bridge enterprise board.

(b) The business purpose of the bridge enterprise is to finance, repair, reconstruct, and replace any designated bridge in the state and complete tunnel projects and, as agreed upon by the enterprise and the commission, or the department to the extent authorized by the commission, to maintain the bridges it finances, repairs, reconstructs, and replaces. To allow the bridge enterprise to accomplish this purpose and fully exercise its powers and duties through the bridge enterprise board, the bridge enterprise may:

(I) Impose a bridge safety surcharge, a bridge and tunnel impact fee, and a bridge and tunnel retail delivery fee as authorized in paragraph (g) of subsection (5) by subsections (5)(g), (5)(g.5), and (5)(g.7) of this section;

(c) The bridge enterprise shall constitute an enterprise for purposes of section 20 of article X of the state constitution so long as it retains the authority to issue revenue bonds and receives less than ten percent of its total revenues in grants from all Colorado state and local governments combined. So long as it constitutes an enterprise pursuant to this paragraph (c) subsection (2)(c), the bridge enterprise shall not be subject to any provisions of section 20 of article X of the state constitution. Consistent
with the determination of the Colorado supreme court in *Nicholl v. E-470 Public Highway Authority*, 896 P.2d 859 (Colo. 1995), that the power to impose taxes is inconsistent with "enterprise" status under section 20 of article X of the state constitution, the general assembly finds and declares that a bridge safety surcharge, a *BRIDGE AND TUNNEL IMPACT FEE*, or a *BRIDGE AND TUNNEL RETAIL DELIVERY FEE* imposed by the bridge enterprise pursuant to paragraph (g) of subsection (5) of this section is not a tax but is instead a fee imposed by the bridge enterprise to defray the cost of completing designated bridge projects and tunnel projects that the enterprise provides as a specific service to the persons upon whom the fee is imposed and at rates reasonably calculated based on the benefits received by such persons.

(3) (a) The statewide bridge and tunnel enterprise special revenue fund, referred to in this part 8 as the "bridge special fund", is hereby created in the state treasury. All revenues received by the bridge enterprise, including, but not limited to, any revenues from a bridge safety surcharge collected pursuant to paragraph (g) of subsection (5) of this section, revenue from a bridge and tunnel impact fee imposed as authorized by subsection (5)(g.5) of this section, revenue from a bridge and tunnel retail delivery fee imposed as authorized by subsection (5)(g.7) of this section, and any moneys loaned to the enterprise by the state pursuant to paragraph (r) of subsection (5) of this section, shall be deposited into the bridge special fund. The bridge enterprise board may establish separate accounts within the bridge special fund as needed in connection with any specific designated bridge project or tunnel project. The bridge enterprise also may deposit or permit others to deposit other moneys into the bridge special fund, but in no event may revenues from any tax otherwise available for general purposes be deposited into the bridge special fund. The state treasurer, after consulting with the bridge enterprise board, shall invest any moneys in the bridge special fund, including any surplus or reserves, but excluding any proceeds from the sale of bonds or earnings on such proceeds invested pursuant to section 43-4-807 (2), that are not needed for immediate use. Such moneys may be invested in the types of investments authorized in sections 24-36-109, 24-36-112, and 24-36-113. R:S:

(c) The bridge enterprise may expend moneys in the bridge special fund to pay bond or loan obligations, to fund the administration,
planning, financing, repair, reconstruction, replacement, or maintenance of designated bridges AND THE COMPLETION OF TUNNEL PROJECTS, and for the acquisition of land to the extent required in connection with any designated bridge project. The bridge enterprise may also expend money in the bridge special fund to pay its operating costs and expenses. The bridge enterprise board shall have exclusive authority to budget and approve the expenditure of money in the bridge special fund.

(4) The commission may transfer money from the state highway fund created in section 43-1-219 to the bridge enterprise for the purpose of defraying expenses incurred by the enterprise prior to the receipt of bond proceeds or revenues by the enterprise. The bridge enterprise may accept and expend any money so transferred, and, notwithstanding any state fiscal rule or generally accepted accounting principle that could otherwise be interpreted to require a contrary conclusion, such a transfer shall constitute a loan from the commission to the bridge enterprise and shall not be considered a grant for purposes of section 20 (2)(d) of article X of the state constitution. As the bridge enterprise receives sufficient revenues in excess of expenses, the enterprise shall reimburse the state highway fund for the principal amount of any loan from the state highway fund made by the commission plus interest at a rate set by the commission. Any money loaned from the state highway fund to the bridge enterprise pursuant to this section shall be deposited into a fund to be known as the statewide bridge AND TUNNEL enterprise operating fund, which fund is hereby created, and shall not be deposited into the bridge special fund. Money from the bridge special fund may, however, be used to reimburse the state highway fund for the amount of any loan from the state highway fund or any interest thereon.

(5) In addition to any other powers and duties specified in this section, the bridge enterprise board has the following powers and duties:

c) To issue revenue bonds, payable solely from the bridge special fund, for the purpose of paying the cost of financing, repairing, reconstructing, replacing, and maintaining designated bridges AND COMPLETING TUNNEL PROJECTS;

(g.5) (I) IN FURTHERANCE OF ITS BUSINESS PURPOSE, TO IMPOSE A BRIDGE AND TUNNEL IMPACT FEE TO BE PAID IN THE AMOUNT IMPOSED BY THE BRIDGE ENTERPRISE AS AUTHORIZED BY SUBSECTION (5)(g.5)(II) OR
(III) For each gallon of special fuel acquired, sold, offered for sale, or used in this state during state fiscal years 2032-33 or during any subsequent state fiscal year, the bridge enterprise shall impose the bridge and tunnel impact fee in an amount of up to the maximum amount of the fee for the prior state fiscal year adjusted for inflation. The bridge enterprise shall notify the department of revenue of the amount of the bridge and tunnel impact fee to be collected for each state fiscal year no later than
MARCH 15 OF THE CALENDAR YEAR IN WHICH THE STATE FISCAL YEAR BEGINS, AND THE DEPARTMENT OF REVENUE SHALL PUBLISH THE AMOUNT NO LATER THAN APRIL 15 OF THE CALENDAR YEAR IN WHICH THE STATE FISCAL YEAR BEGINS.

(II) FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING STATE FISCAL YEAR 2022-23, THE BRIDGE ENTERPRISE SHALL IMPOSE THE BRIDGE AND TUNNEL RETAIL DELIVERY FEE IN A MAXIMUM AMOUNT OF TWO AND SEVEN-TENTHS CENTS.

(III) (A) EXCEPT AS OTHERWISE PROVIDED IN SUBSECTION (5)(g.7)(III)(B) OF THIS SECTION, FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING STATE FISCAL YEAR 2023-24 OR DURING ANY SUBSEQUENT STATE FISCAL YEAR, THE BRIDGE ENTERPRISE SHALL IMPOSE THE BRIDGE AND TUNNEL RETAIL DELIVERY FEE IN A MAXIMUM AMOUNT THAT IS THE MAXIMUM AMOUNT FOR THE PRIOR STATE

(B) THE BRIDGE ENTERPRISE IS AUTHORIZED TO ADJUST THE AMOUNT OF THE BRIDGE AND TUNNEL RETAIL DELIVERY FEE FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING A STATE FISCAL YEAR ONLY IF THE DEPARTMENT OF REVENUE ADJUSTS THE AMOUNT OF THE RETAIL DELIVERY FEE IMPOSED BY SECTION 43-4-218 (3) FOR RETAIL DELIVERIES OF TANGIBLE PERSONAL PROPERTY PURCHASED DURING THE STATE FISCAL YEAR.

(IV) AS USED IN THIS SUBSECTION (5)(g.7):

(A) "INFLATION" MEANS THE AVERAGE ANNUAL PERCENTAGE CHANGE IN THE UNITED STATES DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS, CONSUMER PRICE INDEX FOR DENVER-AURORA-LAKEWOOD FOR ALL ITEMS AND ALL URBAN CONSUMERS, OR ITS APPLICABLE PREDECESSOR OR SUCCESSOR INDEX, FOR THE FIVE YEARS ENDING ON THE LAST DECEMBER 31 BEFORE A STATE FISCAL YEAR FOR WHICH AN INFLATION ADJUSTMENT TO BE MADE TO THE BRIDGE AND TUNNEL RETAIL DELIVERY FEE IMPOSED PURSUANT TO THIS SUBSECTION (5)(g.7) BEGINS.

(B) "RETAIL DELIVERY" MEANS A RETAIL SALE OF TANGIBLE PERSONAL PROPERTY BY A RETAILER FOR DELIVERY BY A MOTOR VEHICLE OWNED OR OPERATED BY THE RETAILER OR ANY OTHER PERSON TO THE PURCHASER AT A LOCATION IN THE STATE, WHICH SALE INCLUDES AT LEAST ONE ITEM OF TANGIBLE PERSONAL PROPERTY THAT IS SUBJECT TO TAXATION UNDER ARTICLE 26 OF TITLE 39. EACH SUCH RETAIL SALE IS A SINGLE RETAIL DELIVERY REGARDLESS OF THE NUMBER OF SHIPMENTS NECESSARY TO DELIVER THE ITEMS OF TANGIBLE PERSONAL PROPERTY PURCHASED.

(k) To prepare, or cause to be prepared, detailed plans, specifications, or estimates for any designated bridge project OR TUNNEL PROJECT within the state;

PAGE 121-SENATE BILL 21-260

SECTION 52. In Colorado Revised Statutes, add parts 12 and 13 to article 4 of title 43 as follows:

PART 12
CLEAN TRANSIT

43-4-1201. Legislative declaration. (1) The General Assembly hereby finds and declares that:

(a) Retail deliveries are increasing and are expected to continue to increase in communities across the state;

(b) The motor vehicles used to make retail deliveries are some of the most polluting vehicles on the road, which has resulted in additional and increasing air and greenhouse gas pollution;

(c) The adverse environmental and health impacts of increased emissions from motor vehicles used to make retail deliveries can be mitigated and offset by supporting the widespread adoption of electric buses for transit fleets and reducing vehicle miles traveled by encouraging people to choose clean, efficient, public transit options instead of personal motor vehicle travel;

(d) Instead of reducing the impacts of retail deliveries by limiting retail delivery activity through regulation, it is more appropriate to continue to allow persons who receive retail deliveries to benefit from the convenience afforded by unfettered retail deliveries and instead impose a small fee on each retail delivery.
DELIVERY AND USE FEE REVENUE TO FUND NECESSARY MITIGATION ACTIVITIES;

(e) It is necessary, appropriate, and in the best interest of the state and all Coloradans to incentivize, support, and accelerate the electrification of public transit in rural and urban areas throughout the state because electrification:

(I) reduces emissions of air pollutants, including hazardous air pollutants and greenhouse gases, that contribute to adverse environmental effects, including but not limited to climate change, and adverse human health effects in and between communities, including communities near high-use transit corridors and disproportionately impacted communities, and helps the state meet its statutory greenhouse gas pollution reduction targets and comply with air quality attainment standards; and

(II) by reducing fuel and maintenance costs associated with the use of motor vehicles, helps public transit providers operate more efficiently, use cost savings to provide more reliable and convenient transit service to more riders, and further reduce emissions by reducing personal motor vehicle use; and

(f) by reducing motor vehicle emissions, transit fleet electrification effectively remedies some of the impacts of retail deliveries by offsetting a portion of the increased motor vehicle emissions resulting from such deliveries.

(2) The General Assembly further finds and declares that:

(a) in order to incentivize, support, and accelerate the electrification of public transit and thereby reap the environmental, health, business, and operational efficiency benefits of electrification, it is necessary, appropriate, and in the best interest of the state to create a clean transit enterprise that can provide specialized remediation and other services that help public transit providers fund both the construction of the charging infrastructure needed to support electrification and the acquisition of electric motor vehicles;
(b) The specific focus of the enterprise is the equitable reduction and mitigation of the adverse environmental and health impacts of air pollution and greenhouse gas emissions through incentivization, support, and acceleration of the electrification of public transit in rural and urban areas throughout the state;

(c) The enterprise provides impact remediation services when, in exchange for the payment of clean transit retail delivery fees by purchasers of tangible personal property for retail delivery, it acts to mitigate the impacts of residential and commercial deliveries on the state's transportation infrastructure, air quality, and emissions by:

(I) Making grants or loans or providing rebates to fund the acquisition of clean, quiet, and cost-efficient electric motor vehicles for use in transit fleets and the construction of charging infrastructure that supports the use of such electric motor vehicles for public transit and thereby:

(A) Improving transportation options for fee payers and the general public, making transit more attractive to new or infrequent users, and reducing personal motor vehicle emissions; and

(B) By making transit more attractive, reducing traffic congestion, which allows more timely and efficient retail deliveries, further reduces emissions of air pollutants and greenhouse gas pollutants from motor vehicles, and reduces and mitigates the adverse environmental and health impacts of such emissions;

(II) Contributing in a unique and targeted way to the implementation of the comprehensive regulatory scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system; and

(III) Providing additional remediation services to offset impacts caused by fee payers as may be provided by law;
(d) By providing remediation services as authorized by this section, the Clean Transit Enterprise engages in an activity conducted in the pursuit of a benefit, gain, or livelihood and therefore operates as a business in accordance with the determination of the Colorado supreme court in *Colorado Union of Taxpayers Foundation v. City of Aspen*, 2018 CO 36;

(e) Consistent with the determination of the Colorado supreme court in *Nicholl v. E-470 Public Highway Authority*, 896 P.2d 859 (Colo. 1995), that the power to impose taxes is inconsistent with enterprise status under section 20 of article X of the state constitution, it is the conclusion of the General Assembly that the revenue collected by the Enterprise is generated by fees, not taxes, because the Clean Transit Retail Delivery Fee imposed by the Enterprise as authorized by section 43-4-1203 (7) is:

(I) Imposed for the specific purpose of allowing the Enterprise to defray the costs of providing the remediation services specified in this section, including mitigating impacts to air quality and greenhouse gas emissions caused by the activities on which the Fee is assessed, and contributes to the implementation of the comprehensive regulatory scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system specified in this section; and

(II) Collected at rates that are reasonably calculated based on the impacts caused by Fee payers and the cost of remediating those impacts; and

(f) So long as the Enterprise qualifies as an enterprise for purposes of section 20 of article X of the state constitution, the revenue from the Clean Transit Retail Delivery Fee collected by the Enterprise is not state fiscal year spending, as defined in section 24-77-102 (17), or state revenues, as defined in section 24-77-103.6 (6)(c), and does not count against either the state fiscal year spending limit imposed by section 20 of article X of the state constitution or the excess state revenues cap, as defined in section 24-77-103.6 (6)(b)(I)(D).
43-4-1202. Definitions. As used in this Part 12, unless the context otherwise requires:

(c) Members of the board serve without compensation but must be reimbursed from money in the fund for actual and necessary expenses incurred in the performance of their duties pursuant to this part 12.

(3) The primary business purpose of the enterprise is to reduce and mitigate the adverse environmental and health impacts of air pollution and greenhouse gas emissions produced by motor vehicles used to make retail deliveries by supporting the replacement of existing gasoline and diesel transit vehicles with electric motor vehicles, including motor vehicles that originally were powered exclusively by internal combustion engines but have been converted into electric motor vehicles, providing the associated charging infrastructure for electric transit fleet motor vehicles, supporting facility modifications that allow for the safe operation and maintenance of electric transit motor vehicles, and funding planning studies that enable transit agencies to plan for transit vehicle electrification. To allow the enterprise to accomplish this business purpose and fully exercise its powers and duties through the board, the enterprise may:

The Clean Transit Enterprise Initial Expenses Fund is continuously appropriated to the enterprise for the purpose of defraying expenses incurred by the enterprise before it receives fee revenue or revenue bond proceeds. As the enterprise receives sufficient revenue in excess of expenses, the enterprise shall reimburse the State Highway Fund for the principal amount of any loan made by the Commission plus interest at a rate set by the Commission.

Each retailer who makes a retail delivery shall add to the price of the retail delivery, collect from the purchaser, and pay to the department of revenue at the time and in the manner prescribed by the department in accordance with section 43-4-218 (6) the clean transit retail delivery fee. For the purpose of minimizing compliance costs for retailers and administrative costs for the state, the department of revenue shall collect and administer the clean transit retail delivery fee on behalf of the enterprise in the same manner in which it collects and administers the retail delivery fee imposed by section 43-4-218 (3).

(b) For retail deliveries of tangible personal property purchased during state fiscal year 2022-23, the enterprise shall impose the clean transit retail delivery fee in a maximum amount of three cents.

PART 13
NONATTAINMENT AREA AIR POLLUTIION
MITIGATION ENTERPRISE

43-4-1301. Legislative declaration. (1) THE GENERAL ASSEMBLY HEREBY FINDS AND DECLARES THAT:

(a) RAPID AND CONTINUING GROWTH IN RETAIL DELIVERIES MADE BY MOTOR VEHICLES AND IN PREARRANGED RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES HAS INCREASED AND WILL CONTINUE TO INCREASE TRAFFIC CONGESTION AND AIR POLLUTION FROM MOTOR VEHICLE EMISSIONS, ALONG WITH THE ADVERSE ENVIRONMENTAL AND HEALTH IMPACTS THAT RESULT FROM SUCH POLLUTION, IN
NONATTAINMENT AREAS, INCLUDING BUT NOT LIMITED TO DISPROPORTIONATELY IMPACTED COMMUNITIES AND COMMUNITIES ADJACENT TO HIGHWAYS;

(b) IT IS NECESSARY AND APPROPRIATE TO OFFSET AND MITIGATE THESE IMPACTS BY CREATING A NONATTAINMENT AREA AIR POLLUTION MITIGATION ENTERPRISE THAT HAS THE BUSINESS PURPOSE OF PROVIDING FUNDING FOR ELIGIBLE PROJECTS THAT REDUCE TRAFFIC CONGESTION, INCLUDING DEMAND MANAGEMENT PROJECTS THAT ENCOURAGE ALTERNATIVES TO DRIVING ALONE, AND THEREBY REDUCE TRAVEL DELAYS, ENGINE IDLE TIME, AND UNPRODUCTIVE FUEL CONSUMPTION OR THAT DIRECTLY REDUCE EMISSIONS BY MEANS SUCH AS RETROFITTING OF CONSTRUCTION EQUIPMENT;

(c) INSTEAD OF REDUCING THE IMPACTS OF RETAIL DELIVERIES AND PREARRANGED RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES, BY LIMITING RETAIL DELIVERY AND PREARRANGED RIDE ACTIVITY THROUGH REGULATION, IT IS MORE APPROPRIATE TO CONTINUE TO ALLOW PERSONS WHO RECEIVE RETAIL DELIVERIES AND BENEFIT FROM THE CONVENIENCE AFFORDED BY UNFETTERED RETAIL DELIVERIES AND TO ALLOW TRANSPORTATION NETWORK COMPANIES THAT ARRANGE PREARRANGED RIDES TO CONTINUE TO PROVIDE THAT SERVICE WITHOUT UNDUE RESTRICTIONS AND TO INSTEAD IMPOSE A SMALL FEE ON EACH RETAIL DELIVERY AND PREARRANGED RIDE AND USE FEE REVENUE TO FUND NECESSARY MITIGATION ACTIVITIES.

(2) THE GENERAL ASSEMBLY FURTHER FINDS AND DECLARES THAT:

(a) THE ENTERPRISE PROVIDES IMPACT REMEDIATION SERVICES WHEN, IN EXCHANGE FOR THE PAYMENT OF AIR POLLUTION MITIGATION PER RIDE FEES BY TRANSPORTATION NETWORK COMPANIES AND AIR POLLUTION MITIGATION RETAIL DELIVERY FEES BY PURCHASERS OF TANGIBLE PERSONAL PROPERTY FOR RETAIL DELIVERY, IT ACTS AS AUTHORIZED BY THIS SECTION TO MITIGATE THE IMPACTS OF PREARRANGED RIDES ARRANGED THROUGH TRANSPORTATION NETWORK COMPANIES AND RESIDENTIAL AND COMMERCIAL DELIVERIES ON THE STATE'S TRANSPORTATION INFRASTRUCTURE, AIR QUALITY, AND EMISSIONS;

(b) BY PROVIDING IMPACT REMEDIATION SERVICES AS AUTHORIZED BY THIS SECTION, THE NONATTAINMENT AREA AIR POLLUTION MITIGATION
ENTERPRISE PROVIDES A BENEFIT TO FEE PAYERS WHEN IT REMEDIATES THE IMPACTS THEY CAUSE AND THEREFORE OPERATES AS A BUSINESS IN ACCORDANCE WITH THE DETERMINATION OF THE COLORADO SUPREME COURT IN COLORADO UNION OF TAXPAYERS FOUNDATION V. CITY OF ASPEN, 2018 CO 36;

(c) Consistent with the determination of the Colorado supreme court in Nicholl v. E-470 Public Highway Authority, 896 P.2d 859 (Colo. 1995), that the power to impose taxes is inconsistent with enterprise status under section 20 of article X of the state constitution, it is the conclusion of the general assembly that the revenue collected by the enterprise is generated by fees, not taxes, because the air pollution mitigation per ride fee and the air pollution mitigation retail delivery fee imposed by the enterprise as authorized by subsections (7) and (8) of this section are:

(I) Imposed for the specific purpose of allowing the enterprise to defray the costs of providing the remediation services specified in this section, including mitigating impacts to air quality and greenhouse gas emissions caused by the activities on which the fees are assessed, and contribute to the implementation of the comprehensive regulatory scheme required for the planning, funding, development, construction, maintenance, and supervision of a sustainable transportation system; and

(II) Collected at rates that are reasonably calculated based on the impacts caused by fee payers and the cost of remediating those impacts; and

(d) So long as the enterprise qualifies as an enterprise for purposes of section 20 of article X of the state constitution, the revenue from the community access retail delivery fee collected by the enterprise is not state fiscal year spending, as defined in section 24-77-102 (17), or state revenues, as defined in section 24-77-103.6 (6)(c), and does not count against either the state fiscal year spending limit imposed by section 20 of article X of the state constitution or the excess state revenues cap, as defined in section 24-77-103.6 (6)(b)(I)(D).

Dear Stakeholder:

You have been identified as a stakeholder with interests and experience relevant to the Clean Transit Enterprise (CTE) in Colorado. In June 2021, Senate Bill 21-260 created several new state-owned enterprises, including CTE. The bill directed CTE to set a fee per retail delivery of tangible personal property beginning in fiscal year 2022 to support the expansion of electric motor vehicles and infrastructure for transit in support of the goal of reducing greenhouse gas emissions. As a result, CTE must promulgate rules governing fees and the process governing CTE grants, loans and rebates. These rules will be codified as 2 CCR 607-1 ("Rules Governing Clean Transit Enterprise Processes and Fees").

In this rulemaking, CTE proposes to set the retail delivery fee at three cents, following the guidance found at C.R.S. §43-4-1201, et seq. In addition, CTE plans to follow the same processes for any grants, loans, or rebates that the Colorado Department of Transportation (CDOT) currently uses for transit grants. This would include posting the criteria for grants, loans, and rebates on the CTE website no later than 60 days prior to the application deadline and notification of the CTE Board’s decisions on proposals within 90 days of the application deadline.

CDOT invites you to comment on the proposed rules for the Clean Transit Enterprise by March 28, 2022. Please submit all written comments to dot_rules@state.co.us. The proposed rule is attached for your review. All comments received from stakeholders between February 25-March 28, 2022 will be posted on CDOT’s rulemaking website and will be available for review during the public comment period.

A proposed permanent rulemaking hearing will be held on April 4, 2022 at 1:00 p.m. MT. I have attached the notice of the hearing, the statement of basis and purpose, and the proposed rule language in a single PDF document for your reference.
The rulemaking hearing will be conducted in a virtual setting due to COVID-19. All interested parties are urged to attend this public hearing by registering for the webinar here. After registering, you will receive a confirmation email containing information about joining the webinar. Interested parties may also register for the virtual rulemaking hearing on CDOT's website.

While you are welcome to attend the virtual rulemaking hearing and provide comments at that time, receiving written comments in advance allows CDOT and the Hearing Officer the opportunity to consider comments and make any changes necessary to the proposed rules. Please submit written comments to me via email at dot_rules@state.co.us on or before 5:00 p.m. on March 28, 2022.

Together, we can create meaningful and effective regulations. Please feel free to contact the CDOT rules team at dot_rules@state.co.us if you have any questions or would like to be removed from our stakeholder list. Thank you for your participation in the rulemaking process and for providing feedback on the proposed rules.

Kind regards,

Hello Stakeholder:

Since you requested notification of the Colorado Department of Transportation's ("CDOT") rulemakings, this email serves to notify you as an interested party regarding proposed permanent rulemaking for CDOT's new Clean Transit Enterprise, 2 CCR 607-1.

Senate Bill 21-260 was enacted in June 2021. It created several new state-owned enterprises and directed the new Clean Transit Enterprise (CTE) to set a fee per retail delivery of tangible personal property beginning in fiscal year 2022 to support the expansion of electric motor vehicles and infrastructure for electric transit in an effort to reduce greenhouse gas emissions. CTE must promulgate rules governing fees and the process for soliciting, awarding, and overseeing CTE grants, loans, and rebates. These rules will be codified as 2 CCR 607-1 ("Rules Governing Clean Transit Enterprise Processes and Fees").

In this rulemaking, CTE proposes to set the retail delivery fee at three cents, following the guidance found at C.R.S. § 43-4-1201, et seq. In addition, CTE plans to follow the same processes for any grants, loans, or rebates that CDOT currently uses for transit grants. This would include posting the criteria for grants, loans, and rebates on the CTE website no later than 60 days prior to the application deadline and notification of the CTE Board's decisions on proposals within 90 days of the application deadline.

CDOT invites you to comment on the proposed rules for the Clean Transit Enterprise by March 28, 2022. Please submit all written comments to dot_rules@state.co.us. The proposed rule is attached for your review. All comments received from stakeholders between February 25-March 28, 2022, will be posted on CDOT's rulemaking page and will be available for review during the public comment period.

A proposed permanent rulemaking hearing will be held on April 4, 2022 at 1:00 p.m. MT. I have attached the notice of the hearing, the statement of basis and purpose, and the proposed rule language in a single PDF document.

The rulemaking hearing will be conducted in a virtual setting due to COVID-19. All interested parties are urged to attend this public hearing by registering for the webinar here.

After registering, you will receive a confirmation email containing information about joining the webinar. Interested parties may also register for the virtual rulemaking hearing on CDOT's website.

Good evening-

Thank you for registering for the CTE Proposed Rule Hearing. I am writing to let you know directly that the CTE Board will now be holding the rulemaking hearing at the beginning of its April Board meeting on Tuesday, April 12, 2022 at 1:30 p.m. on Zoom. I hope that you will still be able to attend. If you are not able to attend, please feel free to send me written comments by April 7, 2022 and I will ensure that they are part of the rulemaking record to be considered by the Board. The new registration link is https://cdot.zoom.us/meeting/register/tJctd-iuqD4sGtTnKXX612IISu1NIOZw4bkj0.

As a new Board, we would like the Board members to have their best opportunity to hear directly from the public and rescheduling the hearing will allow that to happen. It also provides a chance for public participants in the rulemaking part of the meeting to remain on the Zoom and hear about the work of this new CTE Board. I have attached an updated notice of hearing with the same statement of basis and purpose and proposed rule you may have received in my email last Friday. Nothing has changed aside from the date, time, and the fact that the Board meeting uses Zoom rather than GoToWebinar. I do apologize for making this change after you had already registered on GoToWebinar and please feel free to reach out to me with any questions or concerns.

Thank you again for your interest in participating in our rulemaking and I hope you have a nice weekend.

Kind regards,
Sari

Dear Ms. Sekulich,

Thank you for providing this important feedback on Senate Bill 21-260. I will forward it along to the rest of the team. Do you wish for this comment to be included in the rulemaking record for the Clean Transit Enterprise and/or the Nonattainment Area Air Pollution Mitigation Enterprise?

My best,

Hello,

This upcharge will hurt the sick and aged most of all. Home delivery was proven during Covid to enable people to remain in their homes and still survive. I suggest those who are disabled, or over 65 are exempt from this additional tax.

Those who are able will probably just start driving to the store if home delivery becomes too expensive.

Dear Clean Transit Enterprise Governing Board:

Thank you for the opportunity to provide public comment on 2 CCR 607-1- Rules Governing Clean Transit Enterprise (CTE) Processes & Fees. The Regional Transportation Planning Office (RTPO) includes the Grand Valley Metropolitan Planning Organization (GVMPO), the Grand Valley Transportation Planning Region (TPR) and is the contract administrator for Grand Valley Transit (GVT). These comments are sent on behalf of the Grand Valley Regional Transportation Committee (GVRTC), the transportation policy board that oversees the GVMPO, GVTPR and GVT. The GVRTC includes elected officials from Mesa County, City of Grand Junction, City of Fruita and Town of Palisade, all of whom also help to fund GVT and the RTPO.

The RTPO supports the progression of clean transit in Colorado and the creation of the CTE. However, we do have a number of concerns with the rule with respect to equity as it does not currently apply to all Colorado transit agencies, including GVT, nor does it account for the expansions of transit services in Colorado.

Grand Valley Transit was an early adopter in transitioning its fleet to clean energy with the first CNG buses arriving in 2011. In 2015, the Persigo WWTP commissioned a first-of-its-kind project that beneficially recaptures waste methane gas (biogas) produced as a byproduct of the treatment process and converts it into compressed natural gas (CNG) which is used as a vehicle fuel. The CNG produced at the Persigo WWTP is a carbon-neutral advanced biofuel (considered a Renewable and recoverable Natural Gas-RNG) and is used locally to fuel approximately 74 fleet vehicles owned by the City of Grand Junction and GVT buses. This RNG accounts for approximately 50% of the fuel used to power GVT buses, gas that would otherwise be burned off with no beneficial use. Additional storage has recently been added to the system so that all methane captured at the WWTP is being used to power vehicles. Since 2011, GVT has converted all 29 buses to CNG and considers the system to be Clean Transit. With this conversion to CNG buses, GVT is no longer eligible for FTA low-no funding for bus replacements as there are no longer diesel or gasoline buses eligible for replacement and, as the CTE rule is written, would not be eligible for CTE funds.

With this, GVT does not agree with the CTE focus on electric vehicles with an allowance for CNG vehicles only if electric vehicles are not, “practically available”. RNG has proven to be a reliable and affordable fuel source for GVT and the CTE focus on electric vehicles may prevent other communities from capturing this methane to fuel vehicles whereby this methane is burned off without a beneficial use. With this we request that the Rule be modified so that RNG vehicles are eligible for funding from the Clean Transit Enterprise in the same way electric vehicles are eligible.

Additionally, we feel that the requirement that “at least ninety percent of the fuel for the Compressed Natural Gas Motor Vehicles will be Recovered Methane” would be difficult to achieve and prohibitive of communities capturing and using methane. Instead, we request that the Rule change so that the
percent of RNG is to be greater than the percent of renewable energy in the local grid which would be charging the electric vehicles.

While we support the replacement of gas and diesel buses with cleaner alternatives, we believe that this funding should also be available for fleet expansion with electric or CNG buses. While we desire a future where transit is a viable, reliable and clean mode of transportation, viability depends upon service expansion. Currently GVT has one-hour headways on all regular routes. While the system does serve the travelling public, ridership is largely made up of community members that have no other transportation options leading to low ridership. In order to increase ridership so that it is attractive to the travelling public, resulting in a greater reduction in Vehicle Miles Traveled (VMT) and greenhouse gas emissions (GHG), increased frequency is needed to decrease headways to 30-min or less. Of course, additional fleet is needed to do so. With this, we request that the Rule be expanded such that fleet expansion in addition to fleet replacement is eligible for Clean Transit Enterprise funding.

We understand that the Retail Delivery Fees will be collected across the state and believe the requested revisions to the rule will lead to equity in the distribution of these funds to transit agencies across the state. This fee would be collected from residents in Mesa County but Grand Valley Transit, which serves Mesa County residents, would not be eligible to access these funds as the Rule is currently written. With this, we respectfully request that RNG be included as an option for CTE funding, that the percentage of RNG be reduced and that fleet expansions of RNG and electric buses are eligible for CTE funding. If these changes are not possible, we request a way for equity to be achieved by CDOT or the CTE board through other transit funding mechanisms.

Respectfully signed,

RULES GOVERNING CLEAN TRANSIT ENTERPRISE PROCESSES AND FEES

2 CCR 607-1

1.00 Statement of Basis and Purpose and Authority

The Clean Transit Enterprise is authorized by C.R.S. § 43-4-1203(6)(g) to promulgate rules setting the amount of the Clean Transit Retail Delivery Fee at or below maximum levels contained in C.R.S. § 43-4-1203(7) and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates pursuant to C.R.S. § 43-4-1203(8).

SB21-260 Sustainability of the Transportation System created new sources of dedicated funding and new state enterprises intended to preserve, improve, and expand existing transportation infrastructure, develop the modernized infrastructure needed to support the widespread adoption of Electric Motor Vehicles, and mitigate environmental and health impacts of transportation system use. To accomplish these goals, the legislation established a Clean Transit Enterprise (CTE), an enterprise and government owned business within the Colorado Department of Transportation (CDOT) for the purpose of collecting fee revenue to reduce or mitigate the adverse impacts of air pollution and greenhouse gas emissions produced by gas and diesel-powered motor vehicles used for Retail Deliveries. CTE will support the adoption of Electric Motor Vehicles for Transit. The Enterprise is a Type 1 transfer agency and as such the Legislature specifically vested the Enterprise with the authority to promulgate rules to set the amount of the required Clean Transit Retail Delivery Fee and to govern the process by which the Enterprise accepts applications for, awards, and oversees grants, loans, and rebates. Per statute, the Enterprise can set a maximum fee of $0.03 per Retail Delivery. The fee delineated in the rule mirrors the fee amount set in C.R.S. § 43-4-1203.

The Enterprise shall notify the Department of Revenue (DOR) of the amount of the Clean Transit Retail Delivery Fee to be collected for Retail Deliveries of Tangible Personal Property purchased during each state fiscal year no later than March 15 of the calendar year in which the state fiscal year begins. CDOT will work with DOR to determine the maximum fee amount that may be imposed, which shall be the maximum amount for the prior state fiscal year adjusted for inflation.
