Note 1: Specific information on the current qualification process, guidance in the certification, and annual re-certification is located in CP 11, Part II, Sub-Part 2 of the CDOT Field Materials Manual.

Note 2: In accordance with the Special Notice to Contractors, a Certificate of Compliance (COC) will be required for all epoxy-coated rebar, tie bars and dowels delivered to a CDOT project.

Note 3: The source of steel reinforcing bars must be checked on the CDOT QML to ensure that the bars are coming from a CDOT approved steel mill.
