Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

3M™ Stamark™ Pavement Marking Tape Series 270 ES (white) is a durable and conformable pavement marking tape.

270 ES has retroreflective layer of glass beads bonded in a highly durable polyurethane topcoat. 3M's premium patterned design presents a near vertical surface to traffic which maximizes the retroreflectance of the tape. 270 ES also has an embedded net which provides an increased tear resistance along with an improved pressure sensitive adhesive (PSA) package on bottom surface that allows for "Extended Season" applications down to 40°F.

Entrance Angle is 88.76°, Observation Angle is 1.05°, Retroreflected Luminance is 300.

Restrictions, (installation and/or use):

Series 270 ES tape cannot be applied below 40°F.

Use of the product, (be specific to CDOT highway activities only):

Designed for long lines, edge lines, channelizing lines, gore markings, stop bars, crosswalks and symbols /legends.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):

3M™ Stamark™ Pavement Marking Tape Series 270 ES is a highly effective traffic control device. The 270 ES premium patterned design allows for wet recovery in rain conditions and the "Extended Season" adhesive allows for year round application down to 40° F within application guidelines.
