Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

The Dandy Curb Sack is a geotextile fabric unit designed to be fitted to curb and gutter inlet systems. The product is placed in front of and extends beyond the inlet opening on both sides, and has a fabric sack that is fitted to the inlet opening.

Restrictions, (installation and/or use):

Dandy Products will only function as intended if it is installed in accordance with manufacturer's recommendations.

Use of the product, and Benefit to CDOT(be specific to CDOT highway activities only):

The Dandy Curb Sack is used for storm drain inlet protection. The Dandy Curb Sack is specially designed to conform to the shape of the curb and provide built-in overflow design. The product reduces or eliminates the need to flush or clean inlets, and is easy to install, maintain, inspect, and reuse.
