Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

The TrafFix Channelizer Drum and base, whether it be Tire Ring Base or Snap-in Recycled Rubber Base, are made to separate in an impact. They also can be separated for transportation and storage. Drums shipped into Colorado are sheeted to meet current State Specifications.

Drum is BRIGHT ORANGE Color which color is molded throughout the drum with UV inhibitors added to minimize fading and maintain the SAFETY ORANGE Color even after years of use on Colorado's roads and highways. The TrafFix Channelizer Drum is the SAME MOLD and DRUM that has been in-use on Colorado's roads for OVER 30 years.

NTPEP Tested - and Meets or Exceeds MUTCD Specifications

Restrictions, (installation and/or use):

NONE

Use of the product, and Benefit to CDOT (be specific to CDOT highway activities only):

This is a Channelizing Product for Traffic and Construction Sites, again, as has been utilized in Colorado for OVER 30 years.
