Description of the product: (Include specific quantifiable details from the tech data sheet. Advertising generalities are not appropriate.)

This product meets ASTM C595 specifications for Blended Portland Cement. It is designed for use in all applicable CDOT general use concrete applications.

Restrictions, (installation and/or use):

Use of the product, and Benefit to CDOT (be specific to CDOT highway activities only):

This product can be used on all applicable construction projects where Type I and/or Type II is specified. This product will have a moderate sulfate resistance as well as a moderate heat of hydration. It is blended with GGBFS to reduce the carbon footprint. The clinker used in the manufacturing is fired with over 30% waste fuels as well as made with over 40% recycled raw materials.
