Description of the product: (Include specific quantifiable details from the tech data sheet. Advertising generalities are not appropriate.)

SikaColor®-120 G are free-flowing concentrated pigment granules designed to permanently color concrete and other cementitious materials. They can be poured directly into concrete mixes, conveyed by gravity feed or pneumatic equipment, or pre-dispensed into pulpable bags that can later be added directly to the concrete mix as a single unit.

Restrictions, (installation and/or use):

Do not use with chloride based accelerators.

Use of the product, and Benefit to CDOT (be specific to CDOT highway activities only):

Provide a integral concrete color. Can be mixed with Redimix providing a one step installation along with the concrete

Specifications: (listing those applicable is required.)
