

Pre-Approved Product Evaluation Request & Summary

Product Evaluation Coordinator
Colorado Department of Transportation 4670 North Holly Street
Denver, Colorado 80216

APL Reference No.

CD5972-26 Only

Material Code

702.06 CDOT Use Only

Material Code description full name

Sealant, Hot Poured Type II CDOT Use Only

Part 1

Product Name:

Elastoflex 61 [Batch # 2412041]

Product category:

Sealant [Joint and Crack] ASTM D6690 Type II

Product Representative / Distributer (name & address):

Nicole Maxwell

Description of the product: (Include specific quantifiable details from the tech data sheet. Advertising generalities are not appropriate.)

Elastoflex 61 is a hot applied, polymer modified asphalt crack and concrete joint sealant. This product applies and sets up best in up to moderate temperatures, and is highly durable in very cold to hot climates. Elastoflex 61 is self leveling, quick melting and extremely flexible. Formulated with a low viscosity for maximum crack penetration. This material is formulated to meet ASTM D6690 Type II.

Restrictions, (installation and/or use):

Recommended application temperature is 380°F and should not exceed 400°F.

Use of the product, and Benefit to CDOT (be specific to CDOT highway activities only):

Crack sealing inhibits the penetration of moisture and incompressible debris, extending the life of the road
