Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

The QuadGuard® Elite M10 24in TL-3 is a MASH (Manual for Assessing Safety Hardware) 2016 Test Level 3 compliant re-directive, non-gating crash cushion. The QuadGuard® Elite M10 24in TL-3 can be used to shield up to 24in (610 mm) wide roadside features, and has transitions to concrete barrier, guardrail, and other roadside hazards.

Restrictions, (installation and/or use):
MASH 2016 TL-3, 24in wide.

Use of the product, (be specific to CDOT highway activities only):
 The QuadGuard® Elite M10 24in TL-3 can be used to shield up to 24in (610 mm) wide roadside features & has transitions to concrete barrier, guardrail, and other features.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):
 The QuadGuard® Elite M10 24in TL-3 system is tested to MASH 2016 TL-3, so can be used for new highway applications, and as a replacement for NCHRP 350 impact attenuators. As a member of the QuadGuard® family of crash cushions, it utilizes many of the same components as other NCHRP 350 and MASH QuadGuard® systems.

Specifications: (listing those applicable is required)

- CDOT : 614.07
- ASTM :
- AASHTO: MASH 2016
- FHWA : Eligibility Letter CC-163
- other :

Certificate of Compliance (COC) provided Certificate of Verification (COV) provided for select categories

Product Testing: (National/independent laboratories or universities with Report Date.) **Certified Test Report (CTR)** provided to validate all claims.

- NTPEP-AASHTO:
- FHWA :
