

3.24 REQUIRED PERMITS AND APPROVALS

Transportation projects must comply with a wide range of federal and state environmental laws and regulations, permits, reviews, notifications, consultations, and other approvals. **Table 3.24-1** lists the permits, notifications, or concurrences that are required and must be obtained prior to project construction. Additional permits may be required for other activities, such as:

- ❖ Erosion control/grading
- ❖ Utility access, relocation, or surveying
- ❖ Construction, slope, and utility easements
- ❖ Access and authorizations for consistency with local plans and policies

Many of the approvals will be addressed through the National Environmental Policy Act process and documented in the FEIS.

EXHIBIT 3.24-1
Summary of Permits and Approvals

Agency	Division	Activity
Federal Highway Administration		<ul style="list-style-type: none"> ❖ Preparation of EIS and issuance of a Record of Decision (ROD) ❖ Issuance of an “Only Practicable Alternative” finding in regards to floodplain encroachment (EO) 11988 ❖ Issuance of an “Only Practicable Alternative” finding in regards to construction in wetlands (EO) 11990 ❖ Approval of an Interchange Justification Report for a new or modified interchange on an interstate highway
