**EXISTING CONDITIONS**  
Farmington Hill and the US 160/550  
intersection. View from across the  
Wilson Gulch valley

Typical existing road  
cross section grades.

**Design Variation**  
RGM and  
RGM6  
Illustration

Proposed grading, future  
use undetermined

**PROPOSED**  
US550 Roadway and Farmington Hill  
intersection are removed. Cross section  
grading pulls back some unstable fill  
slopes for better revegetation.  
Landscape along old roadway is  
reclaimed to native species.  
A wildlife crossing and drainage  
underpass is added to the former  
intersection area.
