US 550 South Connection to US 160: Independent Alternatives Analysis

ART WORK VISUALIZATIONS BY
FMLA FRANK MILTENBERGER LANDSCAPE ARCHITECT

PROPOSED
Bird's eye view to the south showing the proposed roundabout intersection at US 160. This is the south end of the existing bridge. US 550 is on the right, and the US160 eastbound on ramp is to the left. A large cut is needed to fit this intersection into the steep hillside.
