MEMORANDUM

DATE: WEDNESDAY, JANUARY 16, 2019

TO: All CDOT & Consultant Design & Construction Personnel

FROM: STAFF BRIDGE BRANCH MANAGER (SIGNATURE ON FILE)

SUBJECT: REVISION OF BRIDGE SPECIFIC PROJECT SPECIAL PROVISIONS AND FORMS AND FORM LETTERS

New and revised Bridge Specific Project Special Provisions are available on the website dated January 2019. They generally include the provisions we've been using for our Bridge Preventative Maintenance projects as well as an updated version of the Pedestrian Bridge provision. The Bridge Specific Project Special Provisions are available on the CDOT Web Site located at:

External Web - <https://www.codot.gov/library/bridge/specifications>

The changes made were:

The specification references were updated to conform with the Standard Specifications, LRFD specifications and current usage.

The Project Special Provision was deleted, if the original was incorporated in Standard Specifications or no longer used.

These project specials should be used on projects as described in the INSTRUCTION TO DESIGNERS in each provision. If corrections or improvements need to be made please contact Staff Bridge.

In addition, we have added a folder for commonly used forms and form letters for easier access and availability. These include:

Final Detail Letter - Consultant Structural Design
Final Detail Letter - Consultant Final Submittal Certification
Final Detail Letter - In House Structural Design
Structure Number Request Form
Owner Acceptance/Final Walk Through Documents
Staff Bridge Comment Resolution Form

These forms and form letters should be used to comply with our current processes. If corrections or improvements need to be made please contact Staff Bridge.

Please review and become familiar with these revisions and additions. If you have any questions or recommendations for improvement, please contact:
