

MEMORANDUM

DEPARTMENT OF TRANSPORTATION

4201 East Arkansas Ave.
Denver, Colorado 80222
(303) 757-9309

DATE: Project:
TO: <PE II/Project Manager> Subaccount:

FROM: <Unit Leader>, Staff Bridge

SUBJECT: Request for Foundation Investigation

Soundings are requested for structure <> <> on the above referenced project. We are sending a copy of this memo and one set of prints showing the approximate locations for the structure soundings requested to <Program Engineer/Construction Engineer>. When access is cleared for drilling, please inform the Engineering Geology Unit at 303-757-9275.

The drilling crew will be able to start obtaining the soundings sometime during the week of <>. We would appreciate having each location staked with the appropriate coordinates, elevations, stations, and offsets prior to the arrival of the drilling crew at the structure location <>.

We are requesting that preliminary geology recommendations be provided by <>. This project will be designed in Metric <English> units and the method of design will be LFD <WSD>. An electronic file is available in the Geology Directory on HQCOMMON with the file name <>.
