

Regional Transportation District

Our mission:

To meet our constituents' present and future public transit needs by offering safe, clean, reliable, courteous, accessible, and cost-effective service throughout the District.

Memorandum

To: Phillip A. Washington, General Manager

From: Bill Van Meter, Assistant General Manager, Planning 

Date: October 7, 2011

Subject: Park-n-Ride Utilization Report

Attached is a copy of the District's latest Park-n-Ride report, updated for the period July through September 2011. This report shows the average vehicle utilization for each Park-n-Ride for each month of the reporting period, the average utilization for the quarter, the average utilization for the previous quarter, an average utilization of the past 12 months, and the percent of capacity used for the time frame, for each of the quarters, and for the past 12 months.

The information is marked as follows:

- Park-n-Rides that have at least 85% usage overall, based on the average for the quarter ("Current Quarter" column), are bolded.
- In the "Comparison" column, which shows the percent change in usage between the previous quarter (second quarter 2011) and the current quarter, those Park-n-Rides with a decrease in usage are italicized.
- In the "Past 12 Months" column, the Park-n-Ride data is in bold if its percent of usage is 85% or more.

As the table shows, compared to last quarter, light rail Park-n-Ride usage decreased by 8%, but bus Park-n-Ride use increased by 1%. Overall, park-n-Ride usage decreased 4% from last quarter.

Please forward questions, comments or corrections on this park-n-Ride utilization report to Genevieve Hutchison, FAS-73, or ext. 2054, or genevieve.hutchison@rtd-denver.com.
