RAMP Eligibility Criteria and Reason for Ineligibility

CRITERIA	APPLICABILITY	REASON for INELIGIBILITY
1. Can be constructed/implemented by 2017	All	<ul style="list-style-type: none"> • Cannot be constructed by 2017 (HPTE exempted from criteria). • Have not demonstrated a reasonable schedule that will result in completion by 2017. • Stand-alone studies, such as PEL, or design are not eligible because the program was intended for projects that can be constructed/implemented. • Assets not in CDOT asset management system are not eligible as asset management projects.
2. Project is consistent with Long-Range Statewide Transportation Plan and CDOT Policies	All	<ul style="list-style-type: none"> • Project is of the type of locally proposed interchange that is following the 1601 process and therefore must be funded by others. • Not consistent with NEPA decision documents; therefore a new/additional NEPA process is required and the schedule does not include/accommodate the new/additional NEPA process. • The purchase of transit vehicles and funding for transit service or facilities are not eligible for RAMP because this would require the flexing of FHWA funds to FTA funds which CDOT has not done in the past.
3. On state highway system improvement projects only or integrated with state highway system	All	<ul style="list-style-type: none"> • Project is not on state highway system and is not integrated with the state highway system. • Project does not provide substantial benefit to state highway system.
4. Must be able to provide sufficient information on the additional eligibility and evaluation criteria.	All	<ul style="list-style-type: none"> • Application does not have complete or correct information for eligibility evaluation. • Application does not have sufficient information to demonstrate that the required information for the detailed evaluation could be provided.
5. Demonstrate local support	Public - Private	<ul style="list-style-type: none"> • Local support is not demonstrated. • Not all affected communities demonstrated local support.

CRITERIA	APPLICABILITY	REASON for INELIGIBILITY
6. Project with the potential to be funded with tolls and/or significant private contribution or investment	Public - Private	<ul style="list-style-type: none"> • Cannot demonstrate significant private contribution or investment.
7. Commitment of local match for a target minimum of 20% (non-federal highway sources of cash, ROW, or design costs)	Public - Private Public - Public	<ul style="list-style-type: none"> • No local match identified. • For the RAMP program, locally proposed interchanges require a transportation partnership, and therefore must either provide local match or private funding.
8. Demonstrates local support and willingness for local maintenance responsibility	Devolution	<ul style="list-style-type: none"> • To be public-public, CDOT must be interested in devolution of state highway segment.
