Venice Mallow

(Hibiscus trionum)

The Colorado Noxious Weed Act requires every landowner to **eradicate, contain or suppress this weed** wherever it is found on his or her property. The Colorado Department of Transportation controls these weeds on its right-of-way.

Venice mallow is a summer annual forb that grows 10 to 18 inches tall. Leaves are alternate and divided into 3 to 5 distinct lobes. The leaves are approximately 3 inches wide and long. Hair is found on the underside of the leaf. Flowers are a light sulfur to yellow color with a red to purple center. The flowers have 5 petals and are up to 1.5 inches in diameter. They last only a couple of hours.

To prevent them from spreading, remove these plants before they can go to seed. More details about this species and controlling it are available online at <http://www.colorado.gov/ag/weeds>.
