CDOT Wildlife Program

The Colorado Department of Transportation's Wildlife Program staff provides information to engineers and planners early in the transportation project development process so that wildlife, native plants and ecological communities are considered.

This program addresses highway impacts not only on animal and plant species listed under the federal Endangered Species Act, but also on common wildlife species such as deer and elk.

Partner agencies: Colorado Division of Wildlife, U.S. Fish and Wildlife Service

Law: 16 USC 35
