### **Article VIII. Revenues and Expenditures**

The statewide transportation enterprise special revenue fund, referred to as the “transportation special fund”, was created in the state treasury pursuant to section 43-4-806(3)(a), C.R.S. All revenues received by the Transportation Enterprise, including any revenues from user fees collected shall be deposited into the transportation special fund. The

Transportation Enterprise Board may establish separate accounts within the transportation special fund as needed in connection with any specific surface transportation infrastructure project. The Transportation Enterprise may also deposit or permit others to deposit other moneys into the transportation special fund, but in no event may revenues from any tax otherwise available for general purposes be deposited into the transportation special fund. The state treasurer, after consulting with the Transportation Enterprise Board, shall invest any moneys in the transportation special fund, including any surplus or reserves, but excluding any proceeds from the sale of bonds or earnings on such proceeds invested pursuant to section 43-4-807 (2), that are not authorized in sections 24-36-109, 24-36-113, C.R.S.

All interest and income derived from the deposit and investment of moneys in the transportation special fund shall be credited to the transportation special fund and, if applicable, to the appropriate surface transportation infrastructure project account. Moneys in the transportation special fund shall be continuously appropriated to the Transportation Enterprise for its purposes established by law. All moneys deposited in the transportation special fund shall remain in the fund for Transportation Enterprise purposes, and no part of the fund shall be used for any other purpose.

The Transportation Enterprise shall prepare a separate annual accounting of the user fees collected from any surface transportation infrastructure project upon which any user fee is imposed; except that a partner of the Transportation Enterprise may prepare the annual accounting for a project upon which it imposes a user fee pursuant to the terms of a public-private partnership.

The Transportation Enterprise may expend moneys in the transportation special fund to pay bond obligations, to fund surface transportation infrastructure projects, and for the acquisition of land to the extent required in connection with any surface transportation infrastructure project. The Transportation Enterprise may also expend moneys in the transportation special fund to pay its operating costs and expenses. The Transportation Enterprise Board shall have exclusive authority to budget and approve the expenditure of moneys in the transportation special fund.

The Commission may transfer moneys from the state highway fund created in section 43-1-219, C.R.S., to the Transportation Enterprise for the purpose of defraying expenses incurred by the Transportation Enterprise prior to the receipt of bond proceeds or revenues by the Transportation Enterprise. The Transportation Enterprise may accept and expend any moneys so transferred, and, notwithstanding any state fiscal rule or generally accepted accounting principle that could otherwise be interpreted to require a contrary conclusion, such a transfer shall constitute a loan from the Commission to the Transportation Enterprise and shall not be considered a grant for the purposes of section 20 (2) (d) of article X of the state constitution. As the Transportation Enterprise receives sufficient revenues in excess of expenditures, the Transportation Enterprise shall reimburse the state highway fund for the principle amount of any loan made by the Commission plus interest at a rate set by the Commission. Any moneys loaned to the Transportation Enterprise shall be deposited into a

fund to be known as the statewide transportation enterprise operating fund, and shall not be deposited into the transportation special fund. Moneys from the transportation special fund may, however, be used to reimburse the state highway fund for the amount of any loan or any interest thereon.

User fee revenues shall be expended only for purposes authorized by section 43-4-806(3), C.R.S., and only for the surface transportation infrastructure project for which they were collected, to address ongoing congestion management needs related to the project, or as a portion of the expenditures made for another surface transportation infrastructure project that is integrated with the project as part of a surface transportation system; except that the Transportation Enterprise Board may use user fee revenues from each surface transportation infrastructure project in proportion to the total amount of such revenues generated by the project to pay overhead of the Transportation Enterprise.

**Article IX. Articles of Organization—Amendment**

The Transportation Enterprise Board may amend, supplement, or repeal these articles of organization, or adopt new articles of organization. All such changes shall affect and be binding upon the Transportation Enterprise, the Transportation Enterprise Board and its members heretofore, as well as hereafter, authorized. Any amendment, supplement or repeal of the articles of organization or adoption of new articles of organization shall require a majority vote of members of the Transportation Enterprise Board at any regular meeting of the Transportation Enterprise Board.

**Article X. Bylaws**

The Transportation Enterprise shall adopt a set of bylaws to govern its internal operations and procedures.

(10) No later than February 15, 2010, and no later than February 15 of each year thereafter, the Transportation Enterprise shall present a report to the committees of the house of representatives and the senate that have jurisdiction over transportation. The report shall include a summary of the status of any current surface transportation infrastructure projects, a statement of the Transportation Enterprise's revenues and expenses, and any recommendations for statutory changes that the Transportation Enterprise deems necessary or desirable. The committees shall review the report and may recommend legislation. The report shall be public and shall be available on the web site of CDOT on or before January 15 of the year which the report is presented.
