SUBJECT: FISCAL YEAR 2015-16 YEAR END REPORT

Purpose

This memorandum provides a Fiscal Year (FY)2015-16 year-end report for the Colorado High Performance Transportation Enterprise (HPTE) Fund 536 and Fund 537. Information provided includes FY2015-16 unaudited revenue reconciliation information, cost center balances eligible to be rolled into FY2016-17 and a final budget to actual statement for June 2016, period 13.

Action

The purpose of this memo is informational only and is provided for HPTE Board review and comment.

Fiscal Year 2015-16 Year End Details

At the close of each fiscal year, the Office of Financial Management and Budget (OFMB) within the Division of Accounting and Finance (DAF) compares the forecasted revenues to the actual revenues received as well as reviews all remaining cost center balances to determine if they are eligible to roll forward to the next fiscal year. As outlined in the new annual HPTE budget guidelines, staff committed to bringing information regarding the FY2015-16 revenue reconciliation and roll forward balances this month.

FY2015-16 Revenue Reconciliation

A comparison of FY2015-16 estimated revenues for HPTE Fund 536 (Special Revenue Fund) and Fund 537 (Operating Fund) to revenues actually received is shown below in Table 1. Although period 13 has closed, figures are still unaudited and subject to change. Should there be any notable changes following the annual audit, staff will provide an update to the Board at that time.

^{*}Revenues are still unaudited and are subject to change

The HPTE estimated revenues for the FY2015-16 to total \$4.1 million, and received \$5.3 million, creating a surplus of \$1.2 million. This surplus is primarily due to higher than forecasted sales of switchable transponders. For a more detailed breakout of Fund 536 revenues by corridor, please see Attachment A: June 2016 Period 13 Fund 536 budget to actual statement.

FY2015-16 Cost Center Roll Forward

In accordance with Policy Directive PD 703.0 and statute, all HPTE fiscal year end cost center balances are eligible for automatic roll forward from the previous to the current fiscal year. Roll forward numbers for HPTE encompass various cost center that are under Funds 536 and 537. The majority of the total roll forward number corresponds to the balances in cost centers that are set up for the managed lanes corridors. Per statute those funds are restricted to be used for managed lane projects and operations. Table 2 provides a summary of the remaining cost center balances that were rolled forward from FY2015-16 to FY2016-17.

Table 2: HPTE Cost Center Roll Forward Detail

Budget Category	Cost Center		Amount of Available Budget			
budget Category	Cost Center		Rolle	d to FY2016-17		
US 36 Managed Lanes*	T8620-536		\$	196,648		
I-25 North, Segment 3	T8630-536		\$	148,305		
Mountain Express Lane (MEXL)	T8640-536		\$	5,600		
Program Operations & Administration	T8700-537		\$	314,506		
		Total	\$	665,059		

*Important to note: In order to accelerate the process of implementing High Occupancy Vehicles (HOV) changes that allow HOV only Express Lane users and motorcycles to travel for free in HOV Express Lanes, HPTE initially encumbered \$1,819,736 of its own funds to cover the cost of task orders with tolling partner E-470. Last month, the Transportation Commission (TC) and HPTE Board approved an amendment to the FY2016-17 fee for service Intra-Agency Agreement which will reimburse HPTE for these task orders. Staff is processing this reimbursement and once it is completed, the \$1,819,736 will be returned to the US36 cost center and be made available for use.

Next Steps:

- Based on the surpluses identified for both Fund 536 and Fund 537 through the revenue reconciliation process for FY2015-16, HPTE staff will work with OFMB to make the necessary adjustments to current fiscal year HPTE pools and cost centers.
- In November, staff will bring draft FY2017-18 budgets for Fund 536 and Fund 537 along with a draft FY2017-18 scope of work for comment.
- Staff is working on developing guidelines for how current and future HPTE roll forward balances can be proactively applied to outstanding CDOT obligations such as the Transportation Commission loan balance and will return to the Board once these concepts are formalized.
