Re: Consideration of Alternative Funding Options for Segment 5 and 6, I-25 Expansion Project

Dear Chair Hall,

On behalf of the City of Loveland, I am writing to you today to ask the Transportation Commission to consider any and all viable alternatives for funding Segments 5 and 6 of the I-25 Expansion Project. The City of Loveland is just north of this area and has been actively partnering with CDOT and other entities financially and cooperatively for segments 7 and 8.

In addition, as active participants in the North I-25 Coalition, the City of Loveland has consistently supported the overall expansion project in all segments. We urge you to consider financial opportunities such as public private partnerships (P3's) that can be fully vetted as a way to complete the remaining sections of the overall North I-25 expansion.

Sincerely,

Jacki Marsh
Mayor
